Hölderlin, the Poetics of Being Adrian Del Caro,1991 Here is a comprehensive introduction for the English reader to the poetry of Friedrich H Iderlin Here is a comprehensive introduction for the English reader to the poetry of Friedrich H Iderlin The poet is studied in the context of the romantic age but as one who imparted depth to the movement and influenced the critical debates of the 20th century Adrian Del Caro presents as detailed readable discussion of H Iderlin s major poems that clarifies but does not lose sight of the powerful formulations that animate H Iderlinian spirit H Iderlin s specific effort in the determination of the direction of modern man had to do with the relationship of poetry to being Del Caro draws on the contributions of Nietzsche and Heidegger within the theoretical framework of the question of being H Iderlin the poet of poets is presented at work and in his works as the instrument of conviviality binding mortal to mortal and mortal to divine

**Hölderlin** Adrian Del Caro, 1991 Heidegger, Hölderlin, and the Subject of Poetic Language Jennifer Anna Gosetti-Ferencei, 2004 Gosetti Ferencei arques that Heidegger has overlooked central elements in Hlderlin's poetics such as a Kantian understanding of aesthetic subjectivity and a commitment to Enlightenment ideals These elements she argues resist the more politically distressing aspects of Heidegger's interpretations including Heidegger's nationalist valorization of the German language and sense of nationhood or Heimat A Poetics of Homecoming Brendan O'Donoghue, 2011-05-25 This investigation addresses a pressing anxiety of our time that of homelessness Tersely stated the philosophical significance of homelessness in its more modern context can be understood to emerge with Nietzsche and his discourse on nihilism which signals the loss of the highest values hitherto Diverging from Nietzsche Heidegger interprets homelessness as a symptom of the oblivion of being The purpose of the present enquiry is to rigorously confront humanity s state of homelessness and at the same time illumine the extent to which Heidegger's thought engages with this pervasive phenomenon In questioning the nature of homelessness Heidegger's preoccupations with nihilism and modern technology prove crucial Moreover his attempts to overcome or prepare for the overcoming of this state of homelessness are also of great import to the current investigation Adorno and L vinas offer scathing critiques of Heidegger's thought as it relates to the motifs of homelessness homecoming Heimkunft and the German Heimat for they associate it with provincialism paganism and a pernicious form of politics In providing these critiques they bring to light the risks involved in undertaking a homecoming venture and they also show how a great thinker can err greatly While acknowledging the importance of these criticisms the present study reveals how Heidegger's various discourses on homelessness and homecoming bear fruitful insights that can contribute not just to a Germanic sense of homecoming but to a sense of homecoming that humanity at large can relate to and be enriched by

**Mortal Thought** James Luchte, 2016-07-28 Mortal Thought seeks to illustrate the artistic and philosophical contexts for H lderlin s poetic thought and to trace his profound impact upon subsequent philosophy most notably Nietzsche the Frankfurt School Heidegger and Post structuralism Beginning with the point of departure of H lderlin in Kant and Fichte

Mortal Thought outlines the novel philosophical innovations of H Iderlin and their influence upon philosophy from the 19th century to the present day A renewed appreciation of H lderlin will allow us to retrieve an authentic philosophy for our own era Mortal Thought lays out a concise clear and comprehensive account of the emergence of H Iderlin as philosopher and poet of his influence upon the four dominant strands of Continental philosophy Nietzsche Heidegger Critical Theory and Poet structuralism and of his relevance for us in our own era A Poetics of Jesus Jeffrey F. Keuss, 2018-10-24 This title was first published in 2002 A Poetics of Jesus explores the act of writing within and between the boundaries of 19th century biblical criticism and fiction Reflecting on the work of Christian poetics after Augustine to Baur Feuerbach Friedrich Strauss and Victorian novelists of the eighteenth and nineteenth century this book breaks new ground in juxtaposing the evoked image of Christ arising from Victorian biblical criticism against the image of Christ within fiction letting both these images and the words that figured them interact This book offers a highly accessible introduction to 19th century literature and theology through comparisons made to contemporary post modern theorists Demonstrating how literature can inform theology without itself becoming theology this book constitutes an important contribution to the literature theology debate and a much needed contribution to contemporary Christology through its introduction to the literature and the writers central to the beginnings of the historical quest for Jesus Interrupting Auschwitz Josh Cohen, 2005-06-01 Josh Cohen argues that Auschwitz is a key problem for how we think and therefore we cannot be assured that Auschwitz will not repeat itself

