Senna Versus Prost Malcolm Folley, 2009-05-07 In the late eighties and early nineties Formula One was at its most explosive with thrilling races, charismatic drivers, nail-biting climaxes and the most deadly rivalry ever witnessed in sport. Two of Formula One's most honoured champions and iconic figures drove together for McLaren for two seasons and their acrimonious and hostile relationship extended even after one of them had left the team. ALAIN PROST, France's only F1 world champion, the intelligent, smooth driver with the epithet 'Le Professeur'. Ayrton Senna, the mercurial kid from a privileged background in Sao Paulo who would become the most intense and ruthless racing driver the world has ever seen. It was a story that would have a tragic ending. As the great rivals raced to victory, their relationship deteriorated badly, beginning with the breaking of a gentleman's agreement and public spats followed, culminating in Prost accusing Senna of deliberately trying to ride him off the circuit and fearful that the Brazilian would get someone killed with his daring overtaking feats. And the final sad act of this drama happened at the San Marino Grand Prix at Imola in May 1994 when Senna was killed. Featuring a rare interview with Prost and insight from Martin Brundle, Damon Hill, Sir Frank Williams, Bernie Ecclestone, Derek Warwick, Johnny Herbert, Gerhard Berger plus McLaren insiders and other F1 figures, Malcolm Folley provides us with a breath-taking account of one of the all-time classic sporting rivalries.

Progressing Tourism Research Herbert William Faulkner, Bill Faulkner, 2003 Professor Bill Faulkner was the father of tourism research in Australia, having spent 20 years in the field, first within government and then in academe. He was a visionary whose impact on the tourism research field extended well beyond Australia. This work contains a collection of Faulkner's publications grouped thematically under the headings: Methods, Events, Destinations and Research Agenda. The sections demonstrate how his thinking evolved over time and influenced the intellectual development of the field itself. An introductory chapter describes Faulkner's life and the contribution that he made to the field of tourism research.

Formula One: The Pinnacle Tony Dodgins, Simon Arron, Guenther Steiner, 2022-05-10 As Lewis Hamilton, Max Verstappen and Charles Leclerc battle it out head to head in the most hotly contested championship in years, this in-depth book with a foreword from Haas team principal Guenther Steiner tells the story of how the sport evolved into the exhilarating high-octane spectacle it is today. The new rules introduced in 2022 signal the greatest change to F1 in a generation, cracking the field wide open and seeing some of the most compelling and competitive races in the last 25 years. Technical changes aimed at levelling the playing field for the teams, combined with the sport's tightening budget cap, have made the races closer than ever. There will be more sprint races trialled in 2021 and

greater fan interest driven by Netflix's hugely successful Drive to Survive series So how did we get here How did F1 become the acknowledged Pinnacle of Motorsport Simon Arron and Tony Dodgins have identified the 100 most significant changes to the series since its inception in 1950 Formula One is unrecognizable from its debut season where drivers raced around on old bomber training aerodrome in Northamptonshire with oil drums to mark the corners and straw bales the only concession to safety New fans will welcome a complete and highly illustrated guide to the history of F1 while older fans will be able to compare their own views of what were the pivotal moments of change in a book written by experienced motoring writers with two lifetimes worth of knowledge of the sport The book will link technical progress with the personalities involved indeed many of the swiftest changes have come about as a result of accidents or tragedies the death of Roland Ratzenberger at Imola in 1994 the same weekend as Ayrton Senna could have been avoided by the HANS safety device The introduction of the halo saved Romain Grosjean's life in Bahrain last year but only came about because of the tragic accident that claimed Jules Bianchi in Japan Along with changes to circuits and the technology of the cars this book highlights the commercial changes and the controversies that threatened to split the sport apart such as the threat of breakaway series proposed at various times by teams A must read for completists or for those new to the sport F1 The Pinnacle is a fascinating insight into one of the most exciting and dangerous sports in the world
