Deus Comedieta Tade Bolade,2016-07-08 Deus Comedieta Even as the world is in poverty and turmoil man claims he is blameless He always has someone to blame If it is not nature it must be his neighbour Blicken says to Deus You share nothing fair But is Deus not right to say As you slack so shall you lack Even as man makes unbalanced policies as Blicken observes Witiniko vetoed equality Witiniko says Veto works for peace But is Deus not right when he says peace eludes for you congregate to segregate Even as man depraves his value there is an excuse Witiniko says I have an argument But is it not true that man as Lady Witiniko claims always has an argument argument to steal argument to kill argument to destroy Perhaps it is this claim to individual argument that has turned a beautiful world into a wasteland This short play in a peculiar way manoeuvres through a labyrinth of issues asking bold questions regarding concepts of time corruption freedom inequality religion humanity and many more *Deus X* Norman Spinrad,2014-04-30 Can human consciousness exist within the framework of an electronic brain and still maintain its humanity In DEUS X a dying priest s consciousness is uploaded into the most advanced computer of the day and what ensues is a thought provoking entertaining and overly intriguing clash between the various characters surrounding the experiment a female Pope and a computer guru who d rather be sailing and smoking pot for example The Whole Works of the Right Rev. Jeremy Taylor ...: Unum necessarium. Deus justificatus. Letters to Warner and Jeanes. Golden grove, and hymnes Jeremy Taylor,Reginald Heber,1854 *The Whole Works of the Right Rev. Golden grove, and hymns* Jeremy Taylor,Reginald Heber,1850 **Adoramus Divinus Deus** Joseph Sener,2021-06-11 This is the fourth book in a series by the third person of the Trinity the Holy Spirit This scribe is privileged to continue carrying out the duties of His work as it appears Thank you Lord The main goal of these books is to establish and increase the connective awareness of humanity between science and religion in the world and invite the two to work together to unfold the mysteries of God and His creation so that in the final analysis both will be able to help all of God s creation especially the human race who lives in the middle of cosmic struggles between good and evil in these confusing times Today we are dominated by science and its innovations But has science released humanity from the fundamental inclinations of religion or rather has religion and religious influences predetermined the motivations of science Do mathematical laws of science religiously underlie the explanation of the phenomenon that is observable fact or event What is the purpose of religion Is it only to teach the knowledge of God but not science It may be that experimental scientific religious philosophy could make us better informed scientists and Christians The seventeenth century Roman Catholic scientist and professor Fr Galileo Galilei pointed out that the purpose of religion is to teach the knowledge of God What did we accomplish with the separate teachings of religion and the study of science throughout the ages Did they help each other during the last seven thousand years Today is there unity or an entanglement between them Is God the source of all scientific and religious order in the world Can science answer the

questions of religion or rather can religion attempt to answer scientific questions Do the Holy Scriptures and scientific inquiries provide all the answers to our questions Is there a relationship between religion and science Do religion and science complement each other and if not why is that The questions listed above are only some of them No answers are yet being provided What about the involvement of mind work to explain the relationship between faith and reason Humanity likes to see science and religion united and working together to provide credible answers After all in the beginning they were for the works of God on this earth and in the universe The astonishing days of the Creator are approaching steadily slowly day by day We long for answers with our conscious hearts so that we can gain presence with the Divine Light It is presentation time The nineteenth century Scottish Catholic scientist the great physicist since Isaac Newton a professor at the University of Cambridge James Clark Maxwell who wrote his first scientific paper at the age of fourteen and died at the early age of forty eight declared scientifically that the universe is continuously surged with electromagnetic waves Their speed of travel is the same as the speed of light His proven theoretical equations were revealed for the first time in the world and showed that electricity magnetism light is one and the same manifestation in the material universe Upon his death he was not buried in Westminster Abbey like Isaac Newton was but he had not minded it at all not even a bit He said The works of the Lord are great Sort out all of them that have pleasure therein Happy is the man who sees that science and religion are one and the same According to the great scientist Max Planck a man who does serious scientific work knows that over the doors of the Temple of Science you must have faith Creator God is the source of all order in the universe He is exact look around and see There is a field in and around the universe surrounding His creation It is the heartfelt wish of this scribe that humanity shall see it one day and then never lose the investigative desires of their hearts and minds Faith and reason of religion and science are one and the same in the eyes of God They come from the same creative force of His One day in the near future they will be united and presented on earth as one That is the way it is above and so it will be the fact on earth below This is the Divine Plan of the Divine Lawgiver the Omnipotent Omnipresent and Omniscient God Almighty **Cur Deus Homo** Saint Anselm,2021-04-10 In *Cur Deus Homo* Saint Anselm presents a profound theological exploration of the necessity of the Incarnation set against the backdrop of medieval scholasticism Writing in a dialectical style Anselm targets central questions regarding the nature of God and humanity's redemption employing a meticulous logical framework characteristic of his era His treatise confronts the mystery of why God chose to become man arguing that divine justice and mercy are reconciled through the person of Christ ultimately fulfilling humanity's salvation Anselm's work not only influenced the theological discourse of his time but also laid the groundwork for future Christological debates in both theology and philosophy Saint Anselm of Canterbury c 1033 1109 was a Benedictine monk philosopher and theologian whose work thrived at the intersection of faith and reason His experiences as an abbot and a church leader during a tumultuous period in medieval Europe shaped his inquisitive nature and prompted him to confront the complexities of belief and

understanding Anselm's quest for clarity in faith emphasized rational inquiry which is evident throughout *Cur Deus Homo* encapsulating his broader contributions to philosophy and theology This seminal work is essential for anyone seeking a deeper understanding of Christian doctrine and the relationship between divine attributes and human existence Anselm's eloquent argumentation encourages readers to engage with fundamental questions of existence and faith making it a must read for theologians philosophers and laypersons alike [Deus Lo Volt!](#) Evan S.
