

# Data Governance Strategy

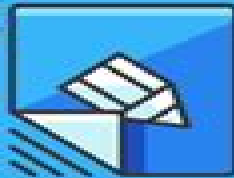

*Data governance extends to physical storage of the data to policies on how data is moved and processed to serve the end users.*

*Increased sharing of company data necessitates companies to develop solid framework of regulations.*

*Data governance involves setting up procedures and regulations to enable the smooth sharing, managing, and availability of data.*

*When you have data governance procedures you experience faster decision making processes.*

*Governance will encompass data security, retrieval, synchronization, and ensuring the accuracy of the data.*

*The strategy defines how data will be used efficiently in an organization. In this regards, the company will set up processes and structures to clean, store and share this data.*
