Governance And Resistance In World Politics

R. Bleiker

Governance And Resistance In World Politics:

Governance and Resistance in World Politics David Armstrong, James David Armstrong, Theo Farrell, Bice Maiguashca, 2003 The emergence of global governance challenges conventional interpretations of world politics regarding conflicts of interests between sovereign states under conditions of anarchy At the same time the new phenomena of anti globalization demonstrations transnational social movements and an emergent global civil society point to important developments in international relations Leading scholars reflect on the usefulness of thinking about these processes as a dichotomy between the politics of governance and the politics of resistance and consider its application to international relations

Coping and Conformity in World Politics Hugh C. Dyer, 2009-12-16 This book introduces the conceptual frameworks of coping and conformity to provide a new analysis of the ethical and political demands of international life The book also aims to address wider issues of freedom and necessity individualism and communitarianism and cosmopolitanism agency and structure and the legitimacy of governance and institutions

Informal Governance in World Politics Kenneth W. Abbott, Thomas J. Biersteker, 2024-05-30 Characterizes the three distinct types of informal governance and provides a normative assessment of them

The Routledge Handbook to Global Political Economy Ernesto Vivares, 2020-04-16 The Routledge Handbook to Global Political Economy provides a comprehensive guide to how Global Political Economy GPE is conceptualized and researched around the world Including contributions that range from traditional International Political Economy IPE to GPE approaches the Handbook gathers the investigations varying perspectives and innovative research of more than sixty scholars from all over the world Providing undergraduates postgraduates teachers and researchers with a complete set of traditional contending and regional perspectives the book explores current issues conceptual tools key research debates and different methodological approaches taken Structured in five parts methodologically correlated the book presents GPE as a field of global regional and national research historical waves and diverse ontological axes major theoretical perspectives beyond traditional perspectives regional inquiries research arenas Carefully selected contributions from both established and upcoming scholars ensure that this is an eclectic pluralist and multidisciplinary work and an essential resource for all those with an interest in this complex and rapidly evolving field of study

Critical Imaginations in International Relations Aoileann Ní Mhurchú, Reiko Shindo, 2016-01-29 This exciting new text brings together in one volume an overview of the many reflections on how we might address the problems and limitations of a state centred approach in the discipline of International Relations IR The book is structured into chapters on key concepts with each providing an introduction to the concept for those new to the field of critical politics including undergraduate and postgraduate students as well as drawing connections between concepts and thinkers that will be provocative and illuminating for more established researchers in the field They give an overview of core ideas associated with the concept the critical potential of the concept and key thinkers linked to the concept seeking to address the following questions How has

the concept traditionally been understood How has the concept come to be understood in critical thinking How is the concept used in interrogating the limits of state centrism What different possibilities for engaging with international relations have been envisioned through the concept Why are such possibilities for alternative thinking about international relations important What are some key articles and volumes related to the concept which readers can go for further research Drawing together some of the key thinkers in the field of critical International Relations and including both established and emerging academics located in Asia Europe Latin America and North America this book is a key resource for students and scholars alike

Rule in International Politics Christopher Daase,Nicole Deitelhoff,Antonia Witt,2023-06-29 There is hardly any aspect of social political and economic life today that is not also governed internationally Drawing on debates around hierarchy hegemony and authority in international politics this volume takes the study of the international beyond anarchy a step further by establishing the concept of rule as the defining feature of order in the international realm The contributors argue that the manifold conceptual approaches to sub and superordination in the international should be understood as rich conceptualizations of one concept rule Rule allows constellations of sub and superordination in the international to be seen as multiplex systemic and normatively ambiguous phenomena that need to be studied in the context of their interplay and consequences This volume draws on a variety of conceptualizations of rule exploring in particular the practices of rule as well as the relational and dynamic characteristics of rule in international politics *Aesthetics and World Politics* R.

Bleiker,2009-08-28 This book presents one of the first systematic assessments of aesthetic insights into world politics It examines the nature of aesthetic approaches and outlines how they differ from traditional analysis of politics The book explores the potential and limits of aesthetics through a series of case studies on language and poetics [Heterarchy in World Politics](#) Philip G. Cerny,2022-12-30 Heterarchy in World Politics challenges the fundamental framing of international relations and world politics IR theory has always been dominated by the presumption that world politics is at its core a system of states However this has always been problematic challengeable time bound and increasingly anachronistic In the 21st century world politics is becoming increasingly multi nodal and characterized by heterarchy the coexistence and conflict between differently structured micro and meso quasi hierarchies that compete and overlap not only across borders but also across economic financial sectors and social groupings Thinking about international order in terms of heterarchy is a paradigm shift away from the mainstream competing paradigms of realism liberalism and constructivism This book explores how since the mid 20th century the dialectic of globalization and fragmentation has caught states and the interstate system in the complex evolutionary process toward heterarchy These heterarchical institutions and processes are characterized by increasing autonomy and special interest capture The process of heterarchy empowers strategically situated agents especially agents with substantial autonomous resources and in particular economic resources in multi nodal competing institutions with overlapping jurisdictions The result is the decreasing capacity of macro states to control both domestic and

transnational political economic processes In this book the authors demonstrate that this is not a simple breakdown of states and the states system it is in fact the early stages of a structural evolution of world politics This book will interest students scholars and researchers of international relations theory It will also have significant appeal in the fields of world politics security studies war studies peace studies global governance studies political science political economy political power studies and the social sciences more generally

