Norman N. Holland Jeffrey Berman,2021-03-11

Norman Holland was unquestionably the leading 20th century American psychoanalytic literary critic Long known as the

Dean of American psychoanalytic literary critics Holland produced an enormous body of scholarship that appeals to both neophytes in the field and advanced researchers many of whom have been influenced by his writings Holland was one of the first proponents of reader response criticism the theorist of readers identity themes and the author of fifteen books that have become classics in the field Jeffrey Berman analyzes all of Holland's books and many of his 250 scholarly articles highlighting continuities and discontinuities in the critic's thinking over time A controversial if not polarizing figure Holland is discussed in relation to his closest colleagues including Murray Schwartz Bernard Paris and Leslie Fiedler as well as his fiercest critics among them Frederick Crews David Bleich and Jonathan Culler creating a dynamic and personal portrait Insofar as this text illuminates the evolving mind of a premier literary critic it produces a parallel profile of the American reader the primary object of Holland's extensive work

Current Catalog National Library of Medicine (U.S.), 1993-04 *Essential Papers on Literature and Psychoanalysis* Emanuel Berman, 1993 In a draft attached to a letter to his friend and confidante Wilhelm Fliess May 31 1897 Freud develops an idea The mechanism of fiction is the same as that of hysterical fantasies He supports this thought with a brief analysis of the biographical sources of Goethe's Werther A few months later on October 15 1897 Freud mails Fliess a detailed account of remembered events from his childhood that Freud believed underlined the universality of Oedipus Rex and Hamlet Freud's foray into literature initiated the beginning of a new critical approach In *Essential Papers on Literature and Psychoanalysis* Emanuel Berman presents classic and contemporary papers written at the intersection of literature and psychoanalysis In bringing these essays together Berman traces the development of a discipline that has often been plagued by a polarization between self-confident single-minded psychoanalysts reading literature as a series of case studies and literary loyalists who cling to manifest content or to the declared intentions of the authors accepting them at face value and depriving the work of its emotional complexity Berman covers the full range of old and new perspectives and presents selections from today's mature phase This collection includes papers by Sigmund Freud Steven Marcus Patrick J Mahoney Donald Spence Otto Rank Ernest Jones Ernst Kris Phyllis Greenacre Florence Bonime and Maryanne Eckardt David Werman Ellen Handler Spitz Jacques Lacan Shoshana Felman Norman N Holland Roy Schafer Meredith Anne Skura Gail S Reed Francis Baudry Rivka R Eifermann and Bennett Simon

Tabooed Jung: Marginality as Power C. Gallant, 2016-02-02 Ever since Jung's break with Freud he has been excluded from both the psychoanalytic discourse and those schools of literary criticism influenced by psychoanalysis But this very exclusion has shaped the discourse Further many of the analytic writings of Jung and the post-Jungian school of Developmental Jungians are parallel to work by contemporary ego psychologists and feminists and could contribute to those fields Jung's entire case throws much light upon the state of marginalization its effects and its powers

Literature and the Brain Norman Norwood Holland, 2009 LITERATURE AND THE BRAIN goes straight to the human core of literature when it explains the different ways our brains convert stories poems plays and films into pleasure When we are deep into a film or book we find ourselves

absorbed unaware of our bodies or our surroundings We don't doubt the existence of Spider Man or Harry Potter and we have real feelings about these purely imaginary beings Our brains are behaving oddly because we know we cannot act to change what we are seeing This is only one of the special ways our brains behave to with literature ways that LITERATURE AND THE BRAIN reveals 474 pp 13 ill **Encyclopedia of Creativity** ,2011-05-20 The first edition of the successful Encyclopedia of Creativity served to establish the study of creativity is a field in itself Now completely updated and revised in its second edition coverage encompasses the definition of creativity the development and expression of creativity across the lifespan the environmental conditions that encourage or discourage creativity creativity within specific disciplines like music dance film art literature etc the relationship of creativity and mental health intelligence and learning styles and the process of being creative This reference also appeals to a lay audience with articles specifically on the application of creativity to business settings Available online via ScienceDirect and in limited print release Named a 2012 Outstanding Academic Title by the American Library Association's Choice publication Serves as a compendium of reviews of a number of domain specific areas such as acting dance expressive arts film food music religion science sports theater and writing Creativity and education are examined in articles about thought processes such as developmental trends in creative abilities and potentials the enhancement of creativity intelligence knowledge play prodigies programs and courses talent and teaching creativity Cognitive aspects of creativity can be investigated in articles about altered and transitional states analogies attention cognitive style divergent thinking flow and optimal experience metacognition metaphors problem finding problem solving and remote associates Covers business and organizational creativity in articles about advertising with art creative visuals business management creativity coaching creativity exercises entrepreneurship group dynamics innovation leadership organizational culture organizational development teams and training among others Explicitly examines the complex interrelationship between society and creativity in articles about awards conformity and conventionality the creative sector and class of society cultural diversity the dark side of creativity East vs West networking social psychology war zeitgeist and others Personal and interpersonal creativity is discussed in articles relating to collaboration family life stages mentors networking personal creativity and self actualization Focuses on scientific information about creativity there are also articles that discuss brain and neuropsychology concepts of creativity definitions of creativity expertise longitudinal studies researching art artists and art audiences research methods phenomenology research and qualitative research Online version contains an additional 26 biographies of famously creative people **Pastor John, Volume II** Brian N. Tebbutt,2022-01-28 John's Gospel can be both inspiring and bewildering This book enables insight into the Gospel in a fresh way How is it that we respond to it as we do Understanding is enhanced by studying the text and by being aware of the kind of responses we make Reading and working with it will deepen fellowship and skill in pastoral care John's text is mined for gems of insight into ourselves and as a rich resource of ample illustrative material for preachers and teachers This book elucidates chapters

five to nine of the Gospel presenting insights that involve us in the story The content derives from years of teaching John's Gospel in workshops and reflection groups in varying church contexts Guidance is given in working in this way and in how we can share our insights with each other in the light of the text This experience of John's Gospel is illuminated using recent ways of reading What the story means is conveyed in detailed Bible study It becomes real for us How this happens is explored by understanding the process of reading and by observing our reactions to the text John's Christ becomes central to who we are

