## **Holderlins Hymn The Ister:**

**Hölderlin's Hymn "The Ister"** Martin Heidegger, 1996 Martin Heidegger's 1942 lecture course interprets Friedrich Hölderlin's hymn The Ister within the context of Hölderlin's poetic and philosophical work with particular emphasis on Hölderlin's dialogue with Greek tragedy. Delivered in summer 1942 at the University of Freiburg, this course was first published in German in 1984 as volume 53 of Heidegger's Collected Works. Revealing for Heidegger's thought of the period are his discussions of the meaning of the political and the national in which he emphasizes the difficulty and the necessity of finding one's own in and through a dialogue with the foreign. In this context Heidegger reflects on the nature of translation and interpretation. A detailed reading of the famous chorus from Sophocles' Antigone known as the ode to man is a key feature of the course.

**Hölderlin's Hymn "Remembrance"** Martin Heidegger, 2018-09-28 Martin Heidegger's 1941-1942 lecture course on Friedrich Hölderlin's hymn Remembrance delivered immediately following his confrontation with Nietzsche lays out a detailed plan for the interpretation of Hölderlin's poetry in which remembrance is a central concern. With its emphasis on the free use of the national and the holy of the fatherland, the course marks an important progression in Heidegger's political thought. In addition to its startlingly innovative analyses of greeting the festive and the dream, the text provides Heidegger's fullest elaboration of the structure of commemorative thinking in relationship to time and the possibility of an other beginning. This English translation by William McNeill and Julia Ireland completes the series of Heidegger's major lecture courses on Hölderlin.

**Hölderlin's Hymns** Martin Heidegger, 2014-09-16 Translated with skill and precision, these lectures present the most penetrating analysis of two of Hölderlin's most significant hymns, Choice and The Rhine. Martin Heidegger's 1934-1935 lectures on Friedrich Hölderlin's hymns Germania and The Rhine are considered the most significant among Heidegger's lectures on Hölderlin. Coming at a crucial time in his career, the text illustrates Heidegger's turn toward language art and poetry while reflecting his despair at his failure to revolutionize the German university and his hope for a more profound revolution through the German language guided by Hölderlin's poetry. These lectures are important for understanding Heidegger's changing relation to politics, his turn toward Nietzsche, his thinking about the German language, and his breakthrough to a new kind of poetic thinking. This translation, including a clear and concise introduction and useful glossaries, attains both accuracy and clarity, rarely faltering in its choice of words. Notre Dame Philosophical Reviews.

beginning This English translation by William McNeill and Julia Ireland completes the series of Heidegger's major lecture courses on Hölderlin **Heidegger, Hölderlin, and the Subject of Poetic Language** Jennifer Anna Gosetti-Ferencei, 2004 Gosetti Ferencei argues that Heidegger has overlooked central elements in Hölderlin's poetics such as a Kantian understanding of aesthetic subjectivity and a commitment to Enlightenment ideals These elements she argues resist the more politically distressing aspects of Heidegger's interpretations including Heidegger's nationalist valorization of the German language and sense of nationhood or Heimat **Paths in Heidegger's Later Thought** Günter Figal, Diego D'Angelo, Tobias Keiling, Guang Yang, 2020-03-10 If one takes Heidegger at his word then his philosophy is about pursuing different paths of thought rather than defining a single set of truths This volume gathers the work of an international group of scholars to present a range of ways in which Heidegger can be read and a diversity of styles in which his thought can be continued Despite their many approaches to Heidegger their hermeneutic orientation brings these scholars together The essays span themes from the ontic to the ontological from the specific to the speculative While the volume does not aim to present a comprehensive interpretation of Heidegger's later thought it covers much of the terrain of his later thinking and presents new directions for how Heidegger should and should not be read today Scholars of Heidegger's later thought will find rich and original readings that expand considerations of Heidegger's entire oeuvre Heidegger and Kabbalah Elliot R. Wolfson, 2019-10-01 While many scholars have noted Martin Heidegger's indebtedness to Christian mystical sources as well as his affinity with Taoism and Buddhism Elliot R. Wolfson expands connections between Heidegger's thought and kabbalistic material By arguing that the Jewish esoteric tradition impacted Heidegger Wolfson presents an alternative way of understanding the history of Western philosophy Wolfson's comparison between Heidegger and kabbalah sheds light on key concepts such as hermeneutics temporality language and being and nothingness while yielding surprising reflections on their common philosophical ground Given Heidegger's involvement with National Socialism and his use of antisemitic language these innovative readings are all the more remarkable for their juxtaposition of incongruent fields of discourse Wolfson's entanglement with Heidegger and kabbalah not only enhances understandings of both but more profoundly serves as an ethical corrective to their respective ethnocentrism and essentialism Wolfson masterfully illustrates the redemptive capacity of thought to illuminate common ground in seemingly disparate philosophical traditions *Utopia of Understanding* Donatella Ester Di Cesare, 2012-06-28 Speaking and understanding can both be thought of as forms of translation and in this way every speaker is an exile in language even in one's mother tongue Drawing from the philosophical hermeneutics of Martin Heidegger and Hans Georg Gadamer the testimonies of the German Jews and their relation with the German language Jacques Derrida's confrontation with Hannah Arendt and the poetry of Paul Celan Donatella Ester Di Cesare proclaims Auschwitz the Babel of the twentieth century She argues that the globalized world is one in which there no longer remains any intimate place or stable dwelling Understanding becomes a kind of shibboleth that grounds nothing but opens

