Holocaust And The Liberal Imagination:

The Holocaust and the Liberal Imagination (on Order). Antony Robin Jeremy Kushner,1994 The Holocaust and the Liberal Imagination Tony Kushner,1987 The Holocaust Needs a Liberal Imagination Alexander Baron,1995*

Annihilation Mark Levene, 2013-12 Exploring the genocidal events of the period from 1912 to 1938 this title focuses particularly on the Balkans the Great War and the emergence of the Stalin and Hitler States and seeks to integrate them into a single coherent history What Are Jews For? Adam Sutcliffe, 2020-06-16 Introduction What are Jews for history and the purpose question Religion sovereignty Messianism Jews and political purpose Reason toleration emancipation Jews and philosophical purpose Teachers and traders Jews and social purpose Light unto the nations Jews and national purpose Normalization and its discontents Jews and cultural purpose Conclusion So what are Jews for *Pictures and the Past* Alexander Bigman, 2024-06-24 A fresh take on the group of artists known as the Pictures Generation reinterpreting their work as haunted by the history of fascism the threat of its return and the effects of its recurring representation in postwar American culture The artists of the Pictures Generation converging on New York City in the late 1970s indelibly changed the shape of American art Rebelling against abstraction they borrowed liberally from the aesthetics of mass media and sometimes the work of other artists It has long been thought that the group's main contribution was to upend received conceptions of authorial originality In Pictures and the Past however art critic and historian Alexander Bigman shows that there is more to this moment than just the advent of appropriation art He presents us with a bold new interpretation of the Pictures group s most significant work in particular its recurring evocations of fascist iconography In the wake of the original Pictures show curated by Douglas Crimp in 1977 artists such as Sarah Charlesworth Jack Goldstein Troy Brauntuch Robert Longo and Gretchen Bender raised pressing questions about what it means to perceive the world historically in a society saturated by images Bigman argues that their references to past cataclysms to the violence wrought by authoritarianism and totalitarianism represent not only a coded form of political commentary about the 1980s but also a piercing reflection on the nature of collective memory Throughout Bigman situates their work within a larger cultural context including parallel trends in music fashion cinema and literature Pictures and the Past probes the shifting relationships between art popular culture memory and politics in the 1970s and 80s examining how the specter of fascism loomed for artists then and the ways it still looms for us today Disputed Memory Tea Sindbæk Andersen, Barbara Törnguist-Plewa, 2016-06-20 The world wars genocides and extremist ideologies of the 20th century are remembered very differently across Central Eastern and Southeastern Europe resulting sometimes in fierce memory disputes This book investigates the complexity and contention of the layers of memory of the troubled 20th century in the region Written by an international group of scholars from a diversity of disciplines the chapters approach memory disputes in methodologically innovative ways studying representations and negotiations of disputed pasts in different media including monuments museum exhibitions individual and political discourse

and electronic social media Analyzing memory disputes in various local national and transnational contexts the chapters demonstrate the political power and social impact of painful and disputed memories The book brings new insights into current memory disputes in Central Eastern and Southeastern Europe It contributes to the understanding of processes of memory transmission and negotiation across borders and cultures in Europe emphasizing the interconnectedness of memory with emotions mediation and politics A Museum Studies Approach to Heritage Sheila Watson, Amy Jane Barnes, Katv Bunning, 2018-10-08 Heritage's revival as a respected academic subject has in part resulted from an increased awareness and understanding of indigenous rights and non Western philosophies and practices and a growing respect for the intangible Heritage has thus far focused on management tourism and the traditionally heritage minded disciplines such as archaeology geography and social and cultural theory Widening the scope of international heritage studies A Museum Studies Approach to Heritage explores heritage through new areas of knowledge including emotion and affect the politics of dissent migration and intercultural and participatory dimensions of heritage Drawing on a range of disciplines and the best from established sources the book includes writing not typically recognised as heritage but which nevertheless makes a valuable contribution to the debate about what heritage is what it can do and how it works and for whom Including heritage perspectives from beyond the professional sphere the book serves as a reminder that heritage is not just an academic concern but a deeply felt and keenly valued public and private practice This blending of traditional topics and emerging trends established theory and concepts from other disciplines offers readers international views of the past and future of this growing field A Museum Studies Approach to Heritage offers a wider more current and more inclusive overview of issues and practices in heritage and its intersection with museums As such the book will be essential reading for postgraduate students of heritage and museum studies It will also be of great interest to academics practitioners and anyone else who is interested in how we conceptualise and use the past Writing Jewish Ruth Gilbert, 2013-12-04 British Jewish writers are increasingly addressing challenging questions about what it means to be both British and Jewish in the twenty first century Writing Jewish provides a lively and accessible introduction to the key issues in contemporary British Jewish fiction memoirs and journalism and explores how Jewishness exists alongside a range of other different identities in Britain today By interrogating myths and stereotypes and looking at themes of remembering and forgetting belonging and alienation location and dislocation Ruth Gilbert examines how these writers identify the particularity of their difference while acknowledging that this difference is Colonialism Max Kaiser, 2022-10-29 This book takes a timely look at histories of radical Jewish movements their modes of Holocaust memorialisation and their relationships with broader anti colonial and anti racist struggles Its primary focus is Australia where Jewish antifascism was a major political and cultural force in Jewish communities in the 1940s and early 1950s This cultural and intellectual history of Jewish antifascism utilises a transnational lens to provide an exploration of a

