Holderlin The Golden Chain Of Homer In:

Hölderlin and the Golden Chain of Homer Emery Edward George,1992 Consisting of two essays this book investigates the impact on Holderlin s poetic imagery of the Homeric metaphor of the golden chain of nature It contrasts A O Lovejoy s ideas on the great chain of being with the results of recent research It also announces discovery of an unknown source to which Holderlin was indebted an early seventeenth century Jesuit devotional tract The study considers the full range of the poetic work including the poems Hyperion and Empedokles The book is illustrated with two figures and concludes with two appendices of verbal data a bibliography and indexes of names and of Holderlin s works

Die Wende Von Der Aufklärung Zur Romantik 1760-1820 Horst Albert Glaser,György Mihály Vajda,2000 This volume is the twelfth to date in a series of works in French or English presenting the epochs and movements of a Comparative History of Literatures in European Languages Histoire Compar e des Litt ratures de Langues Europ ennes The original intention of the editors was to publish a four volume history of European literature from 1760 1820 and the first of these volumes Des Lumi res au Romantisme Genres en Vers appeared as long ago as 1982 The volumes Genres en Prose and Th tre are still awaited In their absence the present volume Epoche im _berblick attempts a more comprehensive and rigorous treatment of the period and its historiographical problems than was initially planned providing the reader with an overview of sixty eventful years of European literary history years in which German Classicism coincided with the birth initially in Germany and England of Romanticism And at the centre of this turbulent period of European intellectual and literary history stands the French Revolution

American Metempsychosis John Michael Corrigan,2012-03-01 The transmigration of souls is no fable I would it were but men and women are only half human With these words Ralph Waldo Emerson confronts a dilemma that illuminates the formation of American individualism to evolve and become fully human requires a heightened engagement with history Americans Emerson argues must realize history s chronology in themselves because their own minds and bodies are its evolving record Whereas scholarship has tended to minimize the mystical underpinnings of Emerson s notion of the self his depictions of the metempsychosis of nature reveal deep roots in mystical traditions from Hinduism and Buddhism to Platonism and Christian esotericism In essay after essay Emerson uses metempsychosis as an open ended template to understand human development In Leaves of Grass Walt Whitman transforms Emerson s conception of metempsychotic selfhood into an expressly poetic event His vision of transmigration viscerally celebrates the poet s ability to assume and live in other bodies his American poet seeks to incorporate the entire nation into his own person so that he can speak for every man and woman