messianically to a utopia yet to come      **Hölderlin After the Catastrophe** Robert Ian Savage, 2008 In each case Holderlin is examined as the occasion for salvaging that legacy after from and in view of the catastrophe This first full length study of Holderlin s postwar reception will be of interest to students and scholars working in the fields of German literature European philosophy the politics of cultural memory and critical theory BOOK JACKET      Heidegger and Literary Studies Andrew Benjamin, 2023-11-08 Martin Heidegger is one of the most influential philosophers of the 20th Century and a key philosophical resource for literary critics Not only has he written about poetry generations of poets have engaged his writings And yet for Heidegger poetry and literature are separate An essential part of the project of this book therefore is to show how both the distinction and connection between literature and poetry is staged within Heidegger s thought It offers Heidegger s perspective on a range of key themes topics poets and writers including Poetry and Poetics Ancient Greek theatre and tragedies and then specifically Friedrich H ilderlin Thomas Mann Paul Celan Euripides and Sophocles As the Chapters comprising this book make clear Heidegger s work remains indispensable for any serious engagement with either literature or poetry today      Dramas of Culture Wayne Jeffrey Froman, John Burt Foster, 2009-01-01 Dramas of Culture is the first volume in the TEXTURES Philosophy Literature Culture series to study drama as a cultural effect linking theatricality to main currents of continental philosophical thinking cultural critique and literary theory and interpretation from Aristotle to contemporary cultural studies The twelve interwoven interdisciplinary essays focus on the dramatic strategies deployed in cultural discourse and on the cultural meanings embedded in key dramatic writings in the Western repertoire

**Heidegger's Roots** Charles R. Bambach, 2003 There is a gap in the literature for an investigation of the shared themes between Heidegger s thought and that of the ideologists of National Socialism The author reads Heidegger s writings from 1933 45 in historical context showing his engagement with the National Socialists      **Understanding Nancy, Understanding Modernism** Cosmin Toma, 2023-01-12 Over the past three decades Jean Luc Nancy has become one of the most celebrated contemporary philosophers His remarkably diverse body of work which deals with such topics as post Heideggerian ontology Christian painting the experience of drunkenness heart transplants contemporary cinema and the problem of freedom is entirely immersed in modernity as he puts it Within this plural framework art which he explicitly defines as a modern construct plays a singular role in that it is the very prism through which he explores the problems of sense and feeling in general particularly as they relate to our experience of modernity The contributors to Understanding Nancy Understanding Modernism fully delve into the heretofore under acknowledged and under explored modernism of Nancy s writings on philosophy and the arts through close readings of his key works as well as broader essays on the relationship between his thought and aesthetic modernity In addition to an interview with Nancy himself a final section consists of an extended glossary of Nancy s signature terms which will be a valuable resource for students and experts alike      Heidegger's Conversations Katherine Davies, 2024-09-01 Reading Martin Heidegger s five conversational texts together

for the first time Heidegger's Conversations elaborates not only what Heidegger thought but how he did so by attending to the philosophical possibilities of the genre of these understudied texts written between 1944 and 1954. Though he wrote little on the topic of teaching and learning explicitly, Katherine Davies shows Heidegger performed an implicit poetic pedagogy in his conversations that remains to be recognized. Heidegger launched an experimental attempt to enact a learning of non-representational, non-metaphysical thinking by cultivating a distinctly collaborative sensitivity to the call of the poetic. Davies illustrates how each conversation emphasizes a particular pedagogical element: non-oppositionality, making mistakes, thinking in community, poetic interpretation, and the dangers of such pedagogy, which together constitute the developmental arc of these texts. Whether Heidegger is revising or reinforcing his own earlier pedagogical practices, Davies argues that attending to the dramatic staging of the conversations offers a distinct vantage point from which to contend with Heidegger's philosophy and politics in the post-war period.

