Hidden Child:

The Hidden Child Camilla Lackberg, 2015-05-15 Crime writer Erica Falck is shocked to discover a Nazi medal among her late mother's possessions. Haunted by a childhood of neglect, she resolves to dig deep into her family's past and finally uncover the reasons why. Her enquiries lead her to the home of a retired history teacher. He was among her mother's circle of friends during the Second World War, but her questions are met with bizarre and evasive answers. Two days later, he meets a violent death. Detective Patrik Hedström, Erica's husband, is on paternity leave but soon becomes embroiled in the murder investigation. Who would kill so ruthlessly to bury secrets so old? Reluctantly, Erica must read her mother's wartime diaries. But within the pages is a painful revelation about Erica's past. Could what little knowledge she has be enough to endanger her husband and newborn baby? The dark past is coming to light, and no one will escape the truth of how they came to be.

The trauma of the hidden child Marcel Frydman, 2018-12-17 An analysis of the trauma of the hidden children and his long term repercussion. This book is made up of two distinct sections which are integrally connected. The author's intent is not only to present and identify the trauma of Jewish children hidden under the Nazi Occupation, but also to analyse its short and long term repercussions. To achieve this, Marcel Frydman uses two complementary approaches. The first section is an autobiographical study evoking the experience and conditions in which most Jewish children and adolescents lived during the time of the Occupation, presented from the psychologist's point of view. This approach is all the richer thanks to the author's professional career in psychology and a series of studies he carried out focusing on the lives of children deprived of a family environment. The second section contains two retrospective clinical studies: one of a sample of adults that had been hidden as children but who rediscovered their parents after the Liberation; the other of a group of orphans whose parents perished in the camps. Both groups demonstrate the indelible characteristics of the children's experiences during the time of the Occupation. After having focused on the unspeakable nature of the trauma and how this marks the adult personality, the author attempts to explain the hidden children's long silence during which the suffering was internalized. He has identified specific personality traits that brought to light particular vulnerabilities and the possibility and dangers of transmitting these traits to the next generation. This work was remarkably and rapidly successful in Belgium because it clearly differs from earlier publications based only on the author's personal experience. All copies of the first edition were sold out in less than eighteen months. A second edition will be printed in Paris by the end of February 2002. Some of our U.S. colleagues such as Dr. Thomas Jaeger and Dr. J. Khader from Omaha, Nebraska, have emphasized the indisputable importance that this book would have both in the U.S. and in Israel if only there were an English version. This is why we are requesting your financial aid for the translation expenses. A sum of 5,000 US would allow us to attain this objective. Discover the story of the hidden children under the Occupation in an essay by a renowned psychologist. EXTRAIT: It was barely six in the morning on April 13, 1943, when, along with my cousin who was two years older than me, I left the house where nine Jews had found refuge in order to

escape the deportations Since September 8 1942 we had been hiding at a tombstone engraver s Oscar Dumeunier just two steps from the Etterbeek cemetery located in Woluw St Lambert on the outskirts of the Brussels urban area In this quiet region relatively far from the city centre we rarely encountered German soldiers The apartment at our disposal was located above an unused caf We entered the upper floors from behind the building after having gone through the owner s workshop so as to avoid attracting anyone s attention The only issue that seemed problematic at least in the beginning was that of supplies In our case basic caution required that the adults avoid leaving the apartment to shop in the neighbourhood In fact they all had noticeable foreign accents which would have attracted attention thereby making their presence suspicious As a result one of the children took up this task and as a general rule it was my responsibility The day after the major raid at Brussels south train station a friend of the family rushed into our home at daybreak She was still frightened and emotionally shocked from the events she had undergone the previous night

last living link to the Holocaust the voices of Child Survivors are finally being heard Never Again Martin Gilbert, 2015-08-17 A work forty years in the making Sir Martin Gilbert's illustrated survey of the pre and post war history of the Jewish people in Europe Masterfully covering such topics as pre war Jewish life the Warsaw Ghetto revolt and the reflections of Holocaust survivors Gilbert interweaves firsthand accounts with unforgettable photographs and documents which come together to form a three dimensional portrait of the lives of the Jewish people during one of Europe's darkest times This volume introduces the crime to a new generation so that it knows of the atrocities and the seemingly futile acts of defiance taken in the words of Judah Tenenbaum for three lines in the history books Booklist **The hidden child** Hidden Child Foundation (New York, N.Y.), Anti-Defamation League (New York, N.Y.), The Holocaust as Active Memory Marie Louise Seeberg, Irene Levin, Claudia Lenz, 2016-03-09 The ways in which memories of the Holocaust have been communicated represented and used have changed dramatically over the years From such memories being neglected and silenced in most of Europe until the 1970s each country has subsequently gone through a process of cultural political and pedagogical awareness rising This culminated in the Stockholm conference on Holocaust commemoration in 2000 which resulted in the constitution of a task force dedicated to transmitting and teaching knowledge and awareness about the Holocaust on a global scale The silence surrounding private memories of the Holocaust has also been challenged in many families What are the catalysts that trigger a change from silence to discussion of the Holocaust What happens when we talk its invisibility away How are memories of the Holocaust reflected in different social environments Who asks questions about memories of the Holocaust and which answers do they find at which point in time and from which past and present positions related to their societies and to the phenomenon in question This book highlights the contexts in which such questions are asked By introducing the concept of active memory this book contributes to recent developments in memory studies where memory is increasingly viewed not in isolation but as a dynamic and relational part of human lives **Children's Exodus** Vera K. Fast, 2010-11-09 In the months leading up to the outbreak of World War Two Britain rushed to evacuate nearly 10 000 Jewish children from the Nazi occupied territories Through the unprecedented cooperation of religious and governmental organizations the Kindertransport spared thousands of Jewish children from the terror of the Third Reich and provided them with host families in Britain Children's Exodus offers an in depth look at the people and politics behind the various chains of rescue as well as the personal narratives of the children who left everything behind in the hope of finding safety Drawing on unpublished interviews journals and articles Vera K Fast examines the religious and political tensions that emerged throughout the migration and at times threatened to bring operations to a halt Children's Exodus captures the life affirming stories of child refugees with vivid detail and examines the motivations religious or otherwise of the people that orchestrated one of the greatest rescue missions of all time **Children Writing the Holocaust** S. Vice, 2004-06-29 This book examines a wide range of works written by and about child survivors and victims of the Holocaust The writers analyzed range from

Anne Frank and Saul Friedlander to Ida Fink and Louis Begley topics covered include the Kindertransport experience exile to Siberia living in hiding Jewish children masquerading as Christian and ghetto diaries Throughout the argument is made that these texts use such similar techniques and structures that children's eye views of the Holocaust constitute a discrete literary genre

From Tongue to Text: A New Reading of Children's Poetry Debbie Pullinger,2017-05-04 The connection between childhood and poetry runs deep And yet poetry written for children has been neglected by criticism and resists prevailing theories of children s literature Drawing on Walter Ong s theory of orality and on Iain McGilchrist s work on brain function this book develops a new theoretical framework for the study of children s poetry From Tongue to Text argues that the poem is a multimodal form that exists in the borderlands between the world of experience and the world of language and between orality and literacy places that children themselves inhabit Engaging with a wide range of poetry from nursery rhymes and Christina Rossetti to Michael Rosen and Carol Ann Duffy Debbie Pullinger demonstrates how these tactful works are shaped by the dynamics of orality and textuality
