originally published in 1984 Dr Ann Swinfen presents a wide ranging and comprehensive view of fantasy what it is what it tries to achieve what fundamental differences distinguish it from mainstream realist fiction She concentrates on the three decades from 1945 when a new generation of writers found that Tolkein had made fantasy respectable Her approach is thematic rather than by individual author and she brings out the profound moral purpose that underlies much modern fantasy in a wide range of works both British and American such as Russell Hoban s *The Mouse and His Child* C S Lewis s *Chronicles of Narnia* and Ursula Le Guin s *Earthsea Trilogy*

The Collected Letters of C.S. Lewis, Volume 3 C. S. Lewis, 2004 The letters found in Volume II reveal inside accounts of how *The Screwtape Letters* came to be written the early meetings of the Inklings with J R R Tolkien giving readings about hobbits and Middle Earth how C S Lewis became popular through BBC radio talks but mostly how this quiet professor in England touched the lives of many through an amazing discipline of personal correspondence

Landscape in Children's Literature Jane Carroll,2012-08-06 This book provides a new critical methodology for the study of landscapes in children s literature Treating landscape as the integration of unchanging and irreducible physical elements or topoi Carroll identifies and analyses four kinds of space sacred spaces green spaces roadways and lapsed spaces that are the component elements of the physical environments of canonical British children s fantasy Using Susan Cooper s The Dark Is Rising Sequence as the test case for this methodology the book traces the development of the physical features and symbolic functions of landscape topoi from their earliest inception in medieval vernacular texts through to contemporary children s literature The identification and analysis of landscape topoi synthesizes recent theories about interstitial space together with earlier morphological and topoanalytical studies enabling the study of fictional landscapes in terms of their physical characteristics as well as in terms of their relationship with contemporary texts and historical precedents Ultimately by providing topoanalytical studies of other children s texts Carroll proposes topoanalysis as a rich critical method for the study and understanding of children s literature and indicates how the findings of this approach may be expanded upon In offering both transferable methodologies and detailed case studies this book outlines a new approach to literary landscapes as geographical places within socio historical contexts

The A to Z of Fantasy Literature Brian Stableford,2009-08-13 Once upon a time all literature was fantasy set in a mythical past

when magic existed animals talked and the gods took an active hand in earthly affairs As the mythical past was displaced in Western estimation by the historical past and novelists became increasingly preoccupied with the present fantasy was temporarily marginalized until the late 20th century when it enjoyed a spectacular resurgence in every stratum of the literary marketplace Stableford provides an invaluable guide to this sequence of events and to the current state of the field The chronology tracks the evolution of fantasy from the origins of literature to the 21st century The introduction explains the nature of the impulses creating and shaping fantasy literature the problems of its definition and the reasons for its changing historical fortunes The dictionary includes cross referenced entries on more than 700 authors ranging across the entire historical spectrum while more than 200 other entries describe the fantasy subgenres key images in fantasy literature technical terms used in fantasy criticism and the intimately convoluted relationship between literary fantasies scholarly fantasies and lifestyle fantasies The book concludes with an extensive bibliography that ranges from general textbooks and specialized accounts of the history and scholarship of fantasy literature through bibliographies and accounts of the fantasy literature of different nations to individual author studies and useful websites
