Shrestha,Keshav Bhattarai,2017-02-08 Nepal is a living example of contrasts and contradictions It is a country that was born in medieval times grew up in the 16th century and now finds itself engulfed in the high tech gadgets and material marvels of the 21st century Nepal has its share of problem which include inadequate economic development and social infrastructure poverty and corruption plus worsening pollution but now it finally has relative peace and quiet after a hasty Maoist uprising Indeed it has passed through several democratic elections and finally seems to be getting on the right track This second edition of Historical Dictionary of Nepal contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Nepal

*Landlessness And Migration In Nepal* Nanda R. Shrestha,2019-04-10 This book aims to describe understand and explain the social political and geographic consequences of frontier migration focusing on landlessness nearlandlessness and spontaneous settlement among hill migrants in the Tarai of Nepal      *The Cartel System of States* Avidit Acharya,Alexander Lee,2022-12-08 The people who live in border towns often have closer relations with people across their immediate borders than with people in the same country as them Despite how intertwined these border communities often are neither community can access the governmental institutions of the nation on the other side Why are the citizens of neighboring regions that lie across an international border often subject to very different governance systems More broadly why can t public services be bought piecemeal on an a la carte basis with governments competing to provide higher quality services at the lowest cost in a marketplace for government services These questions lie at the heart of modern International Relations In *The Cartel System of States* Avidit Acharya and Alexander Lee provide a powerful and field shaping theory to address a fundamental issue in world politics the character of the territorial nation state They contend that the modern territorial state system works as an economic cartel in which states have local bounded monopolies in governing their citizens States refuse to violate each other s monopolies even when they could do so easily Acharya and Lee examine what makes this system stable when and how it emerged how it spread how it has been challenged and what led it to be so resilient over time Drawing from the centuries long process of modern state formation *The Cartel System of States* explains both how the present system of territorial states by no means a foregone conclusion in retrospect took over the world and how it might

change in the future      *The Hidden Legend* Hasta Gautam [Mridul] and Dr. Shingh B, 2014-04 overview coming soon

Background Notes United States. Department of State. Office of Media Services,      Nepal Between China and India Gaurav Bhattarai, 2022-06-17 Nepal has a non neutral history As an imperial and expansionist power in the Himalayas from the days of its unification in 1769 AD to the Anglo Nepal war of 1815 Nepal never remained neutral Also during the period of Colonialism in South Asia and particularly after losing the war with the British in 1816 Nepal never exercised the policy of neutrality Rather Nepal was raiding Tibet assisting British India in Sepoy Mutiny and stood by Britain in the two world wars Besides Nepal militarily backed independent India in 1948 over Hyderabad question But why Nepal suddenly had to take a refuge in neutrality after the political change of 1950 Was it because of Nepal's internal politics or an attempt to cope with new arrangements in regional security Nepal's fascination with neutrality was so swifter and inadvertent that Kathmandu hitherto has never initiated any policy debates over the all weather choice Power elites in Nepal still misperceive neutrality as non alignment The aim of the book however is not only limited to distinguishing neutrality with non alignment in the Nepali context but weighs Nepal's claim to neutrality through the Indian and Chinese perceptions to underline the presence of ambiguity and uncertainty in Nepal's claim to neutrality Illustrating Nepal's attempt to neutrality as a mere survival strategy this study is less hopeful about Nepal's foreign policy institutions abandoning their Cold War worldview by embracing the strategy of sustenance in today's interdependent and globalized world Because as the book suggests power elites in Kathmandu are customarily lured by the ephemeral yet sporadic geopolitical ambitions either through discourses or deeds      *Britain and Tibet 1765-1947* Julie G. Marshall, 2005 This bibliography is a record of British relations with Tibet in the period 1765 to 1947 As such it also involves British relations with Russia and China and with the Himalayan states of Ladakh Lahul and Spiti Kumaon and Garhwal Nepal Sikkim Bhutan and Assam in so far as British policy towards these states was affected by her desire to establish relations with Tibet It also covers a subject of some importance in contemporary diplomacy It was the legacy of unresolved problems concerning Tibet and its borders bequeathed to India by Britain in 1947 which led to border disputes and ultimately to war between India and China in 1962 These borders are still in dispute today It also provides background information to Tibet's claims to independence an issue of current importance The work is divided into a number of sections and subsections based on chronology geography and events The introductions to each of the sections provide a condensed and informative history of the period and place the books and article in their historical context Most entries are also annotated This work is therefore both a history and a bibliography of the subject and provides a rapid entry into a complex area for scholars in the fields of international relations and military history as well as Asian history
