Big Ideas in Outdoor Primary Science Peter Loxley, 2020-07-08 Big Ideas in Outdoor Primary Science takes a fresh approach to learning science in outdoor contexts It combines new thinking in science teaching using big ideas with our growing need to look after our planet and encourages children to learn from what scientists have to say about issues which will impact their lives today and in the future The book offers primary teachers the subject and pedagogical knowledge as well as the confidence they need to integrate the seeds of big ideas into their curriculum To this end it provides models of good practice which exemplify how primary aged children can work towards understanding some of science s big ideas and engage with important issues related to wildlife conservation The easy to use book covers topics such as Interdependence Adaptation Inheritance Following in Darwin s footsteps Protecting ecosystems Full of ideas for outside learning this book is a comprehensive valuable and essential resource for all teachers of primary science

Integrating Differentiated Instruction and Understanding by Design Carol Ann Tomlinson, Jay McTighe, 2006-01-15 Teachers struggle every day to bring quality instruction to their students Beset by lists of content standards and accompanying high stakes accountability tests many educators sense that both teaching and learning have been redirected in ways that are potentially impoverishing for those who teach and those who learn Educators need a model that acknowledges the centrality of standards but also ensures that students truly understand content and can apply it in meaningful ways For many educators Understanding by Design addresses that need Simultaneously teachers find it

increasingly difficult to ignore the diversity of the learners who populate their classrooms Few teachers find their work effective or satisfying when they simply serve up a curriculum even an elegant one to students with no regard for their varied learning needs For many educators Differentiated Instruction offers a framework for addressing learner variance as a critical component of instructional planning In this book the two models converge providing readers fresh perspectives on two of the greatest contemporary challenges for educators crafting powerful curriculum in a standards dominated era and ensuring academic success for the full spectrum of learners Each model strengthens the other Understanding by Design is predominantly a curriculum design model that focuses on what we teach Differentiated Instruction focuses on whom we teach where we teach and how we teach Carol Ann Tomlinson and Jay McTighe show you how to use the principles of backward design and differentiation together to craft lesson plans that will teach essential knowledge and skills for the full spectrum of learners Connecting content and kids in meaningful ways is what teachers strive to do every day In tandem UbD and DI help educators meet that goal by providing structures tools and guidance for developing curriculum and instruction that bring to students the best of what we know about effective teaching and learning

The Common Core Companion: The Standards Decoded, Grades 3-5 Leslie Blauman, Jim Burke, 2014-04-24 It's the teaching around the standards that counts If you're an upper elementary teacher we have a Common Core Companion for you too What makes this book that version of the standards you wish you had It's the way Leslie Blauman translates each and every standard for reading writing speaking and listening language and foundational skills into the day to day what you do It's all here The standards for literature and informational texts put side by side for easier planning More than a dozen teaching ideas for each standard Recommendations on how to cultivate critical habits of mind A glossary of academic language for each standard An online bank of graphic organizers reproducible charts and more What makes The Common Core Companion Grades K-2 that version of the standards you wish you had The way it translates each and every standard into the day to day what you do
