The national reports follow a mutually agreed structure. The publication is introduced by a general overview and a more theoretic article defining the issues at stake. The book gives a unique general overview on European approaches towards integrated social and health care services and policies that are to be developed to face the growing need of care in ageing societies; furthermore, it provides indicators for successful approaches and models of good practice to overcome the social health divide and a better understanding of the meaning of integrated services and coordination of social and health systems in the different countries.