The 2017 Nuclear Ban Treaty Joseph A. Camilleri, Michael Hamel-Green, Fumihiko Yoshida, 2020-05-21 Rising concern over the increasing threat of nuclear war impelled the 2017 United Nations UN negotiations and adoption by 122 UN member states of a Treaty on the Prohibition of Nuclear Weapons The Treaty seeks to ban nuclear weapons globally in the same way chemical and biological weapons have already been prohibited This book provides the first in depth comprehensive analysis of the implications and possibilities of the new treaty drawing on the insights of international relations international laws and disarmament experts and specialists from Europe America the Asia Pacific and the UN In a context where existing nuclear weapon states have so far declined to be party to the new treaty the book examines not only its emergence and significance but also the prospects and possibilities for its implementation the challenges associated with verifying the new agreement the role of both civil society and governments and the treaty's wider implications in addressing regional and global nuclear threats This book was originally published as a special issue of Global Change Peace Security but additionally includes the special section articles on the treaty in the Journal for Peace and Nuclear Disarmament

The Globalization of World Politics John Baylis, Steve Smith, Patricia Owens, 2014 Working from a unique non U S perspective this market leading text provides a coherent accessible and engaging introduction to the globalization of world politics Now in its sixth edition The Globalization of World Politics has been fully revised and updated in light of recent developments in world politics FEATURES Presents contributions from an impressive line up of international experts each of whom provides accessible but stimulating insights into history theory structures processes and other key issues in the field Offers a visually appealing full color interior Provides a strong pedagogical program that includes numerous boxes figures tables maps questions lively examples and case studies

Non-Governmental Organizations in World Politics Peter Willetts, 2010-12-15 Non governmental organizations NGOs from Amnesty International and Oxfam to Greenpeace and Save the Children are now key players in global politics This accessible and informative textbook provides a comprehensive overview of the significant role and increasing participation of NGOs in world politics Peter Willetts examines the variety of different NGOs their structure membership and activities and their complex relationship with social movements and civil society He makes us aware that there are many more NGOs exercising influence in the United Nations system than the few famous ones Conventional thinking is challenged in a radical manner on four questions the extent of the engagement of NGOs in global policy making the status of NGOs within international law the role of NGOs as crucial pioneers in the creation of the Internet and the need to integrate NGOs

within mainstream international relations theory This is the definitive guide to this crucial area within international politics and should be required reading for students NGO activists and policy makers

Evolutionary Interpretations of World Politics William R. Thompson, 2016-05-06 The field of international relations is often stagnated in realism and liberalism Groundbreaking and guaranteed to stir debate this work will move the field of international relations beyond its current and often inadequate assumptions The contributors describe how states ideologies and other areas of analysis evolve conquer others or disappear entirely Change and the fluid nature of history though so clearly a part of historical reality are not so deeply embedded in other paradigms as they are in the variation and selection model of evolutionary international relations Some contributors lay out the various controversies inherent to the new theory while others apply the paradigm to specific problems in IR theory Regardless of the approach the presentation of this entirely new perspective and method succeeds in forming a new paradigm of international relations Contributors include William R Thompson George Modelski Vincent S E Falger David P Rapkin Jennifer Sterling Folker Hendrik Spruyt Stewart Patrick Paul Hensel Karen Rasler Craig N Murphy Jeffrey A Hart Sangbae and Brian Pollins

The New Global Politics Harry E. Vanden, Peter N. Funke, Gary Prevost, 2017-03-16 Over the past decade there has been an unprecedented mobilization of street protests worldwide from the demonstrations that helped bring progressive governments to power in Latin America to the Arab Spring to Occupy movements in the United States and Europe to democracy protests in China This edited volume investigates the current status nature and dynamics of the new politics that characterizes social movements from around the world that are part of this revolutionary wave Spanning case studies from Latin America North and South Africa the Middle East Asia Europe and North America this volume examines the varied manifestations of the current cycle of protest which emerged from the Global South and spread to the North and highlights their interconnections the globalized nature of these social movements Analytically converging around Sidney Tarrow's emphasis on protest cycles political opportunity structures and identity the individual chapters investigate processes such as global framing internationalization diffusion scale shifts externalizations and transnational coalition building to provide an analytic cartography of the current state of social movements as they are simultaneously globalizing while still being embedded in their respective localities Looking at new ways of thinking and new forms of challenging power this comprehensive volume will be of great interest to graduates and scholars in the fields of globalization social movements and international politics

