English regions appeared to have been killed off by the massive no vote in the referendum in the North East on 4 November

Canada's Francophone Minority Communities Michael Derek Behiels, 2004. By the late 1950s, francophone and Acadian minority communities outside Quebec were in rapid decline. Demographic, economic, socio-cultural, institutional, and political factors that had sustained both the concept and the reality of French Canada for well over a century were being eliminated or transformed. *Canada's Francophone Minority Communities* shows how French-speaking minorities won the right to full and unfettered school governance with the backing of the Charter, the Supreme Court, and the Canadian government. Convinced that education was one of the essential keys to the renewal and growth of their communities, francophone organizations and leaders lobbied for constitutional entrenchment of official bilingualism and a mandated Charter right to education in their own language, including the right to governance over their own schools and school boards, a significant Canadian innovation. From those efforts, a new, vigorous francophone pan-Canadian national community emerged, one capable of ensuring the survival of its constituents' communities well into the twenty-first century.

The Duke's Province Robert C. Ritchie, 2012-12-01. The late seventeenth century in America was important as an era of transition from rough settlement to established provincial life. It was a time when social, political, and economic problems caused strains that led to religious doubt, personal anxiety, riot, and one of the worst rebellions in the colonies. New York's situation was further complicated by a series of political changes and a unique bicultural population. Originally published in 1977, A UNC Press Enduring Edition.
