Holocaust Survivors Psychological Social Sequelae:

Medical and Psychological Effects of Concentration Camps on Holocaust Survivors Robert Krell, 2019-01-22 This unique research bibliography is offered in honor of Leo Eitinger of Oslo Norway Dr Eitinger fled to Norway in 1939 at the start of the World War II He was caught and deported to Auschwitz where among others he operated on Elie Wiesel who has written the foreword to this volume After the war Eitinger became a pioneering researcher on a subject from which many shied away His contributions to understanding of the experience of massive psychological trauma have inspired others to do similar work His many books and papers are listed in this special volume of the acclaimed bibliographic series edited by Israel W Charny of The Institute on the Holocaust and Genocide in Jerusalem In order to acquaint users of this bibliography with the topic two introductory articles are offered The first is titled Survivors and Their Families and deals with the impact of the Holocaust on individuals The second Psychiatry and the Holocaust examines the general impact of the Holocaust on the field of psychiatry Robert Krell writes that in general the psychiatric literature has reflected critically on the survivor due to preconceived notions held by many mental health professionals For many years the exploration of victims psychopathology obscured the remarkable adaptation made by some survivors The problems experienced by survivors and possible approaches to treatment were entirely absent from mainstream psychiatric textbooks such as the Comprehensive Textbook of Psychiatry throughout the 1960s and 1970s Fifty years of observations about survivors of the concentration camps and other survivors of the Holocaust in hiding as partisans in slave labor camps has provided a new body of medical and psychiatric literature This comprehensive bibliography contains a plethora of references to significant pieces of literature regarding the Holocaust and its effects on survivors It will be of inestimable value to physicians psychiatrists psychologists and social workers along with historians sociologists and Holocaust studies specialists *The Psychological and Medical Effects of Concentration Camps and Related Persecutions on Survivors* Leo Eitinger, 2011-11-01 Research into various aspects of the Holocaust has escalated in recent years just as the ranks of survivor subjects are rapidly diminishing All documents contributing in any way to the knowledge of psychological and medical consequences have been included in this bibliography Materials are drawn from psychological psychiatric and social work literature and from personal accounts In addition to printed books and articles references are made to manuscripts which are housed at one of the three centres where major libraries of this kind exist The bibliography contains titles in English French Polish Dutch and German as well as a number of other languages The major topics are 1 Direct observations of and direct reactions to the concentration camp during imprisonment and immediately after liberation 2 Compensation and rehabilitation 3 Physical and psychological results 4 Children as survivors 5 The second generation **Holocaust Survivors** Wilfred Quaytman, 1980 **Rethinking Jewish Faith** Steven L. Jacobs, 2012-02-01 This book addresses the faith of a member of the Second Generation the offspring of the original survivors of the Shoah It is a re examination of those categories of faith central to the Jewish Religious Experience in

light of the Shoah God Covenant Prayer Halakhah and Mitzvot Life Cycle Festival Cycle Israel and Zionism and Christianity from the perspective of a child of a survivor *Holocaust survivors: psychological and social sequelae. [Psychological effects, psychotherapy issues, psychohistorical themes]* Wilfred ed Quaytman,1980 **Holocaust survivors** ,1980

Holocaust Survivors and Immigrants Boaz Kahana,Zev Harel,Eva Kahana,2007-03-06 Based on a unique research study this volume examines the later life development of Holocaust survivors from Israel and the US Through systematic interviews the authors noted researchers and clinicians collected data about the lives of these survivors and how they compared to peers who did not share this experience The orientation of the book synthesizes several conceptual approaches gerontological and life span development stress research and traumatology and also reflects the varied disciplines of the authors spanning psychology social work and sociology The result is a multi faceted view of their subject with an understanding of the individual society and the interaction of the two tempered by the authors own Holocaust experiences Chapters cover a range of areas including stress and coping of these survivors reviews of their health and mental health an examination of their social integration as well as a review of the multiple predictors of psychological well being and adaptation to aging This book will be of interest to psychologists social workers sociologists psychiatrists and all those who study both trauma and aging *The Holocaust and History* United States Holocaust Memorial Museum,2002-07-02 The Holocaust and History examines the various disputes surrounding the Holocaust examining why it should have come about how different sets of people reacted to it and what lessons should be learned for the future **Healing Crisis and Trauma with Mind, Body, and Spirit** Barbara Rubin Wainrib,2006-03-17 Designated a Doody s Core Title We live in a changed world a world where the enemy is no longer in uniform on the other side of a trench There is no longer an identified war zone and the enemy may be the innocent looking person standing next to us Clear boundaries and an assumption of safety no longer exist Learning new skills to address the injuries incurred by sudden trauma and unpredictable lives is essential This book is written for those persons in the helping professions It is also written for those who have a sufficient understanding of psychology and a sufficient awareness of our current world and want to gain some knowledge about being helpful This book offers the educator and the practitioner training methods exercises and intervention techniques applicable to the gamut of experiences that we currently encounter It also will introduce readers to newer concepts and their applications such as role play spirituality the role of animals in healing and the concept of forgiveness Throughout the book whether it is in those who represent the highly resilient or those who continue to struggle a strengths perspective is emphasized Finally this book describes the Phoenix Phenomenon a concept Wainrib developed during the course of her teaching and practice which articulates and illustrates an inherent ability to use resilience in the process of converting pain into growth The Mental Health Consequences of Torture Ellen Gerrity, Terence M. Keane,Farris Tuma,2012-12-06 In 1997 the National Institute of Mental Health assembled a working group of international experts to address the mental health consequences of torture and

