**United States. Bureau of the Budget**

## **Governing Germany:**

Governance in Contemporary Germany Simon Green, William E. Paterson, 2005-06-02 Throughout the 1970s and 1980s West Germany was considered to be one of the world's most successful economic and political systems. In his seminal 1987 analysis of West Germany's semisovereign system of governance, Peter Katzenstein attributed this success to a combination of a fragmented polity, consensus politics, and incremental policy changes. However, unification in 1990 has both changed Germany's institutional configuration and created economic and social challenges on a huge scale. This volume therefore asks whether semisovereignty still exists in contemporary Germany and crucially whether it remains an asset in terms of addressing these challenges. By shadowing and building on the original study, an eminent team of British, German, and American scholars analyses institutional changes and the resulting policy developments in key sectors, with Peter Katzenstein himself providing the conclusion. Together, the chapters provide a landmark assessment of the outcomes produced by one of the world's most important countries.

**Local Government and Governance in Germany** Hellmut Wollmann, 2024-09-30 The book aims at outlining key political, functional, administrative, and financial features of Germany's local government system and at placing them in a European comparative perspective. In pursuing an institutionalist approach, it focuses on discussing whether, how, and why the position and activities of local government in the intergovernmental, multi-level setting have changed vis-à-vis multiple challenges and crises. Among the latter tasks, such as coping with the energy crisis, the influx of asylum seekers and refugees, the digitization of local administration, and the Covid-19 pandemic loom large. Ranking among the functionally and politically strongest among European countries, Germany's local government plays an important role in the German federal system and beyond in the European Union. Over the years, it has proved a remarkable problem-solving and innovative capacity. Hence, the German case may attract the attention of a European and international audience interested in local government and governance and practices.

*Germany's Civilian Power Diplomacy* C. Arora, 2006-08-07 This book assesses the diplomatic path of influence taken by German decision makers during the early nineties in pursuit of their cautiously articulated interest in and commitment to the eastward enlargement of NATO.

**Germany's Dual Constitution** Florian Meinel, 2021-07-15 This book offers a compelling and persuasive framework for understanding the German constitutional system. It argues that it can only be fully understood as a dual structure combining two layers with little in common. The first layer is the basic administrative institutional structure comprised of federal institutions. The second layer is that of parliamentary democracy. It is the interplay between the two as mediated by the chancellery, the major political parties, and the Federal Constitutional Court which lies at the heart of the German constitutional arrangement. This innovative hybrid perspective allows for a better understanding of the current challenges of parliamentary government and its potential long-term development. An updated translation of its impactful German edition, this provides one of the most brilliant introductions to governmental systems of one of the world's most influential states.

Consolidated List of

Government Publications Great Britain. Her Majesty's Stationery Office,1950      **The Department of State Bulletin** ,1960  
The official monthly record of United States foreign policy      Governing Germany William Paterson,David Southern,1991-09-02 Governing Germany d offers an account of the German political system and its institutions within the context of its volatile history providing a detailed consideration of the constitutional executive and legislative dimensions of politics in Germany and taking particular account of the federal nature of the German system with its tension between centralization and decentralization The authors offer a timely view of Germany s role within the EC and NATO at a time of great change and uncertainty in the international arena suggesting that economic success is the driving force of the political system while foreign policy remains the most serious problem facing the state      The European Dimension of Germany's Energy Transition Erik Gawel,Sebastian Strunz,Paul Lehmann,Alexandra Purkus,2019-02-07 This book addresses the interactions between Germany s energy transition and the EU s energy policy framework It seeks to analyze the manifold connections between the prospects of the proclaimed Energy Union and the future of Germany s energy transition and identifies relevant lessons for the transformation at the EU level that can be learned from the case of Germany as a first mover of transforming energy systems towards renewables The various repercussions political economic and systemic from the national transition are explored within the EU context as it responds to the German transition taking into account both existing frictions and potential synergies between predominantly national sustainability policies and the EU s push towards harmonized policies within a common market The book s overall aim is to identify the most critical issues in order to avoid pitfalls and capitalize on opportunities      **OECD Public Governance Reviews Public Procurement in Germany Strategic Dimensions for Well-being and Growth** OECD,2019-08-26 As the largest economy in Europe Germany has a massive public procurement market accounting for around 15% of GDP EUR 500 billion per year and affecting many areas of the economy and society      **Treaties and International Agreements Registered Or Filed and Recorded with the Secretariat of the United Nations** United Nations Staff,2003 Treaties and International Agreements Registered or Filed and Recorded with the Secretariat of the United Nations      The Budget of the United States Government United States. Bureau of the Budget,1953      Congressional Record United States. Congress,1961      **The Budget of the United States Government for the Fiscal Year Ending June 30 [1924]-** United States. Bureau of the Budget,1952      **Germany's EU Policy on Asylum and Defence** G. Hellmann,2006-05-26 Integrating insights from foreign policy analysis integration theory and social theory and providing an in depth analysis of both refugee and security policy the book develops an innovative framework for analysis that is capable of accounting for an incremental de Europeanization in Germany s EU policy  
*Corporate Governance* Kevin Keasey,Steve Thompson,Michael Wright,2005-05-05 The decade since the publication of the Cadbury Report in1992 has seen growing interest in corporate governance This growth has recently become an explosion with major corporate scandals such as WorldCom and Enron in the US the international diffusion of corporate governance

codes and wider interest in researching corporate governance in different institutional contexts and through different subject lenses In view of these developments this book will be a rigorous update and development of the editor s earlier work Corporate Governance Economic Management and Financial Issues Each chapter written by an expert in the subject offers a high level review of the topic embracing material from financial accounting strategy and economic perspectives

Government Leaders, Military Rulers and Political Activists David W. Del Testa, 2014-01-27 In each volume an introductory essay outlines of history of the disciplines under discussion and describes how changes and innovations in these disciplines have affected our lives The biographies that follow are organized in an A Z format each biography is divided into a life section describing the individual s life and influences and a legacy section summarizing the impact of that individual s work throughout history These biographies cover a diverse group of men and women from around the globe and throughout history Franklin Delano Roosevelt Mao Tse tung and Genghis Khan are among the 200 well known historical figures included in this volume Examples of other lesser known yet important individuals covered in this work are Gustavas Adolphus Swedish empire creator Hatshepsut queen of ancient Egyptian dynasty and Jean Jaur s French socialist leader and pacifist Each synopsis provides information on each individual s enduring impact on the common understanding of fundamental themes of human existence

A Fair Deal on Talent - Fostering Just Migration Governance Bertelsmann Stiftung, 2015-05-12 If well managed migration generates benefits for migrants their countries of origin and the countries they settle in For migrants it can help them expand their skill sets and improve their standard of living For destination countries it can alleviate demographic pressures and foster cultural diversity For origin countries it can bring benefits associated with remittances and knowledge transfers However in reality these benefits are rarely achieved as migration policy failures frequently lead to suboptimal or even negative outcomes Realizing the full potential of migration therefore demands we foster a paradigm shift toward the fair management of migration Fair migration is driven by the desire to achieve a triple win for migrants destination countries and origin countries In addition to outlining the key challenges and opportunities associated with fair migration this volume examines the good practices of a variety of countries and institutions which highlight aspects of fair migration The volume concludes with policy recommendations for effective and fair migration policymaking at the national and international levels As a conceptual and empirical contribution to both national and international debates on managing migration this volume aims to enrich discussions among policymakers business leaders civil society actors and scholars alike
