What is the reason for this book I never wanted to write one but I believe all through our lives we feel like we should do something but we never follow through and then we say to ourselves gee I wish I did that bought that sold that didn't do that So I followed through with what I felt I should do and it doesn't matter about the end result If you don't take the first step forget about the second If you just read this I believe it will speak to you The other reason I wrote this book is to get people to use the brain they were given and the use of wisdom and common sense The definition of common sense is sound and prudent judgement based on a simple perception of the situation of facts or as my father would say use the brain God gave you Today it is so easy to find answers to questions that are just a click away There is a story about Moses and the burning bush in the Bible The story goes Moses saw the bush burning but it wasn't being consumed so he took a step closer to see what was happening and when he did he heard a voice it was the direction for the second step May this be the first step to your second Wisdom and Common Sense *Windows for Life* Don R.
