Heroes In The Seaweed:

Poetry and the Meaning of Life David Ian Hanauer, 2004 A poem can explain the inexplicable and express the unexpressed This is how reading poetry enhances understanding and writing poetry helps students say things that they could not say in any other way And it's why David Hanauer believes that poetry deserves to play a central role in classroom literacy programs In Poetry and the Meaning of Life David explains how teachers can use poems to help students understand and express important thoughts feelings and experiences He does this by discussing theories of reading and writing and relating these to vignettes that demonstrate how real teachers in real classrooms have used poetry to put these theories into practice with emergent and beginning readers with mature readers and with English language learners The book concludes with a clarion call to teachers to use the transformative power of poetry to encourage their students to search out the meaning in their own lives Heroes in the Seaweed: Children in the Morning Wood, Daniel, Educational Research Institute of British Columbia.1973* Eating Promiscuously James McWilliams, 2017-05-01 A bold and bracing argument for the complete reimagining of the human diet by the critically acclaimed author of Just Food The human practice of farming food has failed There are 7 500 known varieties of domesticated apples we regularly eat about five Seventy five percent of the world's food derives from five animals and twelve plants Factory farmed meat is a major source of greenhouse gas emissions about 14 percent larger than transportation and consumes 75 percent of the water in drought prone regions such as the West We are struck in a rut of limited choices ad the vast majority of what we eat is detrimental to our health and the welfare of the planet But what if we could eliminate agriculture as we know it What if we could start over James McWilliams s search for more expansive palate leads him to those who are actively exploring the fringes of what we can eat a group of outliers seeking nutrition innovation outside the industrial food system Here we meet insect manufacturers seaweed harvesters road kill foragers plant biologists and oyster farmers who seek to open both our minds and our mouths and to overturn our most basic assumptions about food health and ethics Eating Promiscously generates hope for a more tasteful future one in which we eat thousands of foods rather than dozens with a new philosophy that could save both ourselves and our planet Spirituality and Desire in Leonard Cohen's Songs and Poems Peter Billingham, 2017-01-06 This volume represents the first ever collection of essays on Leonard Cohen to be published in the UK and one of the very first to be produced internationally The essays range from unique insights offered by Cohen's award winning authorised biographer Sylvie Simmons through to discussions of major themes in Cohen's output such as spirituality and desire and include creative reflections from a filmmaker and poets upon their own creative response to his practice Emerging from a one day symposium organised by Professor Peter Billingham at the University of Winchester UK to celebrate Cohen's 80th birthday this Festschrift collection represents a uniquely stimulating insightful and provocative discussion of the songs and poems of Leonard Cohen combining academic rigour with serious engagement with this remarkable poet and singer songwriter In the wake of the tragic news of
