Wolferman, 2020-01-28 When Kansas City's Nelson Atkins Museum of Art opened to the public in 1933 it was viewed as a miracle an oasis of culture in a Midwestern town whose image was still largely one of cowboys and steaks In an engaging style Kristie Wolferman tells the history of the Nelson Atkins from its founding to the present day a fascinating combination of people events and circumstances that culminated in an art museum that now holds its own among the finest in the world Wolferman begins by relaying how the trustees of the estates of the reclusive widow Mary Atkins and the family of Kansas City Star newspaper editor William Rockhill Nelson joined forces to establish a museum from scratch then goes on to consider all of the highly talented people who directed and staffed the Nelson Atkins along the way their efforts resulting in many bold innovations among them new collections grounds and educational programs and offerings With 100 color and black and white photographs this book will be treasured by all who love and admire this remarkable institution one that attracts half a million visitors from across the city state nation and world each year This is a co publication of the University of Missouri Press and the Nelson Atkins Museum of Art

Kansas City's Montgall Avenue Margie Carr, 2023-06-12 A few blocks southeast of the famed intersection of 18th and Vine in Kansas City Missouri just a stone's throw from Charlie Parker's old stomping grounds and the current home of the vaulted American Jazz Museum and Negro Leagues Baseball Museum sits Montgall Avenue This single block was home to some of the most important and influential leaders the city has ever known Margie Carr's *Kansas City's Montgall Avenue Black Leaders and the Street They Called Home* is the extraordinary century old history of one city block whose residents shaped the changing status of Black people in Kansas City and built the social and economic institutions that supported the city's Black community during the first half of the twentieth century The community included among others Chester Franklin founder of the city's Black newspaper *The Call* Lucile Bluford a University of Kansas alumna who worked at *The Call* for sixty nine years and Dr John Edward Perry founder of Wheatley Provident Hospital Kansas City's first hospital for Black people The principal and four teachers from Lincoln High School Kansas City's only high school for African American students also lived on the block While introducing the reader to the remarkable individuals who lived on Montgall Avenue Carr also uses this neighborhood as a microcosm of the changing nature of discrimination in twentieth century America The city's white leadership had little interest in supporting the Black community and instead used its resources to separate and isolate them The state of Missouri enforced segregation statutes until the 1960s and the federal government created housing policies that erased any assets Black homeowners accumulated robbing them of their ability to transfer that wealth to the next generation Today the 2400 block of Montgall Avenue is situated in one of the poorest neighborhoods in Kansas City The attitudes and policies that contributed to the neighborhood's changing environment paint a more complete and disturbing picture of the role that race continues to play in America's story **Engineering and**
