First published in 1998 Routledge is an imprint of Taylor Francis an informa company [The Hero's Quest and the Cycles of Nature](#) Rachel S. McCoppin,2016-10-25 This examination of the heroic journey in world mythology casts the protagonist as a personification of nature a botanical hero one might say who begins the quest in a metaphorical seed like state then sprouts into a period of verdant strength But the hero must face a mythic underworld where he or she contends with mortality and sacrifice embracing death as a part of life For centuries humans have sought superiority over nature yet the botanical hero

finds nothing is lost by recognizing that one is merely a part of nature. Instead, a cyclical promise of continuous life is realized in which no element fully disappears and the hero's message is not to dwell on death.
