Herzog Ernst And The Otherworld Voyage A Comparative Study:

Herzog Ernst and the Otherworld Voyage David Blamires,1979 **Jews and Journeys** Joshua Levinson,Orit Bashkin,2021-08-06 What happens when Jewish authors whether by force or of their own free will whether in reality or in the imagination travel from one place to another *Jews and Journeys* explores what it is about travel writing that enables it to become a central mechanism for exploring the realities and fictions of individual and collective identity **The Giant Hero in Medieval Literature** Tina Marie Boyer,2016-05-18 In *The Giant Hero in Medieval Literature* Tina Boyer counters the monstrous status of giants by arguing that they are more broadly legible than traditionally believed Building on an initial analysis of St Augustine's *City of God* Bernard of Clairvaux's deliberations on monsters and marvels and readings in Tomasin von Zerclaere's *Welsche Gast* provide insights into the spectrum of antagonistic and heroic roles that giants play in the courtly realm This approach places the figure of the giant within the cultural and religious confines of the twelfth and thirteenth centuries and allows an in depth analysis of epics and romances through political social religious and gender identities tied to the figure of the giant Sources range from German to French English and Iberian works Comparative Criticism: Volume 3 E. S. Shaffer,1981-10-29 This 1981 volume addresses literary theory and criticism comparative studies in terms of theme genre movement and influence and interdisciplinary perspectives **Urban Space in the Middle Ages and the Early Modern Age** Albrecht Classen,2009-12-15 Although the city as a central entity did not simply disappear with the Fall of the Roman Empire the development of urban space at least since the twelfth century played a major role in the history of medieval and early modern mentality within a social economic and religious framework Whereas some poets projected urban space as a new utopia others simply reflected the new significance of the urban environment as a stage where their characters operate very successfully As today the premodern city was the locus where different social groups and classes got together sometimes peacefully sometimes in hostile terms The historical development of the relationship between Christians and Jews for instance was deeply determined by the living conditions within a city By the late Middle Ages nobility and bourgeoisie began to intermingle within the urban space which set the stage for dramatic and far reaching changes in the social and economic make up of society Legal historical aspects also find as much consideration as practical questions concerning water supply and sewer systems Moreover the early modern city within the Ottoman and Middle Eastern world likewise finds consideration Finally as some contributors observe the urban space provided considerable opportunities for women to carve out a niche for themselves in economic terms *Medieval German Literature* Marion Gibbs,Sidney M. Johnson,2002-09-11 This comprehensive survey examines Germanic literature from the eighth century to the early fifteenth century The authors treat the large body of late medieval lyric poetry in detail for the first time *Between Science and Fiction* Hanjo Berressem,Michael Bucher,Uwe Schwagmeier,2012 The idea that the Earth is hollow has inspired both the world of science and the world of fiction As a scientific concept this notion has informed the works of Edmond Halley and

Leonhard Euler As a literary conceit it can be found in the works of Dante and E A Poe in novels by Jules Verne Arno Schmidt Thomas Pynchon and Mark Z Danielewski and in comics films and computer games This collection addresses both the scientific and the aesthetic aspects of the Hollow Earth with essays that range from medieval literature to afrofuturism Series n 1 work science medium Vol 5 Imagination and Fantasy in the Middle Ages and Early Modern Time Albrecht Classen,2020-08-24

The notions of other peoples cultures and natural conditions have always been determined by the epistemology of imagination and fantasy providing much freedom and creativity and yet have also created much fear anxiety and horror In this regard the pre modern world demonstrates striking parallels with our own insofar as the projections of alterity might be different by degrees but they are fundamentally the same by content Dreams illusions projections concepts hopes utopias dystopias desires and emotional attachments are as specific and impactful as the physical environment This volume thus sheds important light on the various lenses used by people in the Middle Ages and the early modern age as to how they came to terms with their perceptions images and notions Previous scholarship focused heavily on the history of mentality and history of emotions whereas here the history of pre modern imagination and fantasy assumes center position Imaginary things are taken seriously because medieval and early modern writers and artists clearly reveal their great significance in their works and their daily lives This approach facilitates a new deep structure analysis of pre modern culture

Water in Medieval Literature Albrecht Classen,2017-08-15 Ecocritical thinking has sensitized us more than ever before to the tremendous importance of water for human life as it is richly reflected in the world of literature The great relevance of water also in the Middle Ages might come as a surprise for many readers but the evidence assembled here confirms that also medieval poets were keenly aware of the importance of water to sustain all life to provide understanding of life s secrets to mirror love and to connect the individual with God In eleven chapters major medieval European authors and their works are discussed here taking us from the world of Old Norse to Irish and Latin literature to German French English and Italian romances and other narratives *Masters, Servants, and Orders in Greek Tragedy* David M. Bain,David Bain,1981

