**Hollywood Goes to War** Clayton R. Koppes, 1987 Hollywood Goes to War Colin Shindler, 2014-01-21 A historian's view of the relationship between American history and the American film industry this book is a witty and perceptive account of Hollywood and its films in the years from the outbreak of the Second World War in Europe to the end of the war in Korea It describes how film makers and their industry were shaped by and responded to the strong political and social stimuli of wartime America The author examines the recurring question of whether the movies were a reflection of the society in which they were produced or whether by virtue of their undeniable propaganda power the films shaped that society Combining evidence from literary visual and oral sources he covers a wide range of movies emphasising in particular *Casablanca* *Mrs Miniver* *The Best Years of Our Lives* and *Since You Went Away* In addition to placing the films in a social and political context the author shows that Hollywood is a perfect example of the bone headed way in which people behave when they are dealing with large amounts of money and power Enjoyably nostalgic this book will appeal to film enthusiasts as well as those interested in war and its effect on society

Hollywood Goes to War Clayton R. Koppes, Gregory D. Black, 1988 **Hollywood Goes to War** Edward F. Dolan, 1985 **Hollywood Goes to War** Edward F. Dolan (Jr.), 1985 Hollywood goes to war, 1980 *Hollywood's War with Poland, 1939-1945* M.B.B. Biskupski, 2010-01-08 This passionate carefully researched richly detailed well written study reveals the political motives behind WWII Hollywood's portrayal of Poles Choice During World War II Hollywood studios supported the war effort by making patriotic movies designed to raise the nation's morale Often the characterizations were as black and white as the movies themselves Americans and their allies were heroes while everyone else was a villain The peoples of Norway France Czechoslovakia and

England were all good because they had been invaded or victimized by Nazi Germany Yet Poland the first country to be invaded by the Third Reich was repeatedly represented in a negative light In this prize winning study Polish historian M B B Biskupski explores why Biskupski presents a close critical study of prewar and wartime films such as *To Be or Not to Be* In *Our Time* and *None Shall Escape* Through memoirs letters diaries and memoranda written by screenwriters directors studio heads and actors Biskupski examines how the political climate and especially pro Soviet sentiment influenced Hollywood films of the time Winner of the Oscar Halecki Prize A Choice Outstanding Academic Title **Hollywood Goes to War** Clayton R. Koppes, Gregory D. Black, 2000 The drama imagery and fantasy of 1940s films was enlisted to inspire the US war effort during World War II This book looks at the propaganda politics and persuasion that conspired to produce memorable movies such as *Casablanca* and the thankfully forgotten *Hillbilly Blitzkreig* *Selling the Korean War* Steven Casey, 2008-03-21 How presidents spark and sustain support for wars remains an enduring and significant problem Korea was the first limited war the U S experienced in the contemporary period the first recent war fought for something less than total victory In *Selling the Korean War* Steven Casey explores how President Truman and then Eisenhower tried to sell it to the American public Based on a massive array of primary sources Casey subtly explores the government's selling activities from all angles He looks at the halting and sometimes chaotic efforts of Harry Truman and Dean Acheson Dwight Eisenhower and John Foster Dulles He examines the relationships that they and their subordinates developed with a host of other institutions from Congress and the press to Hollywood and labor And he assesses the complex and fraught interactions between the military and war correspondents in the battlefield theater itself From high politics to bitter media spats Casey guides the reader through the domestic debates of this messy costly war He highlights the actions and calculations of colorful figures including Senators Robert Taft and J. H. Joseph McCarthy and General Douglas MacArthur He details how the culture and work routines of Congress and the media influenced political tactics and daily news stories And he explores how different phases of the war threw up different problems from the initial disasters in the summer of 1950 to the giddy prospects of victory in October 1950 from the massive defeats in the wake of China's massive intervention to the lengthy period of stalemate fighting in 1952 and 1953 *Divided Lenses* Michael Berry, Chiho Sawada, 2017-12-31 *Divided Lenses* Screen Memories of War in East Asia is the first attempt to explore how the tumultuous years between 1931 and 1953 have been recreated and renegotiated in cinema This period saw traumatic conflicts such as the Sino Japanese War the Pacific War and the Korean War and pivotal events such as the Rape of Nanjing Pearl Harbor the Battle of Iwo Jima and the bombings of Hiroshima and Nagasaki all of which left a lasting imprint on East Asia and the world By bringing together a variety of specialists in the cinemas of East Asia and offering divergent yet complementary perspectives the book explores how the legacies of war have been reimagined through the lens of film This turbulent era opened with the Mukden Incident of 1931 which signaled a new page in Japanese militaristic aggression in East Asia and culminated with the Korean War 1950

1953 a protracted conflict that broke out in the wake of Japan's post World War II withdrawal from Korea **Divided Lenses** explores the ways in which events of the intervening decades have continued to shape politics and popular culture throughout East Asia and the world The essays in part I examine historical trends at work in various national cinemas including China Taiwan Japan Korea and the United States Those in part 2 focus on specific themes present in the cinema portraying this period such as comfort women in Chinese film the Nanjing Massacre or nationalism and how they have been depicted or renegotiated in contemporary films Of particular interest are contributions drawing from other forms of screen culture such as television and video games **Divided Lenses** builds on the growing interest in East Asian cinema by examining how these historic conflicts have been imagined framed and revisited through the lens of cinema and screen culture It will interest later generations living in the shadow of these events as well as students and scholars in the fields of cinema studies cultural studies cold war studies and World War II history

