

Data Governance Strategy

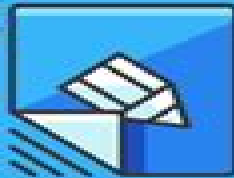

Data governance extends to physical storage of the data to policies on how data is moved and processed to serve the end users.

Increased sharing of company data necessitates companies to develop solid framework of regulations.

Data governance involves setting up procedures and regulations to enable the smooth sharing, managing, and availability of data.

When you have data governance procedures you experience faster decision making processes.

Governance will encompass data security, retrieval, synchronization, and ensuring the accuracy of the data.

The strategy defines how data will be used efficiently in an organization. In this regards, the company will set up processes and structures to clean, store and share this data.