The Mineral and the Visual Brigitte Buettner,2022-06-29 Opulent jeweled objects ranked among the most highly valued works of art in the European Middle Ages At the same time precious stones prompted sophisticated reflections on the power of nature and the experience of mineralized beings Beyond a visual regime that put a premium on brilliant materiality how can we account for the ubiquity of gems in medieval thought In *The Mineral and the Visual* art historian Brigitte Buettner examines the social roles cultural meanings and active agency of precious stones in secular medieval art Exploring the layered roles played by gems in aesthetic ideological intellectual and economic practices Buettner focuses on three significant categories of art the jeweled crown the pictorialized lapidary and the illustrated travel account The global gem trade brought coveted jewels from the Indies to goldsmiths workshops in Paris fashionable bodies in London and the crowns of kings across Europe and Buettner shows that Europe s literal and metaphorical enrichment was predicated on the importation of gems and ideas

from Byzantium the Islamic world Persia and India Original transhistorical and cross disciplinary The Mineral and the Visual engages important methodological questions about the work of culture in its material dimension It will be especially useful to scholars and students interested in medieval art history material culture and medieval history *Reading Women in Late Medieval Europe* Alfred Thomas, 2016-04-29 Although Chaucer is typically labeled as the Father of English Literature evidence shows that his work appealed to Europe and specifically European women Rereading the Canterbury Tales Thomas argues that Chaucer imagined Anne of Bohemia wife of famed Richard II as an ideal reader an aspect that came to greatly affect his writing Tracing the Trails in the Medieval World Albrecht Classen, 2020-10-11 Every human being knows that we are walking through life following trails whether we are aware of them or not Medieval poets from the anonymous composer of Beowulf to Marie de France Hartmann von Aue Gottfried von Strassburg and Guillaume de Lorris to Petrarch and Heinrich Kaufringer predicated their works on the notion of the trail and elaborated on its epistemological function We can grasp here an essential concept that determines much of medieval and early modern European literature and philosophy addressing the direction which all protagonists pursue as powerfully illustrated also by the anonymous poets of Herzog Ernst and Sir Gawain and the Green Knight Dante s Divina Commedia in fact proves to be one of the most explicit poetic manifestations of the fundamental idea of the trail but we find strong parallels also in powerful contemporary works such as Guillaume de Deguileville s Plerinage de la vie humaine and in many mystical tracts Athens and Samos, Lesbos, and Chios, 478-404 B.C. Trevor J. Quinn, 1981 Anne's Bohemia Alfred Thomas, 1998 Ten chapters examine aspects of medieval Czech literature with particular emphasis on women readers and subjects and the influence of the church Individual manuscripts examined include The Dalimil Chronicle The Ointment Seller The Legend of Saint Procopius The Life of St Catherine The New Council and The Weaver The Wycliffite Woman and The Dispute between Prague and Kutn Hora

Encyclopedia of Imaginary and Mythical Places Theresa Bane, 2014-03-28 The heavens and hells of the world s religions and the far far away legends cannot be seen or visited but they remain an integral part of culture and history This encyclopedia catalogs more than 800 imaginary and mythological lands from all over the world including fairy realms settings from Arthurian lore and kingdoms found in fairy tales and political and philosophical works including Sir Thomas More s Utopia and Plato s Atlantis From al Araf the limbo of Islam to Zulal one of the many streams that run through Paradise entries give the literary origin of each site explain its cultural context and describe its topical features listing variations on names when applicable Cross referenced for ease of use this compendium will prove useful to scholars researchers or anyone wishing to tour the unseen landscapes of myth and legend Sagas of Imagination: A Medieval Icelandic Reader Ben Waggoner, 2017-12-15 The Norse men and women who sailed to Iceland brought stories with them stories of their lives and their ancestors passed down for centuries going back in time to great Vikings legendary heroes and even the ancient gods and goddesses A new wave of stories entered with Christianity stories of exotic lands and beasts of

saints and holy men facing demons and monsters A third wave of stories came to Iceland via Norway whose king had commissioned translations of tales of chivalry of the courtly love of gallant knights and beautiful ladies And all of these blended together in Iceland creating swashbuckling sagas unlike any other medieval literature This book presents eleven sagas and six shorter texts tracing the growth of these sagas of adventure from Norse legends of King Half and Asmund Champion s Bane to the life of the Apostle Bartholomew to tales of Parceval and King Arthur to the sagas of heroes like Vilmund the Outsider and Yngvar the Far Traveler and Samson the Fair *JEGP, Journal of English and Germanic Philology* Gustaf E.