An Introduction to International Relations Richard Devetak, Jim George, Sarah Percy, 2017-09-11 An Introduction to International Relations is a comprehensive introduction to the history theories developments and debates that shape the dynamic discipline of international relations and contemporary world politics Bringing together an expert author team comprising leading academics from Australia and around the world it allows readers to explore the discipline from both Australian and global perspectives Known for its clear easy to read style and relevant real world examples the text has been fully updated and revised to reflect current research and the changing

global political climate This edition features extensive new material on international history from World War I to World War II international law the globalisation of international society and terrorism A companion website for instructors offers additional case studies critical thinking questions and links to relevant video and web materials that bring international relations theory to life **The Concertation Impulse in World Politics** Andrew F. Cooper, 2023-11-30 This book unravels the centrality of contestation over international institutions under the shadow of crisis Breaking with the widely accepted image in the mainstream US centric literature of an advance of global governance supported by pillars of institutionalized formality Andrew Cooper points to the retention of a habitual impulse towards concertation related to informal institutionalism Rather than endorsing the view that world politics is moving inexorably towards a multilateral rules based order he places the onus on the resilience of a hierarchical self selected concert model that combines a stigmatized legacy with the ability to reproduce in an array of associational formats Relying for conceptual guidance on the recovery of a valuable component in the intellectual contribution of Hedley Bull a compelling case is made that concertation represents a fundamental institution as a peer competitor to multilateralism In effect the debate over institutional design is recast away from an emphasis on utilitarian maximization towards a wider set of cardinal and highly contested questions the nature of rules at the global level the salience of institutional clubs and the meaning and impact of in equality and cooperation coordination among states across the incumbent West non incumbent Global South divide **Trends and Transformations in World Politics**

Rahman Dag, Özgür Tüfekçi, 2022-05-05 We are witnessing turbulent times which inspire both anxiety and hope Many global trends are sweeping across a transforming world To make these movements and changes more understandable Trends and Transformations in World Politics introduces the reader to the study of world politics in a period of rapid readjustment This book also focuses on world historical transformations as a general phenomenon showing how the twenty first century change in world politics fits into broader patterns of macro historical change To do that the perspective of major international relations theories is utilized and a discussion of transformation is grounded within a conceptual framework This book will strengthen the reader's understanding of the trends and transformations in world politics

The Oxford Handbook of Peaceful Change in International Relations T. V. Paul, Deborah Welch Larson, Harold A. Trinkunas, Anders Wivel, Ralf Emmers, 2021 Abstract With the rapid rise of China and the relative decline of the United States the topic of power transition conflicts is back in popular and scholarly attention The discipline of International Relations offers much on why violent power transition conflicts occur yet very few substantive treatments exist on why and how peaceful changes happen in world politics This Handbook is the first comprehensive treatment of the subject of peaceful change in International Relations It contains some 41 chapters all written by scholars from different theoretical and conceptual backgrounds examining the multifaceted dimensions of this subject In the first part key conceptual and definitional clarifications are offered and in the second part papers address the historical origins of peaceful change as an International Relations subject matter during the Inter

War Cold War and Post Cold War eras In the third part each of the IR theoretical traditions and paradigms in particular Realism liberalism constructivism and critical perspectives and their distinct views on peaceful change are analyzed In the fourth part papers tackle the key material ideational and social sources of change In the fifth part the papers explore selected great and middle powers and their foreign policy contributions to peaceful change realizing that many of these states have violent past or tend not to pursue peaceful policies consistently In part six the contributors evaluate the peaceful change that occurred in the world s key regions In the final part the editors address prospective research agenda and trajectories on this important subject matter Keywords Peaceful Change War Security International Relations Theory Sources of Change

Systemic Theory Realism Liberalism Constructivism Critical Theories **Global Civil Society and Transversal Hegemony**
Karen M. Buckley,2013-05-29 There has been clear recognition of tendencies towards uncritically celebrating resistance and the need for critical appraisal within the literature on globalization and contestation This book provides a conceptual history of global civil society and a critical examination of the politics of resistance in the global political economy It uses a dialectical method of analysis to illustrate the conceptual stasis of mainstream approaches to questions of globalization and contestation while demonstrating the potential of a Gramscian approach to reconstitute hegemony as a key analytical and explanatory tool Buckley offers insight to the movements of transversal hegemony and existent and anticipated modes of social relation through the case studies of the World Social Forum and the World People s Conference on Climate Change Offering a more comprehensive understanding of change in the global political economy this book will be of interest to students and scholars of international political economy globalization global civil society sociology and the politics resistance

Globalization and Social Change Johannes Dragsbaek Schmidt,Jacques Hersh,2003-10-04 An innovative and forward looking volume which challenges conventional thinking regarding the inevitability of globalisation Essential reading for those interested in the development of and the potential alternatives to globalisation **The Transformation of Governance in Rural China** An Chen,2015 Explores the economic social and financial changes that have transformed China s rural governance over the past twenty years
