Walled about with God Jean Prou, 2005 Christians are called to proclaim the glorious liberty of the children of God to all men and women in the world With this in mind the enclosure of cloistered nuns the apparent renunciation of personal freedom in order to live within the walls of a monastery for the rest of one's life is often regarded as a sign of contradiction How can such a life be justified in view of the Gospel which invites Christians to become a light to the world and to proclaim the good news to all peoples This unique book written by cloistered nuns themselves provides answers to this and many other questions Far from being an invention of the Middle Ages which was imposed on women by a male dominated Church and society enclosure was in fact freely chosen by nuns themselves from the very beginning and only later became an object of canonical legislation Drawing on the riches of Christian traditions this book examines enclosure from a biblical historical spiritual and theological perspective showing how it aids the prayer life and mission of cloistered nuns Dom Jean Prou 1911 1999 was fifth Abbot of the Abbey of Saint Pierre de Solesmes and Abbot President of the Solesmes Congregation from 1959 until his retirement in 1992 His high esteem for the vocation of enclosed nuns led to an invitation to oversee the international team of cloistered Benedictine nuns from France Canada and England who cooperated to write this book Monastic Hospitality Julie Kerr, 2007 Drawing on a wide range of sources this text explores the practice and perception of monastic hospitality in England c 1070 c 1250 an important and illuminating time in a European and an Anglo Norman context

Eleanor of Aquitaine B. Wheeler, 2016-04-30 Eleanor's patrilineal descent from a lineage already prestigious enough to have produced an empress in the eleventh century gave her the lordship of Aquitaine But marriage re-emphasized her sex which in the medieval scheme of gender power relations relegated her to the position of Lady in relation to her Lordly husbands In this collection essays provide a context for Eleanor's life and further an evolving understanding of Eleanor's multifaceted career A valuable collection on the greatest heiress of the medieval period *Monasteries in the Landscape* Mick Aston, 2009-09-15 The beginnings and development of Monasteries in the Landscape **The Age of the Cloister** Christopher Brooke, 2003 Among the most beautiful spiritual and evocative structures in stone ever built are the medieval monasteries of Europe The importance of the monastic world its ideas and ideals to the rise of Western civilization is second to none The age of the cloister offers a fascinating overview of the birth and flowering of monasticism and describes in great detail the everyday monastic life and the faith literature economy architecture and culture of countless monks hermits nuns canons friars and lay men and women spanning hundreds of years To Govern Is to Serve Jacques Dalarun, 2023-02-15 To Govern Is to Serve explores the practices of collective governance in medieval religious orders that turned the precepts of the Gospels most notably that the first will be last the last will be first into practices of communal deliberation and the

election of superiors Jacques Dalarun argues that these democratic forms have profoundly influenced modern experiences of democracy in particular the idea of government not as domination but as service Dalarun undertakes meticulous textual analysis and historical research into twelfth and thirteenth century religious movements from Fontevraud and the Paraclete of Abelard and Heloise through St Dominic and St Francis that sought their superiors from among the less exalted members of their communities to chart how these experiments prefigured certain aspects of modern democracies those allowing individuals to find their way forward as part of a collective Wide ranging and deeply original To Govern Is to Serve highlights the history of the reciprocal bonds of service and humility that underpin increasingly fragile democracies in the twenty first century

The World of Medieval Monasticism Gert Melville, 2016-03-04 This book surveys the full panorama of ten centuries of Christian monastic life It moves from the deserts of Egypt and the Frankish monasteries of early medieval Europe to the religious ruptures of the eleventh and twelfth centuries and the reforms of the later Middle Ages Throughout that story the book balances a rich sense of detail with a broader synthetic view It presents the history of religious life and its orders as a complex braid woven from multiple strands individual and community spirit and institution rule and custom church and world The result is a synthesis that places religious life at the center of European history and presents its institutions as key catalysts of Europe's move toward modernity