related violence and trauma report on the status of scientific knowledge and include research recommendations with implications for treatment services and policy development This book dedicated to those who experience the horrors of torture and those who work to end it is based on that report **Post-Traumatic Stress Disorder** Charles B.

up in the 1950s when there existed the general belief that the Cold War was the greatest threat to the world order and a frightening possibility It was difficult to believe then that it could get worse but the same threat of violence is now a daily occurrence around the globe People are being shot slaughtered maimed and disappear for a multitude of reasons none having any connection most of the time with the victims The scale of loss when these tragedies occur is devastating leaving the public as well as policy makers and legislators scrambling for solutions clarification and understanding of how we have become a society where violence is so rampant so frequent and so senseless This book includes contributions by leading experts on violence and its ramifications who review the devastation reasons and consequences of violence which is senseless cruel and aims to hurt and destroy anyone in its path This book was originally published as a special issue of The Journal of Psychology **The Cumulative Book Index** , 1981 A world list of books in the English language Social Trauma – An

Interdisciplinary Textbook Andreas Hamburger, Camellia Hancheva, Vamik D. Volkan, 2020-11-23 This book explores the intersection of clinical and social aspects of traumatic experiences in postdictatorial and post war societies forced migration and other circumstances of collective violence Contributors outline conceptual approaches treatment methods and research strategies for understanding social traumatizations in a wider conceptual frame that includes both clinical psychology and psychiatry Accrued from a seven year interdisciplinary and international dialogue the book presents multiple scholarly and practical views from clinical psychology and psychiatry to social and cultural theory developmental psychology memory studies law research methodology ethics and education Among the topics discussed Theory of social trauma Psychoanalytic and psychotherapeutic approaches to social trauma Memory studies Developmental psychology of social trauma Legal and ethical aspects Specific methodology and practice in social trauma research Social Trauma An International Textbook fills a critical gap between clinical and social theories of trauma offering a basis for university teaching as well as an overview for all who are involved in the modern issues of victims of social violence It will be a useful reference for students teachers and

researchers in psychology medicine education and political science as well as for therapists and mental health practitioners dealing with survivors of collective violence persecution torture and forced migration

Human Adaptation to Extreme Stress John P. Wilson,Zev Harel,Boaz Kahana,2013-11-11 This book is one additional indication that a new field of study is emerging within the social sciences if it has not emerged already Here is a sampling of the fruit of a field whose roots can be traced to the earliest medical writings in Kahun Papyrus in 1900 B C In this document according to Ilza Veith the earliest medical scholars described what was later identified as hysteria This description was long before the 1870s and 1880s when Char cot speculated on the etiology of hysteria and well before the first use of the term traumatic neurosis at the turn of this Century Traumatic stress studies is the investigation of the immediate and long term psychosocial consequences of highly stressful events and the factors that affect those consequences This definition includes three primary elements event consequences and causal factors affecting the perception of both This collection of papers addresses all three elements and collectively contributes to our understanding and appreciation of the struggles of those who have endured so much often with little recognition of their experiences

Pandemic Providers Charles R. Figley,Lenore E.A. Walker,Ilene A. Serlin,2023-06-08 Emanating from a working group of the American Psychological Association this comprehensive volume provides a blueprint for pandemic preparedness for health and mental health professionals It reviews the actual experiences faced by practitioners during the current Covid crisis and provides historical context of past health crises such as the 1918 flu epidemic Lessons learned from previous health disasters are utilized to provide guidelines and best practices for managing large scale health crises The goal of this book is to offer the tools for health providers to mobilize collaborate and provide effective and compassionate services Relevant to psychologists psychiatrists nurses social workers and others this volume is an invaluable resource for the present and for the inevitable pandemics to come
