Holocaust Studies Annual 1990 General Essays Holocaust Studies Annual:

The British Journal of Holocaust Education ,1992 Prague Territories Scott Spector,2000 This cultural history maps the territories carved out by German Jewish artists and intellectuals living in Prague at the dawn of the 20th century It explores the social cultural and ideological contexts in which Franz Kafka and his contemporaries flourished **Hegemony and the Holocaust** Ethan J. Hollander,2016-10-25 This book explains why more Jewish people survived in some German occupied countries compared to others during World War II Hollander demonstrates that collaborators sometimes played a surprising role in ensuring Jewish survival Where high ranking governing officials stayed in their countries and helped Nazi Germany they could often trade their loyal cooperation in military and economic affairs for inefficient or incomplete implementation of the Final Solution And while they sometimes did this because they had sincere moral objections to Nazi policy they also did so because deporting local Jews was politically unpopular because they regarded it as less important than winning the war or because deporting Jews meant that the collaborators gave up potentially profitable opportunities to exploit them This unique book has important implications for our understanding of state sponsored violence international hierarchy and genocide and it raises harrowing moral questions about the Holocaust and the nature of political evil **RQ** ,1990 *Holocaust Studies Annual 1990* Sanford Pinsker,Jack Fischel,1990 First Published in 1990 Routledge is an imprint of Taylor Francis an informa company *Jews in China* Irene Eber,2019-11-12 Irene Eber was one of the foremost authorities on Jews in China during the twentieth and twenty first centuries a field that in contrast to the study of the Jewish diaspora in Europe and the Americas has been critically neglected This volume gathers fourteen of Eber s most salient articles and essays on the exchanges between Jewish and Chinese cultures making available to students scholars and general readers a representative sample of the range and depth of her important work in the field of Jews in China Jews in China delineates the centuries long reciprocal dialogue between Jews Jewish culture and China all under the overarching theme of cultural translation The first section of the book sets forth a sweeping overview of the history of Jews in China beginning in the twelfth century and concluding with a detailed assessment of the two crucial years leading up to the Second World War The second section examines the translation of Chinese classics into Hebrew and the translation of the Hebrew Bible into Chinese The third and final section turns to modern literature bringing together eight essays that underscore the cultural reciprocity that takes place through acts of translation The centuries long relationship between Judaism and China is often overlooked in the light of the extensive discourse surrounding European and American Judaism With this volume Eber reminds us that we have much to learn from the intersections between Jewish identity and Chinese culture Lessons and Legacies Peter Hayes,Holocaust Educational Foundation,1991 *Lessons and Legacies II* focuses on matters unique to Holocaust education Consisting of selected papers delivered at the second Lessons and Legacies conference in 1992 the volume is organized in three sections Issues Resources and Applications *AB Bookman's Weekly* ,1997 **Days of**

Remembrance, April 26-May 3, 1992, 1992 *MLA International Bibliography of Books and Articles on the Modern Languages and Literatures*, 2006 *Essays in European History* Carolyn W. White, 1996 This volume continues a series of essays exploring broad topics in European history Included are studies on twentieth century topics in German Italian and Moroccan history Britain is represented by essays on the medico legal theory of rabies and comparative study of the ideas of John Thelwall and Edmund Burke Roy Willis on France s overseas territories Orest Ranum on the refinement and elaboration of the printed form in the eighteenth century James Leith on the historical evolution of a children s board and two studies on education all attest to a noteworthy French orientation in this volume **The Coors Connection** Russ Bellant, 1991 Journalist Russ Bellant examines the influential but little known role of the Coors beer family in American politics Through their philanthropic donations Joseph Coors and other family members have bankrolled a right wing agenda of union busting homophobia sexism racism and covert operations The Coors family has served as the cornerstone of the right wing movement known as the New Right The Coors Connection details the individuals organizations and causes supported by Coors philanthropy A picture emerges of a family s frighteningly narrow vision of the American dream and its willingness to support extremists who would undermine American democracy Russ Bellant is an investigative journalist whose work has appeared in the National Catholic Reporter the New York Times the Texas Observer and other publications In 1984 he contributed to an award winning NBC documentary on Lyndon LaRouche Mr Bellant was honored in 1989 for investigative reporting by the Catholic Press Association which said Tracking the historical roots of a group or movement is nothing short of a monumental task Bellant is obviously very much at home with investigative reporting Mr Bellant is also the author of *Old Nazis The New Right* and *The Republican Party* South End Press 1991 **Resources in Education**, 1998 **Index of Conference Proceedings** British Library. Document Supply Centre, 1999 Holocaust Literature: Agosin to Lentin S. Books In Print 2004-2005 Ed Bowker Staff, Staff Bowker, Ed, 2004 Memorialising the Holocaust in Human Rights Museums Katrin Antweiler, 2023-04-27 This book provides an analysis of the forms and functions of Holocaust memorialisation in human rights museums by asking about the impact of global memory politics on how we imagine the present and the future It compares three human rights museums and their respective emplotment of the Holocaust and seeks to illuminate how in this specific setting memory politics simultaneously function as future politics because they delineate a normative ideal of the citizen subject its set of values and aspirations for the future that of the historically aware human

rights advocate More than an ethical practice engaging with the Holocaust is used as a means of asserting one's standing on the right side of history the memorialisation of the Holocaust has thus become a means of governmentality a way of governing contemporary citizen subjects The linking of public memory of the Holocaust with the human rights project is often presented as highly beneficial for all members of what is often called the global community Yet this book argues that this specific constellation of memory also has the ability to function as an exercise of power and thus runs the risk of reinforcing structural oppression With its novel theoretical approach this book not only contributes to Memory Studies but also connects Holocaust memory to Studies of Global Governmentality and the debate on decolonising memory politics
