Holderlins Major Poetry The Dialectics Of Unity:

Holderlin's Major Poetry Richard Unger, Friedrich Hölderlin, 1996 Hoelderlin's Major Poetry Richard Unger, 1975 **Hölderlin's Major Poetry** Richard Unger, 1975 Hölderlin Major Poetry Richard Unger, 1975 Hölderlin and the **Poetry of Tragedy** Jeremy Tambling, 2014-01-01 H Iderlin 1770 1843 is the magnificent writer whom Nietzsche called my favourite poet His writings and poetry have been formative throughout the twentieth century and as influential as those of Hegel his friend At the same time his madness has made his poetry infinitely complex as it engages with tragedy and irreconcilable breakdown both political and personal with anger and with mourning This study gives a detailed approach to H lderlin's writings on Greek tragedy especially Sophocles whom he translated into German and gives close attention to his poetry which is never far from an engagement with tragedy H lderlin's writings always fascinating enable a consideration of the various meanings of tragedy and provide a new reading of Shakespeare particularly Julius Caesar Hamlet and Macbeth the work proceeds by opening into discussion of Nietzsche especially The Birth of Tragedy Since H Iderlin was such a decisive figure for Modernism to say nothing of modern Germany he matters intensely to such differing theorists and philosophers as Walter Benjamin Theodor Adorno Martin Heidegger Maurice Blanchot and Jacques Derrida all of whose views are discussed herein Drawing upon the insights of Hegelian philosophy and psychoanalysis this book gives the English speaking reader ready access to a magnificent body of poetry and to the poet as a theorist of tragedy and of madness H lderlin's poetry is guoted freely with translations and commentary provided This book is the first major account of H lderlin in English to offer the student and general reader a critical account of a vital body of work which matters to any study of poetry and to all who are interested in poetry's relationships to madness It is essential reading in the understanding of how tragedy pervades literature and politics and how tragedy has been regarded and written about from Hegel to Walter Benjamin Heidegger, Hölderlin, and the Subject of Poetic Language Jennifer Anna Gosetti-Ferencei, 2004 Gosetti Ferencei argues that Heidegger has overlooked central elements in Hlderlin's poetics such as a Kantian understanding of aesthetic subjectivity and a commitment to Enlightenment ideals These elements she argues resist the more politically distressing aspects of Heidegger's interpretations including Heidegger's nationalist valorization of the German language and sense of nationhood or Heimat Agonistic Poetry William Fitzgerald, 2023-07-28 Pindar's poetry although revered remains one of the least read among great classical works even within classical scholarship His epinikion or victory ode is an unfamiliar genre largely represented only by Pindar himself Engaging with his work requires facing the challenges of his complex language thought process and narrative style Despite such obstacles Pindar has long been acknowledged as an essential poet a symbol of inspiration and originality whose work has provided a model for poets seeking a break from conventional classical forms Yet Pindar's reputation as both a bold innovator and a flatterer of elite athletes has created a dual image of his character and work In this study the focus shifts from Pindar as a historical figure to the lasting

significance of his poetic mode which extends to modern works Pindar's work is frequently invoked in discussions of lyric poetry to illustrate that lyricism can be more than subjective or inward his poetry demonstrates a communal voice albeit one that arises not from a predefined community but through the act of poetic resistance By modeling community as an agon or contest the study explores how poetry can reflect communal forces rather than fixed groups This approach contrasts with perspectives that interpret lyric poetry through individualistic or self contained struggles as seen in the theories of Harold Bloom and certain deconstructive readings positioning the poetic voice instead as a dynamic communal force The analysis here extends beyond Pindar's ancient Greek context to examine the Pindaric mode's influence on the English ode and in the poetry of figures such as H lderlin as well as others like Claudel in French literature While considering historical influences this work does not aim to trace direct literary lineages instead it highlights shared problematics and poetic strategies Through close readings this study reframes the Pindaric tradition not as a set of stylistic clich's but as a source of complex communal expression within the broader field of lyric and odic poetry This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1987 Nathaniel Tarn, 2021-04-06 The great German Romantic poet Friedrich H Iderlin's spirit infuses this gorgeous cycle of poems that sing of the loves and devastations of our times Each hymn in Nathaniel Tarn's new collection The H Iderliniae is a love song to the Poet of Poets Friedrich H Iderlin the German Romantic poet philosopher who spent the last thirty six years of his life sequestered in a carpenter's tower in the south of Germany Tarn speaks through H Iderlin and H Iderlin speaks through Tarn in an act of spiritual and lyric possession unlike anything else in contemporary poetry The French Revolution which H lderlin supported passionately until the Reign of Terror illuminates our war torn ecologically precarious age as the failures of our age recall past tragedies Line after line carries H lderlin s hope in an ideal of a poetry that can englobe all the mind s disciplines and make a universe of its own The Aesthetic State Josef Chytry, 2024-07-26 Shortly after the middle of the eighteenth century a number of thinkers from the German speaking lands began to create a paradigm drawn from their impressions of a distant historical reality ancient Athens added to it a new mode of thought modern dialectics and at times even paid homage to the ancient Greek deity Dionysos to materialize their longing for an ideal The influence of these forces came to permeate modern German consciousness deifying the concept and activity of art reviving the Platonic and Sanskrit vision of the cosmos as play and aesthetic creation and projecting a way of life and labor that would honor not the commodity but the aesthetic product With rigorous commitment to primary sources and an unflagging critical engagement with the ideas and concrete situations they raise Josef Chytry provides a comprehensive and extensive study of this central motif in German thought from Winckelmann to Marcuse Chytry takes aesthetic state to signify the concentrated modern intellectual