Ruin and Restitution Philip W. Silver, 1997 In this highly suggestive work Philip Silver confronts and corrects the entire critical tradition on Spanish romanticism and suggests a new restitutional theory of that period in Spanish cultural and Thinking the Poetic Measure of Justice Charles Bambach, 2013-05-21 What is the measure of ethics political history What is the measure of justice And how do we come to measure the immeasurability of these questions Thinking the Poetic Measure of Justice situates the problem of justice in the interdisciplinary space between philosophy and poetry in an effort to explore the sources of ethical life in a new way Charles Bambach engages the works of two philosophical poets who stand as the bookends of modernity Friedrich H Iderlin 1770 1843 and Paul Celan 1920 1970 offering close textual readings of poems from each that define and express some of the crucial problems of German philosophical thought in the twentieth century tensions between the native and the foreign the proper and the strange the self and the other At the center of this philosophical conversation between H Iderlin and Celan Bambach places the work of Martin Heidegger to rethink the question of justice in a nonlegal nonmoral register by understanding it in terms of poetic measure Focusing on H Iderlin s and Heidegger's readings of pre Socratic philosophy and Greek tragedy as well as on Celan's reading of Kabbalah he frames the problem of poetic justice against the trauma of German destruction in the twentieth century The Form of Becoming Janina Wellmann, 2017-04-04 The Form of Becoming offers an innovative understanding of the emergence around 1800 of the science of embryology and a new notion of development one based on the epistemology of rhythm It argues that between

1760 and 1830 the concept of rhythm became crucial to many fields of knowledge including the study of life and living processes The book juxtaposes the history of rhythm in music theory literary theory and philosophy with the concurrent turn in biology to understanding the living world in terms of rhythmic patterns rhythmic movement and rhythmic representations Common to all these fields was their view of rhythm as a means of organizing time and of ordering the development of organisms Janina Wellmann a historian of science has written the first systematic study of visualization in embryology Embryological development circa 1800 was imagined through the pictorial technique of the series still prevalent in the field today Tracing the origins of the developmental series back to seventeenth century instructional graphics for military maneuvers dance and craft work The Form of Becoming reveals the constitutive role of rhythm and movement in the visualization of developing life The Poetics of Crime Professor Michael Hviid Jacobsen, 2014-10-28 The Poetics of Crime provides an invitation to reconsider and reimagine how criminological knowledge may be creatively and poetically constructed obtained corroborated and applied Departing from the conventional understanding of criminology as a discipline concerned with refined statistical analyses survey methods and quantitative measurements this book shows that criminology can and indeed should move beyond such confines to seek sources of insight information and knowledge in the unexplored corners of poetically and creatively inspired approaches and methodologies With chapters illustrating the ways in which criminologists and other researchers or practitioners working on crime related questions can find inspiration in a variety of unconventional materials writing styles and analytical strategies The Poetics of Crime offers studies of police photography classic and contemporary literature silver screen movies performative dance enactments and media images As such this volume opens up the field of criminological research to alternative and novel sources of knowledge about crime its perpetrators and victims authorities motives and justice It will therefore appeal not only to sociologists social theorists and criminologists but to scholars across disciplines with interests in crime deviance and innovative approaches to social **Politics and Truth in Hölderlin** Anthony Curtis Adler, 2021 The first English language study devoted to H research lderlin's novel in three decades this book reveals Hyperion's literary and philosophical richness and its complex ties with politics choreography and economics While few would question the importance of Friedrich H Iderlin 1770 1843 for the development of German idealism and twentieth century literature philosophy and critical theory H lderlin scholarship remains largely inaccessible to those working in English This is especially true for his novel Hyperion otherwise his most accessible work which has not had a book length study in English devoted to it in more than three decades Anthony Curtis Adler opens H lderlin's novel up to the reader by stressing its literary uniqueness philosophical riches complex ties with contemporaneous discourses and relevance to contemporary Continental political theory Neither merely a stepping stone to his later and more esoteric poetry nor a novelistic presentation of an idealist dialectics Hyperion offers a powerful new vision of the relation between poetry political economy and philosophical truth Poetry for H Iderlin anticipates forms of political life

