Chinese Diaspora Archaeology in North America Chelsea Rose, J. Ryan Kennedy, 2020-04-08 Archaeologists are increasingly interested in studying the experiences of Chinese immigrants yet this area of research is mired in long standing interpretive models that essentialize race and identity Showcasing the enormous amount of data available on the lives of Chinese people who migrated to North America in the nineteenth century this volume charts new directions by providing fresh approaches to interpreting immigrant life In this volume leading scholars first tackle broad questions of how best to position and understand these populations They then delve into a variety of site based and topical case studies providing new approaches to themes like Chinese immigrant foodways and highlighting understudied topics including entrepreneurialism cross cultural interactions and conditions in the Jim Crow South Pushing back against old colonial based tropes contributors call for an awareness of the transnational relationships created through migration engagement with broader archaeological and anthropological debates and the expansion of research into new contexts and topics Contributors Linda Bentz Todd I Braje Kelly N Fong D Ryan Gray J Ryan Kennedy Christopher Merritt Laura W Virginia S Popper Adrian Praetzellis Mary Praetzellis Chelsea Rose Douglas E Ross Charlotte K Sunseri Barbara L Voss Priscilla Wegars Henry Yu Chang Ch'un-ch'iao and Shanghai's January Revolution Andrew Walder, 2021-01-19 Shanghai s **Books** Rose Arny, 2001-06 January Revolution was a highly visible and by all accounts crucially important event in China's Cultural Revolution Its occurrence along with the subsequent attempt to establish a commune form of municipal government has greatly shaped our understanding both of the goals originally envisaged for the Cultural Revolution by its leaders and of the political positions held by the new corps of Party leaders thrust upward during its course most notably Chang Ch un ch iao At this interpretive level the events in Shanghai seem to embody in microcosm the issues and conflicts in Chinese politics during the Cultural Revolution as a whole while at the same time shaping our conception of what these larger issues and conflicts were At the more general theoretical level however the events in Shanghai provide us with an unusual opportunity thanks to Red Guard raids on Party offices to view the internal workings of the Party organization under a period of stress and to observe unrestrained interest group formation and mass political conflict through the press accounts provided by these unofficial groups themselves The January Revolution thus provides us with an opportunity to develop better our more abstract theoretical understanding of the functioning of the Chinese political system and the dynamics of the social system in which it **Cultures of the Fragment** Heather Bamford, 2018-06-26 The majority of medieval and sixteenth century operates 1 Iberian manuscripts whether in Latin Hebrew Arabic Spanish or Aljamiado Spanish written in Arabic script contain fragments or are fragments. The term fragment is used to describe not only isolated bits of manuscript material with a damaged appearance but also any piece of a larger text that was intended to be a fragment Investigating the vital role these fragments played in medieval and early modern Iberian manuscript culture Heather Bamford's Cultures of the Fragment is

focused on fragments from five major Iberian literary traditions including Hispano Arabic and Hispano Hebrew poetry Latin and Castilian epics chivalric romances and the literature of early modern crypto Muslims The author argues that while some manuscript fragments came about by accident many were actually created on purpose and used in a number of ways from binding materials to anthology excerpts and some fragments were even incorporated into sacred objects as messages of good luck Examining four main motifs of fragmentation including intention physical appearance metonymy and performance this work reveals the centrality of the fragment to manuscript studies highlighting the significance of the fragment to Iberia s multicultural and multilingual manuscript culture The Sibley Journal of Engineering ,1923 Journal of the American Institute of Electrical Engineers American Institute of Electrical Engineers, 1924 Includes preprints of Transactions of the American Institute of Electrical Engineers ISSN 0096 3860 Academic Practice Saranne Weller, 2019-04-01 This book gives a broad overview of the issues faced by early career academics and explores a variety of topics from curriculum planning to employability Fully updated throughout key features of this second edition include Two new chapters on HE assessment and becoming a supervisor New case studies in every chapter What the TEF means for universities This is essential reading for higher education faculty undertaking professional development courses such as the PG Certificate in Academic Practice PGCAP the PG Certificate in Teaching and Learning in Higher Education PGCTLHE PGHE and related courses and also for early career academics wishing to deepen their understanding of contemporary higher education