**John Wayne** Randy Roberts, 1997-01-01 John Wayne remains a constant in American popular culture Middle America grew up with him in the late 1920s and 1930s went to war with him in the 1940s matured with him in the 1950s and kept the faith with him in the 1960s and 1970s In his person and in the persona he so carefully constructed middle America saw itself its past and its future John Wayne was his country's alter ego Thus begins John Wayne American a biography bursting with vitality and revealing the changing scene in Hollywood and America from the Great Depression through the Vietnam War During a long movie career John Wayne defined the role of the cowboy and soldier the gruff man of decency the hero who prevailed when the chips were down But who was he really Here is the first substantive serious view of a contradictory private and public figure

War and Press Freedom Jeffery A. Smith, 1999-02-25 **War and Press Freedom** The Problem of Prerogative Power is a groundbreaking and provocative study of one of the most perplexing civil liberties issues in American history What authority does or should the government have to control press coverage and commentary in wartime First Amendment scholar Jeffery A. Smith shows convincingly that no such extraordinary power exists under the Constitution and that officials have had to rely on claiming the existence of an autocratic higher law of survival Smith carefully surveys the development of statutory restrictions and military regulations for the news media from the ratification of the Bill of Rights in 1791 through the Gulf War of 1991 He concludes that the armed forces can justify refusal to divulge a narrow range of defense secrets but that imposing other restrictions is unwise unnecessary and unconstitutional In any event as electronic communication becomes almost impossible to constrain soldiers and journalists must learn how to respect each other's obligations in a democratic system

Erenberg,Susan E. Hirsch,2014-12-10 The War in American Culture explores the role of World War II in the transformation of American social cultural and political life World War II posed a crisis for American culture to defeat the enemy Americans had to unite across the class racial and ethnic boundaries that had long divided them Exploring government censorship of war photography the revision of immigration laws Hollywood moviemaking swing music and popular magazines these essays reveal the creation of a new national identity that was pluralistic but also controlled and sanitized Concentrating on the home front and the impact of the war on the lives of ordinary Americans the contributors give us a rich portrayal of family life sexuality cultural images and working class life in addition to detailed consideration of African Americans Latinos and women who lived through the unsettling and rapidly altered circumstances of wartime America     **Unconventional Warriors** Matthew B. Hill,2018-02-21 Tracing the American Guerrilla narrative through more than one hundred years of film and television this book shows how the conventions and politics of this narrative influence Americans to see themselves as warriors both on screen and in history American guerrillas fight small scale battles that despite their implications for large scale American victories often go untold This book evaluates those stories to illumine the ways in which film and television have created reinforced and circulated an American Guerrilla fantasy a mythic narrative in which Americans despite having the most powerful military in history are presented as underdog resistance fighters against an overwhelming and superior occupying evil *Unconventional Warriors The Fantasy of the American Resistance Fighter in Television and Film* explains that this fantasy has occupied the center of numerous war films and in turn shaped the way in which Americans see those wars and themselves Informed by the author s expertise on war in contemporary literature and popular culture this book begins with an introduction that outlines the basics of the American Guerrilla narrative and identifies it as a recurring theme in American war films Subsequent chapters cover one hundred years of American guerrillas in film and television The book concludes with a chapter on science fiction narratives illustrating how the conventions and politics of these stories shape even the representation of wholly fictional imagined wars on screen     *Performing Difference* Jonathan C. Friedman,2008-12-24 *Performing Difference* is a compilation of seventeen essays from some of the leading scholars in history criticism film and theater studies Each author examines the portrayal of groups and individuals that have been traditionally marginalized or excluded from dominant historical narratives As a meeting point of several fields of study

this book is organized around three meta themes race gender and genocide Included are analyses of films and theatrical productions from the United States as well as essays on cinema from Southern and Central America Europe and the Middle East Topically the contributing authors write about the depiction of race ethnicities gender and sexual orientation and genocides This volume assesses how the performing arts have aided in the social construction of the other in differing contexts Its fundamental premise is that performance is powerful and its unifying thesis is that the arts remain a major forum for advancing a more nuanced and humane vision of social outcasts not only in the realm of national imaginations but in social relations as well

**Refiguring American Film Genres** Nick Browne, 1998-04-22 This collection of essays by leading American film scholars charts a whole new territory in genre film criticism Rather than assuming that genres are self evident categories the contributors offer innovative ways to think about types of films and patterns within films in a historical context Challenging familiar attitudes the essays offer new conceptual frameworks and a fresh look at how popular culture functions in American society The range of essays is exceptional from David J Russell s insights into the horror genre to Carol J Clover s provocative take on trial films to Leo Braudy s argument for the subject of nature as a genre Also included are essays on melodrama race film noir and the industrial context of genre production The contributors confront the poststructuralist critique of genre head on together they are certain to shape future debates concerning the viability and vitality of genre in studying American cinema