Challenging Separate Spheres Marjanne Elaine Goozé, 2007 This collection of essays centers on women writers who negotiated, interrogated and challenged the gender ideology of separate spheres through their advocacy and representations of female Bildung The term Bildung encompasses an individual's entire moral, spiritual, behavioral, emotional, political and intellectual development The contributors analyze works of fiction, memoirs, autobiographies, letters, the periodical press and conduct and cookbooks from the mid 1700s to circa 1900 that confront the separate spheres paradigm and promote women's educational and personal development They examine women's writing and reading practices, moral and gender philosophies, political activism and work from the home to the stage and factory Most writers did not repudiate outright existing gender models but both subtly and overtly subverted and reinterpreted them In all the texts the process of female education leads to an assertion of agency The writers came from different social classes and professional backgrounds ranging from noblewomen to working class autobiographers of the later nineteenth century This volume will be of interest to German cultural, literary and historical scholars as well as to those concerned with the development of European feminism, women's education and autobiography

National Library of Medicine Current Catalog National Library of Medicine (U.S.), *High Theory/Low Culture* M. Brottman, 2005-03-01 In *High Theory/Low Culture* Brottman uses the tools of high cultural theory to examine many areas of today's popular culture including style magazines, sport shopping tabloid newspapers, horror movies and pornography In doing so she not only demonstrates the practical use of high theory as it relates to our everyday world but she also investigates the kinds of low culture that are regularly dismissed by academic scholars Through a close examination of these cultural forms Brottman reveals how the kinds of popular culture that we usually take for granted are in fact far more complex and sophisticated than is normally assumed

Intentionality, Desire, Responsibility A.W.M. Mooij, 2010-09-14 This book is intended to contribute towards a justification of the human sciences Its basic phenomenological assumption is that man is an interpreting being in the domains of experience, desire and freedom of will An elaboration is offered from the perspectives of psychopathology, psychoanalysis and law

Depth-Psychological Understanding Philip F. D. Rubovits-Seitz, 2013-05-13 Although clinical interpretation originated with Freud, the latter's positivist preference for purely observational methods made him ambivalent toward interpretive methods According to Rubovits-Seitz, the legacy of Freud's positivism still pervades clinical thinking and interferes with progress in investigating and improving interpretive methods He reviews the paradigm shift in general science from

positivism to postpositivism by way of demonstrating the compatibility of interpretive inquiry with a postpositivist approach Post Freudian models of clinical interpretation are evaluated and clinical methods of interpretation are compared with interpretive approaches in nonclinical fields A detailed discussion of the neglected problem of justifying interpretations incorporates evaluations of specific justifying procedures and a case report illustrating applications of such methods The work concludes with a consideration of common but avoidable errors in clinical interpretation along with remedial strategies for dealing with them Following Depth Psychological Understanding clinicians may no longer take for granted the interpretive process and the accuracy of their own interpretations Rubovits Seitz's scholarly survey marks a major advance in comprehending the methodology of clinical interpretation and in setting forth both the problems and promise of interpretive methods

Freud's Theory and Its Use in Literary and Cultural Studies Henk de Berg, 2004 Rarely has a single figure had as much influence on Western thought as

Sigmund Freud His ideas permeate our culture to such a degree that an understanding of them is indispensable Yet many otherwise well informed students in the humanities labor under misconceptions or lack of knowledge about Freudian theory There are countless introductions to Freudian psychoanalysis but surprisingly none that combine a genuinely accessible account of Freud's ideas with an introduction to their use in literary and cultural studies as this book does It is written specifically for use by advanced undergraduate and graduate students in courses dealing with literary and cultural criticism yet will also be of interest to the general reader The book consists of two parts Part one explains Freud's key ideas focusing on the role his theories of repression conscious and unconscious mental processes sexuality dreams free associations Freudian slips resistance and transference play in psychoanalysis and on the relationship between ego superego and id Here de Berg refutes many popular misconceptions using examples throughout The assumption underlying this account is that Freud offers not simply a model of the mind but an analysis of the relation between the individual and society Part two discusses the implications of Freudian psychoanalysis for the study of literature and culture Among the topics analyzed are Hamlet Heinrich Heine's Lore Ley Freud's Totem and Taboo and its influence on literature the German student movement of the late 1960s and the case of the Belgian pedophile Marc Dutroux and the public reactions to it Existing books focus either on Freudian psychoanalysis in general or on psychoanalytic literary or cultural criticism those in the latter category tend to be abstract and theoretical in nature None of them are suitable for readers who are interested in psychoanalysis as a tool for literary and cultural criticism but have no firm knowledge of Freud's ideas Freu