movement to revitalize the radical Hellenic tradition of the polis as the site of a beautiful or good life The movement begins with the classicism of Winckelmann Wiemar aesthetic humanism Wieland Herder Goethe and Schiller's formal theory of the aesthetic state and continues through the idealism of the Swabian dialecticians Holderlin Hegel and Schelling and the realism of Marx Wagner and Nietzsche It culminates in the postrealism of Heiddegger Marcuse and the aesthetic modernist artist Walter Spies who initiated a dialogue with the non Western theatre state of the isle of Bali Josef Chytry concludes that the future speculation on the ideal of an aesthetic state must come to terms with the postrealist themes of ontological anarchy aesthetic ethos and theatre state In a bold effort to stimulate such speculation Chytry indicates how proponents of the aesthetic state might join forces with Rawlsian political theory to promote further the organon of persuasion that in his view serves as the common fount for the ancient dialectical and contractarian quests for the polis This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published The Relevance of Romanticism Dalia Nassar, 2014 Since the early 1990s there has been a resurgence of interest in 1989 in philosophy between Kant and Hegel and in early German romanticism in particular Philosophers have come to recognize that in spite of significant differences between the contemporary and romantic contexts romanticism continues to persist and the questions which the romantics raised remain relevant today The Relevance of Romanticism Essays on Early German Romantic Philosophy is the first collection of essays that offers an in depth analysis of the reasons why philosophers are and should be concerned with romanticism Through historical and systematic reconstructions the collection offers a deeper understanding and more encompassing picture of romanticism as a philosophical movement than has been presented thus far and explicates the role that romanticism plays or can play in contemporary philosophical debates The volume includes essays by a number of preeminent international scholars and philosophers Karl Ameriks Frederick Beiser Richard Eldridge Michael Forster Manfred Frank Jane Kneller and Paul Redding who discuss the nature of philosophical romanticism and its potential to address contemporary questions and concerns Through contributions from established and emerging philosophers discussing key romantic themes and concerns the volume highlights the diversity both within romantic thought and its contemporary reception Part One consists of the first published encounter between Manfred Frank and Frederick Beiser in which the two major scholars directly discuss their vastly differing interpretations of philosophical romanticism Part Two draws significant connections between romantic conceptions of history sociability hermeneutics and education and explores the ways in which these views can illuminate pressing questions in contemporary social political philosophy and theories of interpretation Part Three consists in some of the most innovative takes on romantic aesthetics which seek to bring romantic thought into dialogue with for instance contemporary Analytic aesthetics and theories of cognition mind The final part offers

