Heres To The Ladies Stories Of The Frontier Army:

Here's to the Ladies Carla Kelly, 2013-05-31 Carla Kelly wants to tell the truth to discard myths about the U S Army during the Indian Wars This collection of nine stories set in the era of the frontier army gives an entertaining and educational glimpse into a world not often explored in fiction Kathleen Flaherty s *Long Winter* weaves a tale of an Irish woman who has no choice but to marry a man she barely knows after the death of her husband leaves her penniless She struggles with isolation and the cruelty of the others in the fort because of her rapid marriage In the end hers is a story of loss love and survival But these are not all love stories In *Mary Murphy* one soldier reflects about the hard life of a laundress *A Season for Heroes* tells of a buffalo soldier named Ezra Freeman a true hero to one officer s family The collection concludes with *Jesse MacGregor* The narrator John looks back on an Apache attack in the desert After his detail s captain is killed and John is injured authority falls to surgeon Jesse MacGregor The account of their struggle to fight hunger thirst the elements and of course the Apaches is mesmerizing Kelly does not leave comedy out of her collection *Fille de Joie* is a charming story of a married couple reunited after an almost two year separation The wife is arrested after the two make too much noise during their afternoon tryst She is charged with being a fille de joie and the comedy ensues Kelly s work will find an audience among those interested in feminist literature American history fiction and nonfiction *The Journal of Arizona History* ,1965

Nebraska History Addison Erwin Sheldon, James Lee Sellers, James C. Olson, 2003 **The Frontiers of Women's Writing** Brigitte Georgi-Findlay, 2022-05-10 Although the myth of the American frontier is largely the product of writings by men a substantial body of writings by women exists that casts the era of western expansion in a different light In this study of American women s writings about the West between 1830 and 1930 a European scholar provides a reconstruction and new vision of frontier narrative from a perspective that has frequently been overlooked or taken for granted in discussions of the frontier Brigitte Georgi Findlay presents a range of writings that reflects the diversity of the western experience Beginning with the narratives of Caroline Kirkland and other women of the early frontier she reviews the diaries of the overland trails letters and journals of the wives of army officers during the Indian wars professional writings focusing largely on travel by women such as Caroline Leighton from the regional publishing cultures that emerged in the Far West during the last quarter of the century and late nineteenth and early twentieth century accounts of missionaries and teachers on Indian reservations Most of the writers were white literate women who asserted their own kind of cultural authority over the lands and people they encountered Their accounts are not only set in relation to a masculine frontier myth but also investigated for clues about their own involvement with territorial expansion By exploring the various ways in which women writers actively contributed to and at times rejected the development of a national narrative of territorial expansion based on empire building and colonization the author shows how their accounts are implicated in expansionist processes at the same time that they formulate positions of innocence and detachment Georgi Findlay has drawn on American studies scholarship feminist

criticism and studies of colonial discourse to examine the strategies of women's representation in writing about the West in ways that most theorists have not. She critiques generally accepted stereotypes and assumptions both about women's writing and its difference of view in particular and about frontier discourse and the rhetoric of westward expansion in general as she offers a significant contribution to literary studies of the West that will challenge scholars across a wide range of disciplines.

United States Army Combat Forces Journal, 1978 *The Doctor's Little Girl* Marion Ames Taggart, 1907 **Weekly Compilation of Presidential Documents**, 1981 *Air Corps Newsletter* Air Corps. War Department, **Army and Navy Journal**, 1942 Montana Territory and the Civil War Ken Robison, 2017-01-09 A compelling portrait of how the passions of the Civil War played out among gold miners in the remote mountains of the West. In 1862 gold discoveries brought thousands of miners to camps along Grasshopper Creek and by 1864 the Federal government had carved the Montana Territory out of the existing Idaho and Dakota Territories. Gold from Montana Territory fueled the Union war effort yet loyalties were mixed among the miners. In this compelling collection of stories historian Ken Robison illustrates how Southern sympathizers and Union loyalists, deserters and veterans, freed slaves and former slaveholders living side by side made a volatile and vibrant mix that molded Montana. Discover how fiery personalities like Union Colonel Sidney Edgerton and General Thomas Francis Meagher fought to keep order in the newly formed frontier while brave Confederate and Union veterans and their hardy families created an enduring legacy that helped shape modern Montana. **Airman**, 2004-10 **Women Writers of the American West, 1833-1927** Nina Baym, 2012-08-17 Women Writers of the American West 1833-1927 recovers the names and works of hundreds of women who wrote about the American West during the nineteenth and early twentieth centuries, some of them long forgotten and others better known novelists, poets, memoirists and historians such as Willa Cather and Mary Austin Holley. Nina Baym mined literary and cultural histories, anthologies, scholarly essays, catalogs, advertisements and online resources to debunk critical assumptions that women did not publish about the West as much as they did about other regions. Elucidating a substantial body of nearly 650 books of all kinds by more than 300 writers, Baym reveals how the authors showed women making lives for themselves in the West, how they represented the diverse region and how they represented themselves. Baym accounts for a wide range of genres and geographies, affirming that the literature of the West was always more than cowboy tales and dime novels. Nor did the West consist of a single landscape as women living in the expanses of Texas saw a different world from that seen by women in gold rush California. Although many women writers of the American West accepted domestic agendas crucial to the development of families, farms and businesses, they also found ways to be forceful agents of change, whether by taking on political positions, deriding male arrogance or as their voluminous published works show speaking out when they were expected to be silent. American Journalism Historians Association Book of the Year Award this book outlines the rich history of more than 250 women who worked as war correspondents up through World War II while demonstrating the ways in which the press and the military both promoted and prevented their access to war Despite the continued presence of individual female war correspondents in news accounts if not always in war zones it was not until 1944 that the military recognized these individuals as a group and began formally considering sex as a factor for recruiting and accrediting war correspondents This group identity created obstacles for women who had previously worked alongside men as war correspondents while creating opportunities for many women whom the military recruited to cover woman s angle news as women war correspondents This book also reveals the ways the military and the press as well as women themselves constructed the concepts of woman war correspondent and war correspondent and how these concepts helped and hindered the work of all war correspondents even as they challenged and ultimately expanded the public s understanding of war and of women
