Hollywood's Canada The Americanization Of Our National Image:

Hollywood's Canada Pierre Berton, 1975 Between 1907 and 1975 Hollywood movie makers made 575 movies specifically set although not usually filmed in Canada That statistic will startle those Canadians who have been told that foreign audiences won't sit still for a film about their country As Pierre Berton points out in this explosive tragic and often funny book the opposite is true Movies about Canada have been making money in international markets for half a century But the Canada that has been shown to the world is very different from the real Canada and the Canadian image now firmly fixed in the minds of three generations of moviegoers is a caricature of the real thing If Canadians have no sense of their own identity it is partly because American movie makers have distorted and blurred that identity And if foreigners think of this country as a land of snow swept forests and mountains devoid of larger cities and peopled by happy go lucky French Canadians wicked half breeds wild trappers and loggers savage Indians and above all grim jawed Mounties that's because Hollywood has pictured us that way Berton who has examined the plot of almost every movie made about this country finds that the Hollywood image of Canada and its people have been consistent since the first one reel silent films were made in 1907 The prairies are rarely shown almost every movie is an outdoor film set in the wilderness the only city mentioned with any regularity is Montreal The Great Woods begin at the border and stretch on to the Arctic Circle The Canadian frontier is seen by Hollywood as an extension of the American frontier lawless and violent peopled by gunslingers and studded with gambling halls and saloons The Mountie is treated as an American frontier marshal in a red coat The Klondike and the Yukon Territory are totally confused with Alaska Our great historical adventures when they are dealt with at all the building of the Canadian Pacific for example and the Riel Rebellion are distorted to the point where they are unrecognizable Cecil B DeMille's production of North West Mounted Police was hailed by international critics including Canadians as the most authentic pictures ever made about the Mounties but as Berton shows in fascinating detail DeMille turned history topsy turvy and managed to give the impression that the Mounties themselves had okayed the film Berton's research which has taken him from London to Hollywood and which makes use of hitherto unpublished material from the files of the RCMP and the Public Archives of Canada reveals in detail the successful efforts of the Hollywood lobby to quash a quota system for films in post war Canada a system that might have given us a native born movie industry The book is studded with illuminating discoveries a plea from Rudolph Friml's office to Pierre Elliot Trudeau begging him not to destroy the beautiful legend of Rose Marie The author points out there are four legends all totally different an RCMP commissioner's wistful telegram to Hollywood Mounted police would appreciate being left alone the Yukon River steamboat sequence slipped into a movie about the Dionne Quintuplets the trials and tribulations of an ex Mountie acting as technical adviser in Hollywood These are some of the surprises in a book which is not only an exciting revelatory narrative of more than sixty years of exploitation but also a work of careful scholarship Publisher **Canadian Culture** Elspeth Cameron, 1997 The surest way to the hearts of a

Canadian audience is to inform them that their souls are to be identified with rock rapids wilderness and virgin but exploitable forest This critical statement no longer explains Canada s largely urban culture Multiculturalism feminism postmodernism and regionalism these and other vital movements jostle for expression in today s Canada Wherever there s a centre a new margin vies for attention Whenever a new voice catches the country s ear another appears to challenge it However styles form new ways of expression keep shaping themselves Nation without a narrative Yes But in the music literature painting history and popular culture of this country you can always find a soul National Images and United States-Canada Relations Stephen Brooks,2024-04-02 This book explores the psychological cultural dimension of the United States Canada relationship by analyzing how each country has viewed the other Drawing on a wide range of data including primary sources secondary literature and survey research the methodology is historical analytical seeking to explicate and understand how Americans and Canadians and their elites have viewed one another from the moment they were launched on separate trajectories why they developed and held such ideas and what consequences these images had for the bilateral relationship between the countries American and Canadian images of the other have deep roots and are in many respects recognizably the same today as they were many decades ago Moreover even when anchored to important realities of the other such images influence the perception and interpretation of events and actions taken by the other How Americans and Canadians have viewed each other the sources of these ideas the way they have been influenced by each country s domestic politics and place within the international system and the consequences for their bilateral relationship are among the questions examined Interdisciplinary in approach the book will appeal to scholars and students of political science international relations and history **Fur Nation** Chantal Nadeau,2005-07-05 Fur Nation traces the interwoven relationships between sexuality national identity and colonialism Chantal Nadeau shows how Canada a white settler colony bases its existence and its nationhood on a complex sexual economy based on women wrapped in fur Nadeau traces the centrality of fur through a series of intriguing case studies including Hollywood s take on the 330 year history of the Hudson Bay Company founded to exploit Canada s rich fur resources the life of a postwar fur fashion photographer a 1950s musical called Fur Lady the battle between Brigitte Bardot s anti fur activists and the fur industry Nadeau highlights the connection between fur ladies women wearing exploiting or promoting furs and the beaver symbol of Canada and nature s master builder She shows how in postcolonial Canada the nation is sexualised around female reproduction and fur which is both a crucial factor in economic development and a powerful symbol through which the nation itself is conceived and commodified Fur Nation demonstrates that for Canada fur really is the fabric of a nation *Canadian Content* Ryan Edwardson,2008-05-24 A nation is given shape in large part through the cultural activities of its builders Historically nationalists have turned to the arts and media to articulate and institute a sense of unique national identity This was certainly true of Canada in the twentieth century Canadian Content explores ways in which nationhood was defined and pursued

through cultural means in Canada throughout the last century As a framework for the study Ryan Edwardson distinguishes between three phases of Canadianization support for the arts and cultured mass media during the colony to nation transition the new nationalist empowerment of multi brow culture and the call for state intervention in the mid 1960s and 1970s and the cultural industrialism initiated by the federal government under Pierre Trudeau in 1968 Examining each phase in its turn Canadian Content looks at Canada as an ongoing postcolonial process of not one but a series of radically different nationhoods each with its own valued but tentative set of cultural criteria for orchestrating and implementing a Canadian national experience Considering the relationship between culture and national identity this study offers an idea of what it means to be Canadian and suggests just how adaptable problematic and ongoing the pursuit of nationhood can be

The Iconic North Joan Sangster, 2016-05-21 Recent archaeological discoveries in the polar region have reanimated stock images of the intrepid explorer who braves the elements to bring modernity to a frigid northern wasteland The Iconic North reveals that ideological assumptions economic priorities and a shift in government strategy in the postwar era all influenced how northern culture was represented in popular Canadian imagery Whether it was film television or women s autobiographies the primitive North was often portrayed as the mirror opposite to the modern South In crisp and elegant prose Joan Sangster redirects current debates about the geopolitical prospects of the North by addressing how women and gender relations have played a key role in the history of northern development Drawing on archival and cultural sources

Sangster shows how gender race and colonialism shape our understanding of northern peoples economies and government policy This work reveals how assumptions about both Indigenous and non Indigenous women shaped gender class and political relationships in the circumpolar north a region now commanding more of the world s attention
