Heroic Commitment In Richardson Eliot And James:

Heroic Commitment in Richardson, Eliot, and James Patricia McKee, 2014-07-14 Patricia McKee demonstrates that Richardson Eliot and James see disorderliness and indeterminacy in the human self human relations and literature as primary sources of meaningfulness The relationships these novels portray as most satisfying are unsettled and unsettling interfering with rather than contributing to social stability Originally published in 1986 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Heroic Commitment in Richardson, Eliot, and James Patricia McKee, 1986-01-01 **The Mother / Daughter Plot** Marianne Hirsch, 1989-10-22 Mothers and daughters the female figures neglected by classic psychoanalysis and submerged in traditional narrative are at the center of this book The novels of nineteenth and twentieth century women writers from the Western European and North American traditions reveal that the story of motherhood remains the unspeakable plot of Western culture Focusing on the feminine and more controversially on the maternal this book alters our perception of both the familial structures basic to traditional narrative the Oedipus story and the narrative structures basic to traditional representations of the family Freud's family romance Confronting psychoanalytic theories of subject formation with narrative theories Marianne Hirsch traces the emergence and transformation of female family romance patterns from Jane Austen to Marguerite Duras **Revisiting Richardson** Rebecca Anne Barr, Bonnie Latimer, 2025-04-15 The preoccupations of eighteenth century novelist Samuel Richardson the inequities of gender and sexuality race and white femininity masculinity sadism and control religion and selfhood authorship and artistic form continue to resonate with contemporary readers This fresh collection reconsiders his oeuvre expanding and significantly updating critical debate on its meaning and importance In these lively and engaging essays contributors examine historically overlooked works provide new readings of his best known novels Pamela and Clarissa and stake a serious claim for the importance of his final novel Sir Charles Grandison Diverse inventive and provocative these essays demonstrate the complexity relevance and surprising legacies of Richardson's novels and characters finding traces in post conceptual poetry detective fiction and in the fantasies of historical romance Revisiting Richardson reflects on a decade of scholarship while delivering innovative perspectives on an author whose work continues to be indispensable for understanding the history of the novel Published by Bucknell University Press Distributed by Rutgers University Press *Styles of Meaning and Meanings of Style in Richardson's Clarissa* Gordon D. Fulton, 1999 Gordon Fulton provides a fascinating new study of styles in Samuel Richardson's masterpiece Clarissa connecting the style the characters deploy in their speech and letters with their positions in society Fulton argues that the novel is a critical examination of the

