Melton, 2002-08-22 Based upon the most extensive early banking archive known to survive this book is the first major study of Stuart banking since R D Richards s *The Early History of Banking in England* 1928 It traces the origins and growth of banking from the late sixteenth century to the 1720s through two generations of a scrivener's bank established in 1638 by Robert Abbott and perpetuated by his nephew Robert Clayton and John Morris With deposits from landowners rents and stock sales these bankers practised as moneylenders and money brokers for another sector of the gentry needing capital to offset the effects of the Great Rebellion and an agricultural depression After 1660 Clayton and Morris integrated mortgage security into banking practice This study examines the elaborate stages of land assessment and legal change which enabled bankers to offer large scale long term securities to their clients a pattern followed later by other banks such as Childs Hoares Martins and Coutts      **British Banking** John Orbell, 2017-07-05 This substantially expanded new edition of the *Guide to the Historical Records of British Banking* contains details of over 700 archive collections held in local record offices university and local libraries and of course banks Wider coverage is given to the records of major domestic banks British owned overseas banks merchant banks and discount houses There are also additional listings of records of long defunct banks Arranged alphabetically by name the entries for each bank contain in most cases A brief history of the bank to explain numerous name changes Information as to where the bank s records are held Details of what the records consist of The entries are set in context by introductory chapters covering the historical structure and function of British banking and the purpose format and research value of the chief series of historical records commonly found in bank archives Bank records concern not just banks but the varied activities that they financed In addition to its contribution to the study of banking history this monumental reference work facilitates a wider knowledge and understanding of the history of British finance      **Hoare's Bank. Davenport-Hines, Jonathan Liebenau, 2013-10-31 First Published in 1987 Representing a range of eighteenth century research these articles clarify or

reorientate the historical origins of many of the chief themes of more recent business history They include the areas of The Harburgh Company from 1716 to 1723 institutional experimentation in the London Maryland Trade banking in London in the 1700s the pottery trade before 1780 the Birmingham Economy Boulton and Wedgwood financing the French navy and directions of conduct in a merchant s counting house **The Birth of Modern Europe** Laura Cruz,Joel Mokyr,2010-12-07

It seems undeniable that Jan de Vries has cast an indelible impression upon the field of early modern economic history Utilizing the methods and concepts pioneered by de Vries the contributors in this Festschrift display the depth and breadth of his influence with applications ranging from trade to architecture from the Netherlands to China and from the 1400s to the present day Prometheus Shackled Peter Temin,Hans-Joachim Voth,2013-01-02

After 1688 Britain underwent a revolution in public finance and the cost of borrowing declined sharply Leading scholars have argued that easier credit for the government made possible by better property rights protection lead to a rapid expansion of private credit The Industrial Revolution according to this view is the result of the preceding revolution in public finance In Prometheus Shackled prominent economic historians Peter Temin and Hans Joachim Voth examine this hypothesis using new detailed archival data from 18th century banks They conclude the opposite the financial revolution led to an explosion of public debt but it stifled private credit This led to markedly slower growth in the English economy Temin and Voth collected detailed data from several goldsmith banks Child s Gosling s Freame and Gould Hoare s and Duncombe and Kent The excellent records from Hoare s founded by Sir Richard Hoare in 1672 offer particular insight Numerous entrants into the banking business tried their hand at deposit taking and lending in the early 17th century few survived and fewer thrived Hoare s and a small group of competitors did both Temin and Voth chart the growth of the successful banks in the face of frequent wars and heavy handed regulations Their new data allows insights into the interaction between financial and economic development Government regulations such as a sharply lower maximum interest rate caused severe misallocation of credit and a misguided attempt to lighten the nation s debt burden led directly to the South Sea Bubble in 1720 Frequent wars caused banks to call in loans resulting in a sharply slower economic growth rate Based on detailed micro data the authors present conclusive evidence that wartime borrowing crowded out investment Far from fostering economic development England s financial revolution after 1688 did much to stifle it the Hanoverian warfare state was a key reason for slow growth during Britain s Industrial Revolution Prometheus Shackled is a revealing new take on one of the most important periods of economic and financial development *Stourhead* Dudley Dodd,2021-10-14

Brings both house and garden vividly to life A magnificent achievement Gardens Illustrated A finely crafted work it is an important record of the history of one of the country s most splendid estates The English Garden The Palladian house of Stourhead in Wiltshire occupies a plateau above the confluence of three valleys When you cross the south lawn and descend the tree hung slopes you glimpse a lake adorned with classical temples Continue and you will find an allegorical grotto a gothick hideaway a Pantheon of demi gods and on

high a deserted temple to Apollo To the west Alfred s Tower commands views over three counties a gaunt landmark to English monarchy and patriotism This is how in Georgian times Henry Hoare known as Henry the Magnificent would have explored the garden he designed Generations of the Hoare family bankers who combined service with enlightened patronage and philanthropy have developed and cultivated the garden at Stourhead and for many its breathtaking vistas are paradise Dudley Dodd charts the owners of Stourhead and the history of the landscape house and art collection He describes how flights of folly individual flair taste and careful stewardship have nurtured a national treasure which is among the finest English landscape gardens and since 1946 a jewel of The National Trust The stunning new pictures by the renowned photographer Marianne Majerus provide an up to date record of this enduring Elysium      *Newcastle* Ray A.
