Excerpt from *A Grammar of the Hausa Language* This Grammar is primarily for students who have already acquired some knowledge of the Hausa language In its compilation the Author has been at pains to make the vocabulary as diversified as possible so that there are few words in common use that have not been made use of All rules too have been fully illustrated and as regards such as have only been slightly noticed by other writers the Author has for preference selected sentences from texts to which all students of the language have access In this way the existence of the rules themselves is more readily recognised The origin of the Hausa language is not inquired into here and etymologies are only occasionally examined Both of these subjects were discussed by the Author in his recently published work *The Languages of West Africa* and a repetition seemed somewhat unnecessary The same observation applies to the native script which is Arabic slightly modified About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      **A Grammar of the Hausa Language** Frederick William Hugh Migeod,1914      **Grammar of the Hausa Language** James Frederick Schön,2015-06-12

Excerpt from *Grammar of the Hausa Language* The language a Grammar of which is now presented to the public is called the Hausa The origin of the name itself I have not been able to ascertain nor has Dr Barth been more successful than myself in the endeavour to settle the question It may be mentioned however that the word Hausa is explained by some as denoting the language rather than the people and that my interpreters at Sierra Leone insisted on rendering the passages referring to the miraculous gift of tongues by speaking another Hausa but as we must say yi magana n Hausa or yi magana n Hausawa that is to speak the language of the Hausa country or of the Hausa people this individual assertion carries little weight And the fact that a Hausa man is called bahause which forms its plural regularly into hausawa seems to deprive it of all appearance of probability The extent of the territory in which the Hausa is the vernacular language and the notoriety it has attained among other nations being of much greater importance than the origin of its name I shall endeavour to exhibit these two subjects at some length as it will be seen thereby that so much time labour and expense bestowed upon the reduction of this language have not been misapplied by the Committee of the Church Missionary Society