relationship between language and power and an expression of Richardson's own understanding of social interaction as a struggle for personal pre-eminence and sexual dominance Samuel Richardson, Comedic Narrative and the Culture of Domestic Violence Christopher D. Johnson, 2023-04-26 This book provides a comprehensive reading of Samuel Richardson's novels Using a combination of literary theory and criminology Christopher D Johnson demonstrates that Richardson not only understood the horrific dynamics of domestic violence but also recognized the degree to which his first novel Pamela or Virtue Rewarded 1740 could inadvertently normalize abusive relationships This recognition informed Richardson's subsequent novels and fueled his distrust of novelistic fiction especially those comedic works that depend on sudden transformations It also caused him to draw careful delineations between the practical instruction he hoped to provide and the ideals of his Christian faith particularly as they pertain to earthly suffering and self sacrifice The Richardson who emerges from the study becomes both a staunch defender of what he saw as a benevolent patriarchy and a fierce advocate for women's subjectivity happiness and safety **George Eliot's Dialogue with John Milton** Anna K. Nardo, 2003 In George Eliot's Dialogue with John Milton Anna K Nardo details how Eliot reimagined Milton's life and art to write epic novels for an age of unbelief Nardo demonstrates that Eliot directly engaged Milton's poetry prose and the well known legends of his life transposing reframing regendering and thus testing both the stories told about Milton and the stories Milton told BOOK JACKET **The Quest for Anonymity** Henry Alley, 1997 As Alley shows no other subject in Eliot branches out so largely so as to embrace all her artistic concerns including her vision of her own biography and her need to adopt her pen name Alley also demonstrates that for Eliot the transcendent capacity to be unidentified creates a flexibility of mind that allows not only women but also men to shed confining personae and to be in narrative form both man and woman at the same time an ability that imbues only the greatest of artists *Passion and Virtue* David Blewett, 2001-01-01 Richardson's novels reveal the conflict of human passion in all its aspects love lust and suffering This conflict is considered and critically analysed in fourteen essays all originally published in Eighteenth Century Fiction *Error and the Academic Self* Seth Lerer, 2003-03-17 How and why did the academic style of writing with its emphasis on criticism and correctness develop Seth Lerer suggests that the answer lies in medieval and Renaissance philology and more specifically in mistakes For Lerer erring is not simply being wrong but being errant and this book illuminates the wanderings of exiles migrants dissenters and the socially estranged as they helped form the modern university disciplines of philology and rhetoric literary criticism and literary theory Examining a diverse group that includes Thomas More Stephen Greenblatt George Hickes Seamus Heaney George Eliot and Paul de Man Error and the Academic Self argues that this critical abstraction from society and retreat into ivory towers allowed estranged individuals to gain both a sense of private worth and the public legitimacy of a professional identity **Greatness Engendered** Alison Booth, 2018-03-15 The egotism that fuels the desire for greatness has been associated exclusively with men according to one feminist view yet many women cannot suppress the need to strive for greatness In this

forceful and compelling book Alison Booth traces through the novels essays and other writings of George Eliot and Virginia Woolf radically conflicting attitudes on the part of each toward the possibility of feminine greatness Examining the achievements of Eliot and Woolf in their social contexts she provides a challenging model of feminist historical criticism

Middlemarch Adam Roberts,2021-03-31 In *Middlemarch* George Eliot draws a character passionately absorbed by abstruse allusion and obscure epigraphs Casaubon's obsession is a cautionary tale but Adam Roberts nonetheless sees in him an invitation to take Eliot's use of epigraphy and allusion seriously and this book is an attempt to do just that Roberts considers the epigraph as a mirror that refracts the meaning of a text and that thus carries important resonances for the way Eliot's novels generate their meanings In this lively and provoking study he tracks down those allusions and quotations that have hitherto gone unidentified by scholars examining their relationship to the text in which they sit to unfurl a broader argument about the novel both this novel and the novel form itself *Middlemarch Epigraphs and Mirrors* is both a study of George Eliot and a meditation on the textuality of fiction It is essential reading for specialists and students of George Eliot the nineteenth century novel and intertextuality It will also richly reward anyone who has ever taken pleasure in

Middlemarch **Narrative Hospitality in Late Victorian Fiction** Rachel Hollander,2013 Visiting late Victorian debates about the morality of literature this book reconsiders the ways in which novels engender an ethical orientation or response in their readers explaining how the intersections of nation family and form in the late realist English novel produce a new ethics of hospitality *Women and Sexual Love in the British Novel, 1740-1880* S. Weissner,1996-12-13 This text explores the ways in which four British novelists used and transformed the theme of women's relation to sexual love in the 18th and 19th centuries It analyzes the moment in cultural history when gender roles sexuality and literature met to become a new ideology

Political Constructions Carol Kay,2019-05-15 Focussing on three major eighteenth century English novelists Carol Kay explores the connections between institutional politics political philosophy and fiction Drawing from Hobbes's *Leviathan* a political problematic a complex of interconnected topics Kay offers an alternative to current critical theories that overlook the importance of political institutions in literary analysis She considers Hobbes's thought a key to what has been called the growth of political stability in England during this period a consolidation of national authority which was brutal in some respects and a matter of intense controversy *Political Constructions* shows how the fictional creations of Defoe Richardson and Sterne challenge but ultimately support Hobbes's diagnosis of a fundamental human ignorance and competition which require the political solution of consent to authority Although they testified to the potential for social conflict Kay concludes the works of novelists and philosophers helped make England the prototype of the settled state the country that did not have a modern revolution **Performing the Everyday in Henry James's Late Novels** Maya Higashi Wakana,2016-05-13

