Classical Budo Donn F. Draeger, 1990-10-01 Donn

Draeger was one of the most famous and well respected martial artists of the twentieth century and he was a pioneer in bringing Asian martial arts study to the West Here he illuminates the compelling historical political and philosophical events that gave rise to the development of the budo arts The classical budo or martial ways are not combat systems like their forerunner bujutsu or martial arts nor are they sports like modern judo kendo or karate They are first and foremost spiritual disciplines whose ultimate goal achieved through the most rigorous mental and physical training is self realization in the tradition of Zen Buddhism The author details the history philosophy and methods of a variety of these martial ways some using weapons and some weaponless and reveals how they evolved from their combative roots The book includes fascinating artwork from classical sources and archival photographs of modern budo masters in action

The Tale of Genji Michael Emmerich, 2013-10-01 Michael Emmerich thoroughly revises the conventional narrative of the early modern and modern history of The Tale of Genji Exploring iterations of the work from the 1830s to the 1950s he demonstrates how translations and the global circulation of discourse they inspired turned The Tale of Genji into a widely read classic reframing our understanding of its significance and influence and of the processes that have canonized the text Emmerich begins with an analysis of the lavishly produced best seller Nise Murasaki Inaka Genji A Fraudulent Murasaki's Bumpkin Genji 1829 1842 an adaptation of Genji written and designed by Ryutei Tanehiko with pictures by the great print artist Utagawa Kunisada He argues that this work introduced Genji to a popular Japanese audience and created a new mode of reading He then considers movable type editions of Inaka Genji from 1888 to 1928 connecting trends in print technology and publishing to larger developments in national literature and showing how the one time best seller became obsolete The study subsequently traces Genji's reemergence as a classic on a global scale following its acceptance into the canon of world literature before the text gained popularity in Japan It concludes with Genji's becoming a national classic during World War II and reviews an important postwar challenge to reading the work after it attained this status Through his sustained critique Emmerich upends scholarship on Japan's preeminent classic while remaking theories of world literature continuity and community
