Part 1, on diet and natural therapies, addresses the importance of diet for pets and discusses the pros and cons of both commercially available and homemade diets. It also covers the basic explanations of the various alternative therapies widely used by holistic veterinarians and readily available to pet owners, e.g., supplements and herbs, acupuncture, homeopathy, chiropractic, and other manual healing. Part 2 makes recommendations for specific health conditions such as skin problems or digestive tract problems and describes how various alternative therapies are used alone or in combination with allopathic therapies to treat or relieve the condition. Finally, Part 3 offers an overview of health maintenance and preventive health and includes information about vaccinations, flea and tick control, weight control, and caring for the aging pet. Full-color line art and photographs illustrate various plants and herbs and also techniques such as manual therapies, massage, and other hands-on healing techniques in a user-friendly and easily identifiable manner.
