Holmes, 2002-01-01 Author Holmes is well qualified to write a book on the subject of criminal interrogation and has lectured about it in many organizations including the FBI CIA the Secret Service the Canadian Police College and the Singapore Police Department He has also conducted polygraph examinations in such nationally known cases as the assassination of President John F Kennedy the murder of Dr Martin Luther King Jr and Watergate Drawing on current knowledge and his own extensive experience the author provides a thorough overview of the techniques and procedures of interrogation The main purpose of this book is that it will give you the tools to combat the criminal suspect and to attain the most satisfying outcome of criminal investigation obtaining a confession through astute interrogation Ideally to learn how to interrogate one should be exposed to talented interrogators in action Any book about criminal interrogation can never be a complete substitute for the daily or weekly experience of interrogating criminal suspects Recognizing this fact it is the author's plan to write a how to book that provides a framework for enhancing one s personal experience It will help guide the interrogator through the inherent difficulty that is manifested by the margin of error in perceiving guilt or innocence as well as in the length of time it takes an average person to become sufficiently experienced to reach an acceptable degree of proficiency.