that have only been obscurely glimpsed rather than imitating a luminously given idea of the Good it patiently guides toward a dimly sensed better world Thus it replaces the Platonic philosopher king with the poetic leader of the dance Yet in just this way Adler shows Hyperion's project converges with a constellation of quintessentially modern discourses and practices including the codification of dance in early modernity and the rise of political economy in the 18th century Readers will discover the choreographic logic underlying both of these and with this a new way to think about the relations between literature politics economics and dance <u>Literature and Philosophy</u> D. Rudrum, 2006-07-31 A collection of essays grounded in state of the art research that explores contemporary debates at the interface between literature and philosophy It brings together diverse schools of thought and provides both a useful overview and an examination of one of the most fascinating cross disciplinary encounters in the humanities today **Poetics of Singularity** Timothy Clark, 2019-06-01 This polemical book reveals the basic tenets of what may be called a poetics of singularity in Martin Heidegger Maurice Blanchot Jacques Derrida and the strange late essays of Hans Georg Gadamer At issue is the at first simple even familiar idea that literary or poetic meaning cannot be stated in terms other than its own that a text strives towards the status of being an example if of anything only of itself sole witness of what it alone projects This issue opens a series of powerful questions concerning basic features of Western thought about the nature of understanding on Kierkegaard's singular individual that is yet each human life in its exceptionality of the uniqueness of historical testimony the nature of community The Poetics of Singularity forms an ethically compelling alternative to the currently dominant cultural social studies paradigm in literary criticism a neo Darwinian understanding of art and life which is sometimes only a disguised version of American nationalism Features An original work of scholarship combining elucidation research and polemics Identifies a forceful tradition of twentieth century poetics which differs from received ideas of deconstruction which the author names the poetics of singularity Makes available in English some previously untranslated material in the chapters on Heidegger and Gadamer and covers relatively unknown texts by Blanchot and some very recent work by Derrida Speaking of Silence in Heidegger Wanda Torres Gregory, 2021-10-06 In Speaking of Silence in Heidegger Wanda Torres Gregory critically analyzes Heidegger sthoughts on silence Arguing that silence about silence is a guiding principle in his sparse and often reticent words Torres Gregory sets out to decipher their elusive meanings Charting the trajectory of Heidegger's reflections from Being and Time to On the Way to Language she shows that he develops his ideas of silence in increasingly closer relations to his also evolving ideas of truth as the unconcealedness of being beyng and language as disclosive sonorous saying Torres Gregory distinguishes between human primordial and primeval forms of silence and the linguistic pre linguistic and proto linguistic levels at which silence can occur in relation to sonorous speech While the book focuses on these inner conceptual dynamics the author remains mindful of Heidegger's ties to National Socialism and clarifies how his theoretical assumptions allow for oppressive silencing The book concludes with critical reflections on the later Heidegger's thinking of silence and proposes alternatives to his

claims concerning the sound beyond sounds the metaphysics of mystical silence the uniquely linguistic essence of the mortals and the loud idle talk in the age of modern technology Holderlin's Philosophy of Nature Rochelle Tobias, 2020-05-28 This collection of 15 essays by distinguished international scholars reconsiders what Friedrich H Iderlin s work reveals about the impulses toward form and formlessness in nature and the role that poetry plays in creating Holderlin's harmonious Responses Werner Hamacher, Neil Hertz, Thomas Keenan, 1989-01-01 This collection of essays serves as a forum for a broad spectrum of responses to the war time writing of Paul de Man responses rarely in agreement and often sharply contradictory differing in approach affect and style Responses engages in reading de Man's early articles in articulating their multiple contexts then and now and in opening the limitations imposed by rubrics like the case of Paul de Man and deconstruction politics Responses brings together the readings and commentaries of literary critics and historians from the United States and Europe with their diverse strategies historical rhetorical psychological political The primary aims of these essays are reading de Man's texts from 1940 to 1983 and assessing them in their political ideological and institutional fields Responses also provides essential historical materials letters documents personal recollections on Le Soir and Het Vlaamsche Land on the occupation of Belgium and on the biography of Paul de Man An appendix collects the recent reactions of newspapers in the United States and Europe France Germany Switzerland Sweden Belgium and elsewhere to the discovery of de Man's wartime writings Contributors include Yves Bonnefoy Cynthia Chase Else de Bens Ortwin de Graef Jacques Derrida Rodolphe Gasche Gerald Graff Barbara Johnson Jeffrey Mehlman J Hillis Miller Edward Said Marc Shell Gayatri Spivak and others The collection appears under the auspices of the Oxford Literary Review England's leading theoretical journal for over a decade Lyric Orientations Hannah Vandegrift Eldridge, 2016-11-08 In Lyric Orientations Hannah Vandegrift Eldridge explores the power of lyric poetry to stir the social and emotional lives of human beings in the face of the ineffable nature of our mortality She focuses on two German speaking masters of lyric prose and poetry Friedrich H Iderlin 1770 1843 and Rainer Maria Rilke 1875 1926 While H Iderlin and Rilke are stylistically very different each believes in the power of poetic language to orient us as social beings in contexts that otherwise can be alienating They likewise share the conviction that such alienation cannot be overcome once and for all in any universal event Both argue that to deny the uncertainty created by the absence of any such event or to deny the alienation itself is likewise to deny the particularly human condition of uncertainty and mortality By drawing on the work of Stanley Cavell who explores how language in all its formal aspects actually enables us to engage meaningfully with the world Eldridge challenges poststructuralist scholarship which stresses the limitations even the failure of language in the face of reality Eldridge provides detailed readings of H lderlin and Rilke and positions them in a broader narrative of modernity that helps make sense of their difficult and occasionally contradictory self characterizations Her account of the orienting and engaging capabilities of language reconciles the extraordinarily ambitious claims that H lderlin and Rilke make for poetry that it can create political
