Graincollection Humans Natural Ecological Niche:

Erect Men/Undulating Women Melanie G. Wiber, 2006-01-01 Based on intensive study of human origin illustrations responses from students and colleagues and research into reconstructive illustration and feminist criticism of Western art this ground breaking book traces the subtle ways in which paleoanthropological conventions have influenced and have shifted in the creation of these illustrations Wiber reveals that embedded meanings in these illustrations go beyond gender to include two other ubiquitous themes racial superiority and upward cultural progress Underlying all these themes she found a basic conservatism in the paleoanthropological approach to evolutionary theory Erect Men Undulating Women provides a deeper understanding of popularized illustrations of human origins but more importantly it encourages readers to gain a sensitivity to the ways in which Western culture constructs scientific findings that are compatible with its deeply held beliefs and values

Graincollection Sergio Treviño, 1991 Taking as a basis the hypotheses which state that humans ancestors were seed eaters as proposed by Clifford J Jolly in 1970 and then were graincollectors for the last 14 million years and the belief that humans morphological physiological and behavioral characteristics are not those of hunter gatherers or scavenger gatherers Graincollection by Sergio Trevi o examines the origin of all living hominoids humans gorillas chimpanzees orangutans gibbons and siamangs and concludes that it is a fact that all of them descend from distant graincollectors It also examines some current human behavioral characteristics and the present status of the human species with respect to all living beings and concludes that the true instinctive behavioral characteristics of all human beings are currently repressed because we are living within an unnatural social systems that is not in accordance with that of our graincollector behavioral characteristics The main purpose of this book is to call this theory to the attention of the scientific community

Foraging for Survival Stuart A. Altmann, 1998-08-15 The result of decades of research Foraging for Survival will be an essential reference for primatologists behavioral ecologists mammalogists and nutritionists

This Is Biology Ernst Mayr, 1998-09-15 An eyewitness to this century's relentless biological advance and the originator of some of its most important concepts Ernst Mayr is uniquely qualified to offer a vision of science that places biology firmly at the center and a vision of biology that restores the primacy of holistic evolutionary thinking

The Animals' Agenda, 1992 *Good Reasoning Matters!* Leo Groarke, Christopher William Tindale, 2004 Offering an innovative approach to critical thinking Good Reasoning Matters identifies the essential structure of good arguments in a variety of contexts and also provides guidelines to help students construct their own effective arguments In addition to examining the most common features of faulty reasoning slanting bias propaganda vagueness ambiguity and a common failure to consider opposing points of view the book introduces a variety of argument schemes and rhetorical techniques This edition adds material on visual arguments and more exercises