**Eschatology and the Technological Future** Michael S. Burdett, 2014-12-05. The rapid advancement of technology has led to an explosion of speculative theories about what the future of humankind may look like. These technological futurisms have arisen from significant advances in the fields of nanotechnology, biotechnology, and information technology and are drawing growing scrutiny from the philosophical and theological communities. This text seeks to contextualize the growing literature on the cultural, philosophical, and religious implications of technological growth by considering technological futurisms such as transhumanism in the context of the long historical tradition of technological dreaming. Michael Burdett traces the latent religious sources of our contemporary technological imagination by looking at visionary approaches to technology and the future in seminal technological utopias and science fiction and draws on past theological responses to the technological future with Pierre Teilhard de Chardin and Jacques Ellul. Burdett's argument arrives at a contemporary Christian response to transhumanism based around the themes of possibility and promise by turning to the works of Richard Kearney, Eberhard Jüngel, and Jürgen Moltmann. Throughout the author highlights points of correspondence and divergence between technological futurisms and the Judeo-Christian understanding of the future.

*Music, Masculinity and the Claims of History* Ian Biddle, 2016-04-29. What does it mean to think of Western Art music and the Austro-German contribution to that repertoire as a tradition? How are men and masculinities implicated in the shaping of that tradition? And how is the writing of the history or histories of that tradition shaped by men and masculinities? This book seeks to answer these and other questions by drawing both on a wide range of German language writings on music, sound, and listening from the so-called long nineteenth century (circa 1800-1918) and a range of critical theoretical texts from the post-war continental philosophical and psychoanalytic traditions, including Lacan, Žižek, Serres, Derrida, and Kittler. The book is focussed in particular on bringing the object of historical writing itself into scrutiny by engaging in what Žižek has called a historicity or a way of writing about the past that not merely acknowledges the ahistorical kernel of historical writing but brings that kernel into the light of day, takes account of it, and puts it into play.

The book is thus committed to a kind of historical writing that is open ended though not ideologically naïve and that does not fix or stabilize the nature of the relationship between so called primary and secondary texts The book consists of an introduction which places the study of classical music and the Austro German tradition within broader debates about the value of that tradition and four extensive case studies an analysis of the cultural historical category of listening around 1800 a close reading of A B Marx's Beethoven monograph of 1859 a consideration of Heinrich Schenker's attitudes to the mob and the vernacular more broadly and an examination through Franz Kafka of the figure of Mahler's body

**A Poetics of Homecoming** Brendan O'Donoghue, 2011-05-25 This investigation addresses a pressing anxiety of our time that of homelessness Tersely stated the philosophical significance of homelessness in its more modern context can be understood to emerge with Nietzsche and his discourse on nihilism which signals the loss of the highest values hitherto Diverging from Nietzsche Heidegger interprets homelessness as a symptom of the oblivion of being The purpose of the present enquiry is to rigorously confront humanity's state of homelessness and at the same time illumine the extent to which Heidegger's thought engages with this pervasive phenomenon In questioning the nature of homelessness Heidegger's preoccupations with nihilism and modern technology prove crucial Moreover his attempts to overcome or prepare for the overcoming of this state of homelessness are also of great import to the current investigation Adorno and Levinas offer scathing critiques of Heidegger's thought as it relates to the motifs of homelessness homecoming Heimkunft and the German Heimat for they associate it with provincialism paganism and a pernicious form of politics In providing these critiques they bring to light the risks involved in undertaking a homecoming venture and they also show how a great thinker can err greatly While acknowledging the importance of these criticisms the present study reveals how Heidegger's various discourses on homelessness and homecoming bear fruitful insights that can contribute not just to a Germanic sense of homecoming but to a sense of homecoming that humanity at large can relate to and be enriched by

**Heidegger's Philosophy of Art** Julian Young, 2001-01-25 This book the first comprehensive study in English of Heidegger's philosophy of art starts in the mid 1930s with Heidegger's discussion of the Greek temple and his Hegelian declaration that a great artwork gathers together an entire culture in affirmative celebration of its foundational truth and that by this criterion art in modernity is dead His subsequent work on Hölderlin whom he later identified as the decisive influence on his mature philosophy led him into a passionate engagement with the art of Rilke Caspar David Friedrich and Zen Buddhism liberating him not only from the overly restrictive conception of art of the mid 1930s but also from the disastrous politics of the period Drawing on material hitherto unknown in the anglophone world Young establishes a new account of Heidegger's philosophy of art and shows that his famous essay The Origin of the Work of Art is its beginning not its end