Jewish antifascist ideology that took hold in the middle of the twentieth century across Jewish communities worldwide It argues that Jewish antifascism offered an alternate path for Jewish politics that was foreclosed by mutually reinforcing ideologies of settler colonialism both in Palestine and Australia Visualizing Atrocity Valerie Hartouni, 2012-08-20 Taking Hannah Arendt's account of the 1961 trial of Nazi official Adolf Eichmann as its point of departure this book reassesses the myths that shape our understanding of the Nazi genocide as well as totalitarianism s broader features These myths are tied to the atrocity imagery that emerged with the liberation of the concentration camps and played an evidentiary role in the post war trials of perpetrators At the 1945 Nuremberg Tribunal particular practices of looking were first established and later institutionalized through Eichmann's trial in Jerusalem as part of the fabric of historical fact These ways of seeing have come to constitute a visual rhetoric that drives contemporary mythmaking about how we know genocide and what is permitted to count as such In contrast Arendt's claims about the banality of evil work to disrupt this visual rhetoric The Jews are Coming Back David Bankier, 2005 In 14 papers delivered at or sent to a May 2001 conference in Jerusalem historians specializing in Jews in various European countries examine the views about the return or prospective return of the Jews to their countries of origin after World War II Among the countries are France the Netherlands Italy Poland and Hungary Places and names are **Final Solution** David Cesarani, 2016-11-08 This groundbreaking history of the Holocaust presents a brilliant synthesis and interpretation of the greatest crime of the modern era harrowing and extraordinary The Times UK David Cesarani s Final Solution is a magisterial work of history that chronicles the fate of Europe s Jews during and directly after World War II Based on decades of scholarship documentation newly available from the opening of Soviet archives declassification of Western intelligence service records as well as diaries and reports written in the camps Cesarani provides a sweeping reappraisal that challenges accepted explanations for the anti Jewish politics of Nazi Germany and the inevitability of the final solution The persecution of the Jews as Cesarani demonstrates was not always the Nazis central preoccupation nor was it inevitable Instead it unfolded erratically in German occupied countries often due to local initiatives Military failures created a crisis of resources that led to the starvation of the ghettos and intensified anti Jewish measures Cesarani also disputes the iconic role of railways and deportation trains and exposes the extent of sexual violence and abuse of Jewish women In bracingly vivid prose Final Solution captures the experience of a heroic people caught in the hell that was Hitler's Germany **Reporting Genocide** David Patrick, 2017-12-13 The Western world's responses to genocide have been slow unwieldly and sometimes unfit for purpose So argues David Patrick in this essential new contribution to the aid and intervention debate While the UK and US have historically been committed to the ideals of human rights freedom and equality their actual material reactions are more usually dictated by geopolitical noise pre conceived ideas of worth and the media attention spans of individual elected leaders Utilizing a wide ranging quantitative analysis of media reporting across the globe Patrick argues that an over reliance on the Holocaust as the framing device we use to try and come to terms with

