highlighting a curious disparity across the typical benchmarks of immigrant incorporation Carolyn Wong analyzes how the Hmong came to pursue politics as a key path to advancement and inclusion in the United States Drawing on interviews with community leaders refugees and the second generation children of immigrants Wong shows that intergenerational mechanisms of social voting underlie the political participation of Hmong Americans Younger Hmong Americans engage older community residents in grassroots elections and conversation about public affairs And in turn within families and communities elders often transmit stories that draw connections between ancient Hmong aspirations for freedom and contemporary American egalitarian projects
