Boundaries and Belonging Joel S. Migdal, 2004-05-03 This interdisciplinary volume maintains the importance of a spatial understanding of society and history but suggests a way of conceiving of borders and space that goes beyond a school map of states Its subject is the struggle among differing spatial logics or mental maps It is concerned with the meaning that state borders hold for people but recognizes that such meaning varies and is contested by other social formations To what degree do state borders encase the mechanisms that make the decisive rules governing people's lives and to what extent do they give way to other rulemakers To what extent do states circumscribe the communities to which people feel attached and to what extent do they intersect with other communities of belonging These essays home in on the struggles and conflicting demands on people given that state borders are not automatically pre eminent and that other spatial logics demand attention

Travel, Tourism, and Identity Gabriel R. Ricci, 2017-09-29 Travel Tourism and Identity addresses the psychological and social adjustments that occur when people make contact with others outside their social cultural or linguistic groups Whether such contact is the result of tourism seeking exile or relocating abroad the volume s contributors demonstrate how one s identity cultural assumptions and worldview can be brought into question In some cases the traveller finds that bridging the social and cultural gap between himself and the new society is fairly easy In other cases the traveller discovers that reorienting himself requires absorbing a new cultural history and traditions The contributors argue that making these adjustments will surely enhance the traveller s or tourist s experience otherwise the traveller or tourist will be at risk of

becoming a marginalized figure one disconnected from the society that surrounds him This latest volume in the Culture Civilization series features a collection of essays on travel and tourism The essays cover a range of topics from historical travels to modern social identities They discuss ancient travels contemporary travels in Europe Africa and sustainable eco tourism and the politics of tourism Essays also address experiences of Grenada s Spice Island identity and the effects of globalization and migrations on personal identity

of comparative politics and international relations in general Historical Dictionary of Tibet John Powers, David Templeman, 2012-05-18 Tibet is a land bounded by the world's highest mountains and it is the repository of an ancient culture. For centuries it was viewed by Europeans as a remote mystical place populated by Buddhist masters with supernatural powers and profound wisdom. In contrast to this image it was once a warlike country whose expansionist rulers conquered a vast empire that incorporated much of central Asia and parts of China. Even now the Tibetan Plateau remains a scene of contestation both ideologically and militarily. Major popular uprisings in 1959, 1988 and 2008 have drawn the attention of the world's media and its religious teachers often attract large crowds when they travel overseas. The situation in the country remains highly volatile today as the 2008 uprising the largest and most widespread in the history of the region attests. The Historical Dictionary of Tibet is the most comprehensive dictionary published to date on Tibetan history. It covers the history of Tibet from 27,000 BCE to the present through a chronology, an introductory essay, an extensive bibliography and over 1,000 cross-referenced dictionary entries on important personalities, politics, economy, foreign relations, religion, culture, anthropology and sociology. This book is an excellent access point for students, researchers and anyone wanting to know more about Tibet.

In the Shadow of the Holocaust and the Inquisition Raanan Rein, 2013-10-23 This is an analysis of the reasons for the failure of all efforts to establish diplomatic relations between Israel and Francoist Spain from the late 1940s to the mid 1970s. It uncovers the political discussions and the diplomatic moves of each country.

Governmental Illegitimacy in International Law Brad R. Roth, 1999 When is a de facto authority not entitled to be considered a government for the purposes of International Law? In this book Brad Roth offers a detailed examination of collective non-recognition of governments.

The Virtues of Exit Jenett Kirkpatrick, 2017-10-03 Successful democracies rely on an active citizenry. They require citizens to participate by voting, serving on juries and running for office. But what happens when those citizens purposefully opt out of politics? Exit, the act of leaving, is often thought of as purely instinctual, a part of the human fight or flight response, or alternatively motivated by an antiparticipatory, self-centered impulse. However, in this eye-opening book Jenett Kirkpatrick argues that the concept of exit deserves closer scrutiny. She names and examines several examples of political withdrawal from Thoreau's decamping to Walden to slaves

fleeing to the North before the Civil War In doing so Kirkpatrick not only explores what happens when people make the decision to remove themselves but also expands our understanding of exit as a political act illustrating how political systems change in the aftermath of actual or threatened departure Moreover she reframes the decision to refuse to play along whether as a fugitive slave a dissident who is exiled but whose influence remains or a government in exile as one that shapes political discourse historically and today

In the Company of Others Nancy E. Snow, 1996 Political and public debate recently has centered on issues of community family and culture What are the boundaries of community and why is community important What constitutes a family and is it the fundamental unit of a stable society What difference does feminism make in our lives and in society How do racial and cultural minorities affect culture as a whole In the Company of Others brings together new and previously published essays by nine distinguished philosophers who argue these questions from a variety of perspectives Presenting traditional and non traditional approaches their essays challenge and refine recent thinking on issues of contemporary social and political importance

Turkey in Germany Betigul Ercan Argun, 2017-09-25 This study explores the relationship between migration and political development and asks the question how are migration movements and the expatriate communities they create connected to the possibility of enhanced political voice or the preservation of illiberal politics in sending countries The thesis of this work is that politics of origin may be better understood by their extensions into transnational public spheres because civil society as a discursive space may be more liberally grounded in migrant receiving countries than in sending societies
