profoundly mediating their reception of Hollywood's flickering images Beginning with turn of the century moving picture pioneer Thomas Edison Cripps traces the invention of Hollywood and the development of the studio system He explores the movie going experience the struggle for social control over the movies through censorship the impact of sound on the style and content of films alternatives to Hollywood's oligopoly including race films and documentaries the paradoxical predictability and subversive creativity of genre pictures and Hollywood's self proclaimed shining moment during the Second World War Cripps concludes with a discussion of the collapse of the studio system after the war due in equal parts to suburbanization the emergence of television and government anti trust action

HOLLYWOOD SPEAKS. AN ORAL HISTORY. MIKE STEEN. Mike Steen, 1974 **All for Beauty** Adrienne L. McLean, 2022-07-15 This book provides an industrial history that examines how and why makeup and hairdressing evolved as crafts in the studio era Readers will never again watch Hollywood films without thinking about the roles of makeup and hairdressing in creating not just fictional characters but stars as emblems of an idealized and undeniably mesmerizing visual perfection Costume, Makeup, and Hair Adrienne L. McLean, 2016-10-07 Movie buffs and film scholars alike often overlook the importance of makeup artists hair stylists and costumers With precious few but notable exceptions creative workers in these fields have received little public recognition even when their artistry goes on to inspire worldwide fashion trends From the acclaimed Behind the Silver Screen series Costume Makeup and Hair charts the development of these three crafts in the American film industry from the 1890s to the present Each chapter examines a different era in film history revealing how the arts of cinematic costume makeup and hair have continually adapted to new conditions making the transitions from stage to screen from monochrome to color and from analog to digital Together the book's contributors give us a remarkable glimpse into how these crafts foster creative collaboration and improvisation often fashioning striking looks and ingenious effects out of limited materials Costume Makeup and Hair not only considers these crafts in relation to a wide range of film genres from sci fi spectacles to period dramas but also examines the role they have played in the larger marketplace for fashion and beauty products Drawing on rare archival materials and lavish color illustrations this volume provides readers with both a groundbreaking history of film industry labor and an appreciation of cinematic costume makeup and hairstyling as distinct art forms

Reframing the Past Mia E. M. Treacey, 2016-02-26 Reframing the Past traces what historians have written about film and television from 1898 until the early 2000s Mia Treacey argues that historical engagement with film and television should be reconceptualised as Screened History an interdisciplinary international field of research to incorporate and replace what has been known as History and Film It draws from the fields of Film Television and Cultural Studies to critically analyse key works and connect past scholarship with contemporary research Reconsidered as Screened History the works of Pierre Sorlin Marc Ferro John O Connor Robert Rosenstone and Robert Toplin are explored alongside lesser known but equally important contributions This book identifies a number of common themes and ideas that have been explored by historians for

decades the use of history on film and television as a way to teach the past the challenge of filmic and televisual history to more traditional historiography and an ongoing battle to find an appropriate historical way to engage with Film Studies and Theory Screened History offers an approach to exploring History Film and Television that allows room for future developments while connecting them to a rich and diverse body of past scholarship Combining a narrative of historical research on film and television over the past century with a reconceptualisation of the field as Screened History Reframing the Past is essential reading both for established scholars of History and Film Film History and other related disciplines and to students new to the field

Sick and Dirty Michael Koresky, 2025-06-03 A blazingly original history celebrating the persistence of queerness onscreen behind the camera and between the lines during the dark days of the Hollywood Production Code From the 1930s to the 1960s the Motion Picture Production Code severely restricted what Hollywood cinema could depict This included any inference of the lives of homosexuals In a landmark 1981 book gay activist Vito Russo famously condemned Hollywood's censorship regime lambasting many midcentury films as the bigoted products of a celluloid closet But there is more to these movies than meets the eye In this insightful wildly entertaining book cinema historian Michael Koresky finds new meaning in problematic classics of the Code era like Hitchcock's *Rope* Minnelli's *Tea and Sympathy* and bookending the period and anchoring Koresky's narrative William Wyler's two adaptations of *The Children's Hour* Lillian Hellman's provocative hit play about a pair of schoolteachers accused of lesbianism Lifting up the underappreciated queer filmmakers writers and actors of the era Koresky finds artists who are long overdue for reevaluation Through his brilliant inquiry *Sick and Dirty* reveals the bad seeds of queer cinema to be surprisingly even gleefully subversive reminding us in an age of book bans and gag laws that nothing makes queerness speak louder than its opponents bids to silence it **The Best American Crime Writing: 2003**

reading Best American Crime Writing has established itself as a much anticipated annual *Making Stereo Fit* Eric Dienstfrey, 2024-01-16 Surround sound is often mistaken as a relatively new phenomenon in cinemas one that emerged in the 1970s with the arrival of Dolby Making Stereo Fit shows how Hollywood studios have instead been implementing surround sound techniques for the past century and argues that their endurance owes primarily to the long standing economic tension between stereophonic and monophonic sound Throughout the book Eric Dienstfrey analyzes newly discovered archival materials as well as a myriad of stereo releases from *Hell's Angels* 1930 to *Get Out* 2017 to examine how Hollywood's dependence on single channel sound left filmmakers unable to fully realize the aesthetic potential of surround sound Though studios initially experimented with stereo's unique affordances Dienstfrey details how film sound designers eventually codified a conservative set of surround sound conventions that prevail today despite the arrival of more immersive technologies
