Evgenij Zamjatin Christopher Collins, 2012-02-14 No detailed description available for Evgenij Zamjatin *The Russian Dilemma* Gordon M. Hahn, 2021-11-17 From the end of the Mongol Empire to today Russian history is a tale of cultural political economic and military interaction with Western powers The depth of this relationship has created a geopolitical dilemma Russia has persistently been both attracted to and at odds with Western ideas and technological development which have tended to threaten Russia's sense of identity and create destabilizing divisions within society Simultaneously deepening involvement in Western international affairs brought meddling in Russian domestic politics and military invasion This book examines how the centuries old Western threat has shaped Russia's political and strategic structures creating a culture of security rooted in vigilance against Western influence and interference Circling Marx: Essays 1980-2020 Peter

Beilharz, 2020-12-07 Karl Marx circles us and we him This reflects the power of his legacy but it also indicates the nature of the intellectual process We move around objects of interest and insight working by successive approximations Peter Beilharz has been circling Marx for forty years This volume of essays expands the metaphor by working through three circles in the history of Marxism The first works with Marx the second with the classical legacy through to Bolshevism and western marxism the third steps closer to the present in thinkers such as Bauman Heller and Castoriadis Read together these essays represent a lifetime's engagement with Marx and his intellectual consequences **Lenin's Childhood** Isaac

Deutscher, 2024-01-23 When he died suddenly in 1967 Isaac Deutscher had completed only the compelling first chapter of a long anticipated biography of Lenin published here It covers Lenin's family background birth and early years in the backwater town of Simbirsk up to the execution of his brother a traumatic formative event Drawing on a lifetime of background research including access to the closed section of Trotsky's archives Lenin's Childhood gives a novel interpretation of the earliest influences on Lenin's personality and thinking Most of all it is a glimpse into an unfinished work which would have striven to save Lenin from fanatical anti revolutionary condemnation and perhaps more important from uncritical communist beatification This anniversary edition includes an introduction by Deutscher's biographer Gonzalo Pozo which situates the Lenin project within Deutscher's oeuvre and discusses the sources influences and evolution of his never completed life of Lenin **The Khrushchev Era** Don Filtzer, 1993-11-11 The Khrushchev Era examines the major political

social and economic reforms of Nikita Khrushchev from the Secret Speech and Khrushchev's limited but at the time earth shattering critique of Stalin to his ill fated reorganizations of the Communist Party agriculture and industry Besides giving a factual account of the reforms themselves Filtzer analyses the complex factors behind their failure focussing not so much on the inadequacies of Khrushchev as a leader as on the structural obstacles to reform within the Stalinist system itself As such the Khrushchev period is shown to contain instructive historical lessons for our understanding of Mikhail Gorbachev and his

own failed perestroika **Rethinking Marxist Approaches to Transition** Onur Acaroglu, 2020-09-25 In Rethinking Marxist Theories of Transition Onur Acaroglu traces the concept of transition across the tracts of Classical and Western Marxism Rarely directly invoked transition between different societies appears as an imminent social reality and a useful conceptual tool for critical social theory Transitions as qualitative shifts between societies are often considered as eventual historical stages or effaced altogether Theorising transition in a new direction Onur Acaroglu elaborates a theory of temporal dislocation Considering transition through a framework of out of joint temporalities the notion comes through as an undervalued tendency in social reproduction Across the Blocs Patrick Major, Rana Mitter, 2004-08-02 This book asks the reader to reassess the Cold War not just as superpower conflict and high diplomacy but as social and cultural history It makes cross cultural comparisons of the socio cultural aspects of the Cold War across the East West block divide dealing with issues including broadcasting public opinion and the production and consumption of popular culture **Anarchist Seeds beneath the Snow** David Goodway, 2011-12-12 From William Morris to Oscar Wilde to George Orwell left libertarian thought has long been an important but neglected part of British cultural and political history In Anarchist Seeds beneath the Snow David Goodway seeks to recover and revitalize that indigenous anarchist tradition This book succeeds as simultaneously a cultural history of left libertarian thought in Britain and a demonstration of the applicability of that history to current politics Goodway argues that a recovered anarchist tradition could and should be a touchstone for contemporary political radicals Moving seamlessly from Aldous Huxley and Colin Ward to the war in Iraq this challenging volume will energize leftist movements throughout the world *The Interwar World* Andrew Denning, Heidi J.S. Tworek, 2023-08-29 The Interwar World collects an international group of over 50 contributors to discuss analyze and interpret this crucial period in twentieth century history A comprehensive understanding of the interwar era has been limited by Euro American approaches and strict adherence to the temporal limits of the world wars The volume s contributors challenge the era s accepted temporal and geographic framings by privileging global processes and interactions Each contribution takes a global thematic approach integrating world regions into a shared narrative Three central questions frame the chapters First when was the interwar Viewed globally the years 1918 and 1939 are arbitrary limits and the volume explicitly engages with the artificiality of the temporal framework while closely examining the specific dynamics of the 1920s and 1930s Second where was the interwar Contributors use global history methodologies and training in varied world regions to decenter Euro American frameworks engaging directly with the usefulness of the interwar as both an era and an analytical category Third how global was the interwar Authors trace accelerating connections in areas such as public health and mass culture counterbalanced by processes of economic protectionism exclusive nationalism and limits to migration By approaching the era thematically the volume disaggregates and interrogates the meaning of the global in this era As a comprehensive guide this volume offers overviews of key themes of the interwar period for undergraduates while offering up to date historiographical insights for

Western Marxism and the Soviet Union Marcel van der Linden, 2007-06-30 The Russian Question was an absolutely central problem for Marxism in the twentieth century Numerous attempts were made to understand the nature of Soviet society The present book tries to portray the development of these theoretical contributions since 1917 in a coherent comprehensive appraisal It aims to present the development of the Western Marxist critique of the Soviet Union across a rather long period in history from 1917 to the present and in a large region Western Europe and North America Within this demarcation of limits in time and space an effort has been made to ensure completeness by paying attention to all Marxist analyses which in some way significantly deviated from or added to the older theories

Fascism: The social dynamics of fascism Roger Griffin, Matthew Feldman, 2004 The nature of fascism has been hotly contested by scholars since the term was first coined by Mussolini in 1919 However for the first time since Italian fascism appeared there is now a significant degree of consensus amongst scholars about how to approach the generic term namely as a revolutionary form of ultra nationalism Seen from this perspective all forms of fascism have three common features anticonservatism a myth of ethnic or national renewal and a conception of a nation in crisis This collection includes articles that show this new consensus which is inevitably contested as well as making available material which relates to aspects of fascism independently of any sort of consensus and also covering fascism of the inter and post war periods This is a comprehensive selection of texts reflecting both the extreme multi faceted nature of fascism as a phenomenon and the extraordinary divergence of interpretations of fascism

Philosophy and the Politics of Animal Liberation Paola Cavalieri, 2016-09-13 This edited collection testifies to the fact that the animal liberation movement is now entering its political phase after a period dominated by ethical approaches that undermined the paradigm of human supremacy and demanded justice for nonhuman beings The contributors of this book collectively confront and take on questions of social transformation guided by the idea that philosophy has an important role to play even at such a new level They start from such diverse perspectives as critical theory left liberalism and biopolitical thought The result is an articulated picture in which beyond any principled divergence it is possible to detect the emergence of a relevant set of shared political preoccupations This exploration of those offers fresh theoretical insights and suggestions for praxis