one of the few rigorous engagements with romantic conceptions science and demonstrates ways in which the romantic views of nature scientific experimentation and mathematics need not be relegated to historical curiosities The Clash of **Ireland** ,2022-07-11 The Moment of Rupture Humberto Beck, 2019-08-23 An instant is the shortest span in which time can be divided and experienced In an instant there is no duration it is an interruption that happens in the blink of an eye For the ancient Greeks kairos the time in which exceptional unrepeatable events occurred was opposed to chronos measurable quantitative and uniform time In The Moment of Rupture Humberto Beck argues that during the years of the First World War the Russian Revolution and the rise of fascism in Germany the notion of the instant migrated from philosophy and aesthetics into politics and became a conceptual framework for the interpretation of collective historical experience that in turn transformed the subjective perception of time According to Beck a significant juncture occurred in Germany between 1914 and 1940 when a modern tradition of reflection on the instant spanning the poetry of Goethe the historical self understanding of the French Revolution the aesthetics of early Romanticism the philosophies of S ren Kierkegaard and Friedrich Nietzsche and the artistic and literary practices of Charles Baudelaire and the avant gardes interacted with a new experience of historical time based on rupture and abrupt discontinuity Beck locates in this juncture three German thinkers Ernst I nger Ernst Bloch and Walter Benjamin who fused the consciousness of war crisis catastrophe and revolution with the literary and philosophical formulations of the instantaneous and the sudden in order to intellectually represent an era marked by the dissolution between the extraordinary and the everyday The Moment of Rupture demonstrates how I nger Bloch and Benjamin produced a constellation of figures of sudden temporality that contributed to the formation of what Beck calls a distinct regime of historicity a mode of experiencing time based on the notion of a discontinuous present Transformation Andrew O. Fort, 1998-09-03 Liberation mukti is a central concern in Hinduism particularly in Advaita nondual Vedanta perhaps the best known school of Hindu thought There has been vigorous debate and analysis about the possibility and nature of liberation while living jivanmukti in Advaita from the time of Sankara the school s founder to the present day While the general conclusion seems to be that one can achieve living liberation members of the Advaita tradition also regularly express reservations about or describe limitiations to full liberation while embodied Jivanmukti in Transformation examines the development and transformation of the concept of jivanmukti from the Upanisads to the modern era It gives the most thorough treatment of the scholastic Advaita tradition on liberation while living makes the novel argument for a distinct Yogic Advaita tradition found in the Yogavasistha and Jivanmuktiviveka and explores the modern neo Vedanta view of jivanmukti which has been influenced by modern Western concepts like global ecumenism and humanistic social concern for all The book includes analysis of the views of modern Hindu figures such as Swami Vivekananda Sarvepalli Radhakrishnan Ramana Maharshi and Sankaracaryas of Kanchi and Sringeri and considers these thinkers in the context of current academic discussions about the encounter of India and the West Encyclopedia of Literary Translation Into

English: A-L O. Classe, 2000 The Language of Hermeneutics Rod Coltman, 1998-08-27 The first book in English on Gadamer's relationship to Heidegger this study illustrates the philosophical power Gadamer's thinking has achieved by The Theory of Inspiration Timothy Clark, 2000 Inspiration is a departing from Heidegger's at certain crucial moments basic concept of western poetics and deserves reassessment with all the tools of modern literary theory **Connections** Charles Taylor, 2024-05-21 Charles Taylor delves into the poetry of the Romantics and their heirs a foundation of his distinctive philosophy of language Taylor holds that Romantic poetry responded to disenchantment with old cosmic orders depleted artists groped to articulate new meanings by bringing connections to life rather than merely reasoning abstractly about life Ambiguity in the Western Mind Craig J. N. De Paulo, Patrick A. Messina, Marc Stier, 2005 Ambiguity in the Western Mind includes a collection of essays by internationally renowned scholars such as John D Caputo Camille Paglia Jaroslav Pelikan and Roland Teske along with a preface by Joseph Margolis all taking up the guestion of the significance of ambiguity in Western thought This engaging topic will be of interest to scholars and students alike from across the disciplines Tracing the conceptual relevance of ambiguity historically and through some of the great books that have formed Western consciousness this volume is a major contribution to the contemporary discussion surrounding this controversial notion especially as a hermeneutical concept for interpreting the classics Contradiction in Motion Songsuk Susan Hahn, 2018-07-05 Everything is contradictory Hegel declares in Science of Logic In this analysis of one of the most difficult and neglected topics in Hegelian studies Songsuk Susan Hahn tackles the status of contradiction in Hegel s thought Properly philosophical thinking in the Hegelian mode recognizes that contradiction pervades all organic forms of life Contradiction in Motion presents Hegel's doctrine of contradiction once widely dismissed as one deserving serious consideration The book argues that contradiction is not a sign of error or incoherence but rather plays an important role in the development of Hegel's system. The first part of the book sets up Hegel's logic of organic wholes in such a way as to motivate his claim that everything is contradictory Hahn explores how Hegel tests his abstract logical and methodological apparatus against the more concrete unmanageable aspects of empirical nature. The second and third parts of the book examine the extent to which Hegel's organic model informs his aesthetics and ethics Hahn reveals the privileged role of art forms in expressing our consciousness of organic unity and shows how Hegel's organic holistic conception of cognition and nature with its distinctively contradictory stance can be incorporated coherently into his ethics **Nietzsche's Affirmative Morality** Peter Durno Murray, 2015-06-03 This book argues that Nietzsche bases his affirmative morality on the model of individual responsiveness to otherness which he takes from the mythology of Dionysus The subject is not free to choose to avoid such responding to the demands of the other Nietzsche finds that the basic mode of responding is pleasure This feeling as a basis for morality underlies the morality which is true to the earth and the major concepts of will to power eternal return and amor fati The priority of otherness makes all thought ethical and not only aesthetic The basis of all meanings combines

the fundamental impulse of responding outwards with an immediate complement in the individual interpretation world This is specifically ethical because the recognition of our own historical specificity arises as a result of the refusal of others to become mere differences within our notion of the Same and through their demand that we become who we are in the recognition of their separate existence
