The Land We Love Boyd D. Cathey,2018-11-06 These essays range over several subject areas longer essays about Southern heritage and history pieces regarding the present assault on the symbols of that heritage short semi biographical items on diverse figures who have played a role in Southern history various reviews **The Southern Heritage** James McBride Dabbs,1959 Southern Crossroads Walter Conser,2010-09-12 The South has always been one of the most distinctive regions of the United States with its own set of traditions and a turbulent history Although often associated with cotton hearty food and rich dialects the South is also noted for its strong sense of religion which has significantly shaped its history Dramatic political social and economic events have often shaped the development of southern religion making the nuanced dissection of the religious history of the region a difficult undertaking For instance segregation and the subsequent civil rights movement profoundly affected churches in the South as they sought to mesh the tenets of their faith with the

prevailing culture Editors Walter H Conser and Rodger M Payne and the book's contributors place their work firmly in the trend of modern studies of southern religion that analyze cultural changes to gain a better understanding of religion's place in southern culture now and in the future Southern Crossroads Perspectives on Religion and Culture takes a broad interdisciplinary approach that explores the intersection of religion and various aspects of southern life The volume is organized into three sections such as Religious Aspects of Southern Culture that deal with a variety of topics including food art literature violence ritual shrines music and interactions among religious groups The authors survey many combinations of religion and culture with discussions ranging from the effect of Elvis Presley's music on southern spirituality to yard shrines in Miami to the archaeological record of African American slave religion The book explores the experiences of immigrant religious groups in the South also dealing with the reactions of native southerners to the groups arriving in the region The authors discuss the emergence of religious and cultural acceptance as well as some of the apparent resistance to this development as they explore the experiences of Buddhist Americans in the South and Jewish foodways Southern Crossroads also looks at distinct markers of religious identity and the role they play in gender politics ritual and violence The authors address issues such as the role of women in Southern Baptist churches and the religious overtones of lynching with its themes of blood sacrifice and atonement Southern Crossroads offers valuable insights into how southern religion is studied and how people and congregations evolve and adapt in an age of constant cultural change

Glimpses of the Past Dr. Anne R. Murray Ed.D.,2016-12-09 *Glimpses of the Past* Heritage of the Old South is an historical novel about the Old South during the Civil War Few historical novels have presented the Old South in such a heartfelt manner with brutalities of the war The author brings tragedy devastation and conflict to life in the characters Families struggled to survive then The war was significant to both the North and the South The thresholds of the war are felt strongly even today The significant part of the main character was that he overcame the past to move forward in his life Reminiscences of the past were less painful to him as he began to understand his purpose in life Read how a determined young man survived the Civil War days Explore the depths of how determination and stamina helped him Discover his secret of life's accomplishments Learn how he escaped the darkness within to grow beyond glimpses of the past
