Book of Exodus may be the most consequential story ever told But its spectacular moments of heaven sent plagues and parting seas overshadow its true significance says Jan Assmann a leading historian of ancient religion The story of Moses guiding the enslaved children of Israel out of captivity to become God s chosen people is the foundation of an entirely new idea of religion one that lives on today in many of the world s faiths The Invention of Religion sheds new light on ancient scriptures to show how Exodus has shaped fundamental understandings of monotheistic practice and belief **The Fibonacci Codex- Ascending the Spiral Staircase to God** Hossein Tolooee ,2025-07-06 The Fibonacci Codex Ascending the Divine Spiral Staircase to God reveals the hidden numerical blueprint of reality This groundbreaking work uncovers the lost spiritual teachings behind Fibonacci s sequence showing how this mathematical pattern serves as a divine ladder connecting heaven and earth Beginning with Fibonacci s secret initiation under Sufi masters in North Africa the book traces how sacred mathematics flowed through history from Al Khwarizmi s revolutionary algebra to Da Vinci s encoded artworks and Newton s alchemical research You ll discover the 13 step path hidden within the Fibonacci sequence including the forbidden 13th step that ancient traditions warned could alter reality itself Practical applications include Using the Golden Ratio to reprogram your DNA Crafting effective numerical sigils Preparing for the coming 2027 numerical convergence Activating the Merkaba light body through sacred geometry Accessing interdimensional portals through mathematical sequences The book culminates with advanced techniques from the three masters Fibonacci Al Khwarizmi and Da Vinci revealing how their combined wisdom forms a complete system for spiritual ascension This is not theoretical knowledge but a living transmission meant to be applied this is living sigil for readers of sacred geometry esoteric mathematics and spiritual awakening texts The Fibonacci Codex offers both profound revelations and practical methods The numerical secrets contained within have been guarded for centuries and their full unveiling coincides with humanity s current evolutionary leap This book will change how you see numbers reality and your own divine potential *The Forbidden Universe* Lynn Picknett,Clive Prince,2011-04-01 Secret societies famous scientists ancient Egyptian mysticism and a fascinating addition to the god versus science debate the Catholic Church By the bestselling authors of The Templar Revelation and Mary Magdalene The Forbidden Universe reveals how the foundations of modern science were based around a desire to destroy the church The great pioneering scientists of the Renaissance and the early Enlightenment including Copernicus Galileo and Sir Isaac Newton were fervent devotees of the philosophical mystical system of Hermeticism Many of the most important scientists of this age including Galileo belonged to a secret society called the Giordani which had the agenda to overthrow the Church and establish a new age of Hermetic supremacy Theurgy: Theory and Practice P. D. Newman,2023-12-05 Connects the magical practice of theurgy to the time of Homer Explores the many theurgic themes and events in the Odyssey and the Iliad Analyzes the writings of Neoplatonists Porphyry and Proclus showing how both describe the technical ritual praxis of theurgy in Homeric terms Examines the methods of telestik a form of theurgic statue animation and technique to

divinize the soul and how theurgy is akin to shamanic soul flight First defined by the second century Chaldean Oracles theurgy is an ancient magic practice whereby practitioners divinized the soul and achieved mystical union with a deity the Demiurge or the One In this detailed study P D Newman pushes the roots of theurgy all the way back before the time of Homer He shows how the Chaldean Oracles were not only written in Homeric Greek but also in dactylic hexameter the same meter as the epics of Homer Linking the Greek shamanic practices of the late Archaic period with the theurgic rites of late antiquity the author explains how both anabasis soul ascent and katabasis soul descent can be considered varieties of shamanic soul flight and how these practices existed in ancient Greek culture prior to the influx of shamanic influence from Thrace and the Hyperborean North The author explores the many theurgic themes and symbolic events in the Odyssey and the Iliad including the famous journey of Odysseus to Hades and the incident of the funeral pyre of Patroclus He presents a close analysis of On the Cave of the Nymphs Porphyry s commentary on Homer s Odyssey as well as a detailed look at Proclus s symbolic reading of Homer s Iliad showing how both of these Neoplatonists describe the philosophical theory and the technical ritual praxis of theurgy Using the Chaldean Oracles as a case study Newman examines in detail the methods of telestik a form of theurgic statue animation linking this practice to ancient Egyptian and Greek traditions as well as theurgic techniques to divinize the soul Revealing how the theurgic arts are far older than the second century Newman s study not only examines the philosophical theory of theurgy but also the actual ritual practices of the theurgists as described in their own words