Focusing on James's last three completed novels *The Ambassadors* *The Wings of the Dove* and *The Golden Bowl* Maya Higashi Wakana shows how a microsociological approach to James's novels radically revises the widespread tradition of

putting James's characters into historical and cultural contexts Wakana begins with the premise that day to day living is inherently theatrical and thus duplicitous and goes on to show that James's art relies significantly on his powerful sense of the agonizing and even dangerous complications of mundane face to face rituals that pervade his work Centrally informed by social thinkers such as G H Mead and Erving Goffman Wakana's study discloses the richness complexity and singularity of the interpersonal connections depicted in James's late novels Persuasively argued and rich in original close readings her book makes an important contribution to James's studies and to theories of social interaction

Producing American Races Patricia McKee, 1999 Looks at how racial identity is produced in novels by James Faulkner and Morrison and makes the non essentialist argument that race becomes visible to us through a process of image production and exchange

Engenderings Naomi Scheman, 2014-02-25 Naomi Scheman argues that the concerns of philosophy emerge not from the universal human condition but from conditions of privilege Her books represents a powerful challenge to the notion that gender makes no difference in the construction of philosophical reasoning At the same time it criticizes the narrow focus of most feminist theorizing and calls for a more inclusive form of inquiry

Family Fictions Christopher Flint, 2002-02 By revealing the investment of eighteenth century British prose fiction in contemporary debates about domestic ideology this book addresses the multiple ways in which traditional notions of the family were estranged reconstituted as novel concepts and then finally presented as national social norms It focuses on works by Aphra Behn Daniel Defoe Samuel Richardson Eliza Haywood Horace Walpole Laurence Sterne and Mary Wollstonecraft addressing a number of narratives that historians of the novel have overlooked while linking such better known works as Robinson Crusoe and Pamela to their often neglected sequels Challenging competing critical claims that the household either experienced a revolution in form or that it remained essentially unchanged the author argues that eighteenth century writers employed a set of complementary strategies to refashion the symbolic and affective power of bourgeois domesticity Whether these writers regarded the household as a supplement to such other social institutions as the Church or the monarchy or as a structure resisting these institutions they affirmed the family's central role in managing civil behavior At a time however when the middle class was beginning to scrutinize itself as a distinct social entity its most popular form of literature reveals that many felt alienated from the most intimate and yet explosive of social experiences family life Prose fiction sought to channel these disturbingly fluid domestic feelings yet was in itself haunted by the specter of unregulated affect Recovering the period's own disparate perceptions of household relations the book explains how eighteenth century British prose fiction which incorporates elements from conduct books political treatises and demographic material used the family as an instrumental concept in a struggle to resolve larger cultural tensions at the same time it replicated many of the rifts within contemporary family ideology

Romancing the Novel Margaret Bruzelius, 2007 Romancing the Novel examines the ways in which romance forms characteristic of boys books as exemplified in the novels of Scott Dumas Verne and Stevenson influence narratives not generally put in the same

category both psychoanalytical accounts of the psyche and novels by authors as diverse as George Eliot Ursula Le Guin Joseph Conrad and W G Sebald Adventure has been most recently studied largely as a symptom of imperialism's ideological apparatus But as an intensely familiar story available from the earliest reading adventure conditions the narratable its influence is felt from the nursery bed to the analyst's couch By reading Maurice Sendak with Melanie Klein and Peter Rabbit with Daniel Deronda *Romancing the Novel* argues that the power and depth of the generic constraints of the adventure form have not been recognized simply because they are so ubiquitous Adventure fiction is not merely summer reading whose ephemeral effects dissipate but rather a pervasive code that exerts powerful effects on the imaginable
