Hidden Child The Linwood Method For Reaching The Autistic Child:

The Hidden Child Jeanne Simons, Sabine Oishi, 1987 Explains a successful treatment program for the autistic child for teachers parents and therapists **A History of Autism** Adam Feinstein, 2011-07-07 This unique book is the first to fully explore the history of autism from the first descriptions of autistic type behaviour to the present day Features in depth discussions with leading professionals and pioneers to provide an unprecedented insight into the historical changes in the perception of autism and approaches to it Presents carefully chosen case studies and the latest findings in the field Includes evidence from many previously unpublished documents and illustrations Interviews with parents of autistic children acknowledge the important contribution they have made to a more profound understanding of this enigmatic condition

Help Him Make You Smile Rita S. Eagle, 2007-03-14 Intersubjectivity refers to the motivation and capacity to connect and share one's own inner world with that of another person This book addresses the questions how does this precious human communication develop in infancy and what can or should be done when it does not develop The author presents a unique chronicle describing the day by day emergence of intersubjectivity in her infant son born with neurodevelopmental disabilities These observations are analyzed in the context of a critical review of theory and research about intersubjectivity in normal children and in children with atypical development From both sources emerges a model for how intersubjectivity develops in the parent infant interaction and guidelines for how to intervene when it does not While acknowledging the inroads that have been made in understanding this unique human capacity the author points to the questions that remain to be addressed in future research The book ends with a rare opportunity to follow the trajectory of her son's capacity for intersubjectivity over a period of more than thirty years It is addressed to theorists and researchers clinicians who work with infants and children with developmental disorders and their families and parents who want to understand their children's development **Behind the Mirror** Jeanne Simons, Sabine Oishi, 2021-04-20 The life story of Jeanne Simons whose own autism informed her pioneering work with autistic children Jeanne Simons devoted her career as a social worker and educator to the study treatment and care of children with autism In 1955 she established the Linwood Children's Center in Ellicott City Maryland one of the first schools dedicated to children with autism Her Linwood Model developed there was widely adopted and still forms the basis for a variety of autism intervention techniques Incredibly although unknown at the time Jeanne was herself autistic Behind the Mirror reveals the remarkable tale of this trailblazer and how she thought felt and experienced the world around her With moving immediacy Jeanne tells her life story to developmental psychologist friend and collaborator Sabine Oishi Jeanne's unique experience is supplemented by commentary from Dr Oishi who explains the importance of key biographical details and fills in additional information about the diagnosis and treatment of autism Enhanced with a photo gallery a look at new approaches to the education of children with autism and a history of Linwood since its founding the book also contains a foreword an afterword and an appendix by James C Harris MD the past director of

child psychiatry at Johns Hopkins University School of Medicine and the founder of its autism clinic Demystifying the experience of autism Behind the Mirror is a groundbreaking account of possibilities and hope

Bridges of Compassion Alex R. Campbell, Lorne Ladner, 1999 Understanding the person behind the behavior opens up a richer variety of interventions with the developmentally disabled Rather than restricting attention to shaping behavior itself Campbell and Ladner assert that insights into causes are key to helping clinicians overcome obstacles to empathy Their book is rooted in the conviction that there is no substitute for compassion in facing the challenges of dealing with the developmentally disabled

Beginning Qualitative Research Pamela Maykut, Richard Morehouse, 2002-11-01 The authors have focused this book on the serious beginning qualitative researcher theoretically rigorous yet with an understandable perspective The book has three main features First it provides a strong theoretical base for the understanding of competing research paradigms Secondly it features a methods section consistent with the non linear nature of naturalistic inquiry yet it allows the beginner to see direction Thirdly the authors include examples of actual research studies conducted and completed in a single year

The Encyclopedia of Autism Spectrum Disorders Carol Turkington, Ruth Anan, 2007 Autism is a baffling brain disorder that profoundly affects children's communication and social skills This work provides a reference guide to this disease It includes approximately 500 entries that address the different types of autism causes and treatments institutions associations leading scientists and research social impact and more

Autism Marga Hogenboom, 2013-08-22 Educating and caring for an autistic child is a severely difficult task too often associated with frustration and disappointment As a result the inner development of children with autism is at times considered to be beyond the reach of parents and carers This book challenges that assumption exploring case studies where therapy based on a holistic approach has resulted in marked improvements in the autistic child's behaviour and social integration With an extended holistic programme autistic children discover inner self awareness and self recognition leading to first steps in relationships and social skills The authors describe in detail their own practical experiences as well as the findings of other experts in the field This new third edition covers recent developments in diagnostic methods and approaches to treatment including new case studies and a new chapter looking at the sensory aspect of autism and Sensory Integration Therapy Well researched and movingly written this book has an essential positive message for all those involved in the care and education of autistic children