such horrors can lead to slow responses misinterpretation and category errors in both Rwanda and Bosnia much energy was expended trying to ascertain whether these regions qualified for genocide status The Reporting of Genocide demonstrates how such tragedies are reduced to stereotypes in the media framed in terms of innocent victims and brutal oppressors which can over simplify the situation on the ground This in turn can lead to mixed and inadequate responses from governments Reporting on Genocide also seeks to address how responses to genocides across the globe can be improved and will be essential reading for policy makers and for scholars of genocide and the media Refugees in an Age of Genocide Katharine Knox, Tony Kushner, 2012-10-12 This is a study of the history of global refugee movements over the 20th century ranging from east European Jews fleeing Tsarist oppression at the turn of the century to asylum seekers from the former Zaire and Yugoslavia Recognizing that the problem of refugees is a universal one the authors emphasize the human element which should be at the forefront of both the study of refugees and responses to them The Myth of Rescue W.D. Rubinstein, 2002-01-22 It has long been argued that the Allies did little or nothing to rescue Europe's Jews Arguing that this has been consistently misinterpreted The Myth of Rescue states that few Jews who perished could have been saved by any action of the Allies In his new introduction to the paperback edition Willliam Rubinstein responds to the controversy caused by his challenging views and considers further the question of bombing Auschwitz which remains perhaps the most widely discussed alleged lost opportunity for saving Jews available to the Allies The memory of catastrophe Peter Gray, Kendrick Oliver, 2024-07-30 Investigates the dynamic relationship between experiences of profound social and cultural disruption and human memory Critical comparisons are made across a wide variety of catastrophic experiences and memories not just of war but also of massacre genocide rebellion famine partition shipwreck and fire The book is an accessible showcase for a wide range of methodological approaches to the study of memory including literary studies cultural studies participant observation and historical studies and uses a variety of oral visual and written sources Offers a diverse chronological and geographical range of catastrophic cases from seventeenth century England to the recent conflicts in the former Yugoslavia from Ireland to the Indian sub continent from Mexico to wartime Leningrad Well written and accessible a fascinating read Mirrors of Destruction Omer Bartov, 2000-08-24 Mirrors of Destruction examines the relationship between total war state organized genocide and the emergence of modern identity Here Omer Bartov demonstrates that in the twentieth century there have been intimate links between military conflict mass murder of civilian populations and the definition and categorization of groups and individuals These connections were most clearly manifested in the Holocaust as the Nazis attempted to exterminate European Jewry under cover of a brutal war and with the stated goal of creating a racially pure Aryan population and Germanic empire The Holocaust however can only be understood within the context of the century s predilection for applying massive and systematic methods of destruction to resolve conflicts over identity To provide the context for the Final Solution Bartov examines the changing relationships between Jews and non Jews in France

and Germany from the outbreak of World War I to the present Rather than presenting a comprehensive history or a narrative from a single perspective Bartov views the past century through four interrelated prisms He begins with an analysis of the glorification of war and violence from its modern birth in the trenches of World War I to its horrifying culmination in the presentation of genocide by the SS as a glorious undertaking He then examines the pacifist reaction in interwar France to show how it contributed to a climate of collaboration with dictatorship and mass murder The book goes on to argue that much of the discourse on identity throughout the century has had to do with identifying and eliminating society s elusive enemies or enemies from within Bartov concludes with an investigation of modern apocalyptic visions showing how they have both encouraged mass destructions and opened a way for the reconstruction of individual and collective identifies after a catastrophe Written with verve Mirrors of Destruction is rich in interpretations and theoretical tools and provides a new framework for understanding a central trait of modern history The Routledge History of Genocide Cathie Carmichael, Richard C. Maguire, 2015-05-01 The Routledge History of Genocide takes an interdisciplinary yet historically focused look at history from the Iron Age to the recent past to examine episodes of extreme violence that could be interpreted as genocidal Approaching the subject in a sensitive inclusive and respectful way each chapter is a newly commissioned piece covering a range of opinions and perspectives The topics discussed are broad in variety and include genocide and the end of the Ottoman Empire Stalin and the Soviet Union Iron Age warfare genocide and religion Japanese military brutality during the Second World War heritage and how we remember the past The volume is global in scope something of increasing importance in the study of genocide Presenting genocide as an extremely diverse phenomenon this book is a wide ranging and in depth view of the field that will be valuable for all those interested in the historical context of **Nazism as Fascism** Geoff Eley, 2013-05-29 Offering a dynamic and wide ranging examination of the key issues genocide at the heart of the study of German Fascism Nazism as Fascism brings together a selection of Geoff Eley's most important writings on Nazism and the Third Reich Featuring a wealth of revised updated and new material Nazism as Fascism analyses the historiography of the Third Reich and its main interpretive approaches Themes include Detailed reflection on the tenets and character of Nazi ideology and institutional practices Examination of the complicated processes that made Germans willing to think of themselves as Nazis Discussion of Nazism's presence in the everyday lives of the German People Consideration of the place of women under the Third Reich In addition this book also looks at the larger questions of the historical legacy of Fascist ideology and charts its influence and development from its origin in 1930 s Germany through to its intellectual and spatial influence on a modern society in crisis In Nazism as Fascism Geoff Eley engages with Germany s political past in order to evaluate the politics of the present day and to understand what happens when the basic principles of democracy and community are violated This book is essential reading not only for students of German history but for anyone with an interest in history and politics more generally
