Hacia Una Teoría De La Lengua Escrita:

Hacia una teoría general del ensayo María Elena Arenas Cruz, 1997 Este trabajo pretende ser un intento de coordinar e integrar dentro de una teoría general sobre los géneros y las clases de texto la descripción particular de los diversos aspectos del texto ensayístico y su funcionamiento en el marco de la Literatura entendida ésta como institución que establece los principios convencionales y específicos de la comunicación literaria en el seno de una sociedad y una cultura Para ello hemos postulado en primer lugar un género natural el argumentativo cuyos principios universales comunes a otras clases de textos como la epístola el diálogo humanista el discurso la glosa etc constituyen la base de la institución textual y pragmática del ensayo En segundo lugar para perfilar y determinar la configuración global del conjunto de fenómenos que recubre el referente cognitivo de la clase ensayo en el marco de la cultura occidental nos hemos atendido a la doble condición histórica y pragmática de toda clase de textos Por ello hemos estructurado la materia en dos grandes bloques el proceso de la institución histórica del ensayo como clase de textos por un lado y los principios de su construcción textual en los diferentes niveles semántico sintáctico y pragmático puede constituirse el ensayo como clase de textos autónoma y distinguirse de otras clases de textos más o menos próximas con las que guarda vínculos de tipo genérico

Developing Culturally and Historically Sensitive Teacher Education Yolanda Gayol Ramírez, Patricia Rosas Chávez, Peter Smagorinsky, 2020-09-17 Shortlisted for the UK Literacy Association's Academic Book Award 2021 This volume explores the literacy education master's degree program developed at Universidad de Guadalajara in Jalisco Mexico with the aim of addressing the nation's emerging social economic technological and political needs Developing the program required taking into account the cultural diversity historical economic disparities indigenous and colonial cultures and power inequities of the Mexican nation These conditions have produced economic structures that maintain the status quo that concentrates wealth and opportunity in the hands of the very few creating challenges for the education and economic life for the majority of the population The program advocates providing tools for youth to critique and change their surroundings while also learning the codes of power that provide them a repertoire of navigational means for producing satisfying lives Rather than arguing that the program can be replicated or taken to scale in different contexts the editors focus on how their process of looking inward to consider Mexican cultures enabled them to develop an appropriate educational program to address Mexico's historically low literacy rates They show that if all teaching and learning is context dependent then focusing on the process of program development rather than on the outcomes that may or may not be easily applied to other settings is appropriate for global educators seeking to provide literacy teacher education grounded in national concerns and challenges The volume provides a process model for developing an organic program designed to address needs in a national context especially one grounded in both colonial and heritage cultures and one in which literacy is understood as a tool for social critique redress advancement and equity

El aprendizaje inicial de la lengua escrita:

Ligia, Sánchez Castellón,2022-08-23 Este libro es el resultado de un proyecto de investigación que trata de mostrar la relación dialéctica entre la lectura y la escritura considerando que lo primero que aprenden a leer los niños no está regulado por la escuela sino por el mundo familiar y el entorno cultural inmediato. Esto que aprenden a leer de manera natural sobre todo en los espacios urbanos está vinculado con el mundo de las imágenes visuales que a través de la televisión las revistas y los diarios de las vallas los avisos callejeros y las enunciaciones publicitarias en los bienes de consumo es asimilado rápidamente por ellos. El proyecto en referencia se centró en el trabajo con docentes de educación básica quienes reflexionaron sobre sus prácticas pedagógicas en busca de alternativas que permitieran que en la escuela los niños produjeran textos desde el principio pudieran vivir el asombro de saber cómo es la lengua que hablamos y acceder paulatinamente a las competencias fundamentales para vivir en sociedad. En este libro están las voces de maestras que se interesaron por aprender algo más sobre el fenómeno social de la lectura y la escritura preocupadas por el desdén hacia los textos impresos que ha ido acentuándose entre los adultos.

Approaches to the History of Written Culture Martyn Lyons,Rita Marquilhas,2017-08-07

This book investigates the history of writing as a cultural practice in a variety of contexts and periods. It analyses the rituals and practices determining intimate or ordinary writing as well as bureaucratic and religious writing. From the inscribed images of pre-literate societies to the democratization of writing in the modern era, access to writing technology and its public and private uses are examined. In ten studies presented by leading historians of scribal culture from seven countries, the book investigates the uses of writing in non-alphabetical as well as alphabetical script in societies ranging from Native America and ancient Korea to modern Europe. The authors emphasise the material characteristics of writing and in so doing they pose questions about the definition of writing itself. Drawing on expertise in various disciplines they give an up-to-date account of the current state of knowledge in a field at the forefront of Book History.

A Bibliography on Writing and Written Language

Konrad Ehlich,Florian Coulmas,Gabriele Graefen,2011-06-01 The bibliography offers information on research about writing and written language over the past 50 years. No comprehensive bibliography on this subject has been published since Sattler's 1935 handbook. With a selection of some 27 500 titles it covers the most important literature in all scientific fields relating to writing. Emphasis has been placed on the interdisciplinary organization of the bibliography creating many points of common interest for literacy experts, educationalists, psychologists, sociologists, linguists, cultural anthropologists and historians. The bibliography is organized in such a way as to provide the specialist as well as the researcher in neighboring disciplines with access to the relevant literature on writing in a given field. While necessarily selective it also offers information on more specialized bibliographies. In addition an overview of norms and standards concerning script and writing will prove very useful for non-professional readers. It is therefore also of interest to the generally interested public as a reference work for the humanities.

Hacia una teoría general de la novela Miguel Angel García Peinado,1998

A lo largo

de las tres partes que componen este estudio sobre la teoría de la novela el autor procede de una exhaustiva a la vez que novedosa revisión de los pivotes sobre los cuales gira y se construye el género literario más lejano e inclasificable Partiendo de los albores de la narración un narrador contando una historia a un auditorio a su alrededor se llega a la siguiente definición de la novela Texto que basándose en hechos acaecidos que pueden acaecer o totalmente ficcionales la historia es transformado gracias al estilo del escritor en la narración de aventuras destino psicológico de unos personajes inmersos problemáticamente en un trasunto de realidad a través de un discurso coherente generalmente en prosa y de cierta longitud destinada a producir un efecto estético y referencial en el lector Desde esta definición se analiza la evolución del género novelesco la evolución de la forma narrativa y los métodos críticos que posibilitan un acercamiento a la narración a la novela **La figura de las voces.**

De las letras primigenias a los textos novohispanos Beatriz Arias Álvarez, 2025-01-23 Con los triunfos de la lingüística moderna y sobre todo el estudio de la sociolingüística la primacía de lo escrito se ha visto forzada a concederle mucho terreno a lo oral en todo lo que concierne a cuestiones de lengua De hecho es todo un tópico en los círculos lingüísticos de hoy se alar que lo escrito es un derivado de la lengua hablada La relación entre estas dos modalidades de lengua ha sido un tema muy discutido en la lingüística como nos han enseñado a la perfección Koch y Oesterreicher 2007 entre muchos otros Sin embargo una gran parte de la historia de las lenguas incluyendo la lengua española solo se puede estudiar a través de lo escrito no hay datos orales ni grabaciones para lo de antaño Aunado a lo anterior existe una tendencia a tratar la representación escrita de pocas anteriores de forma transparente como si fuera una representación del habla oral a la manera moderna sin más engorros lingüísticos No obstante no se debe nunca olvidar que las realizaciones gráficas de cierta poca provienen de un producto netamente cultural así que pueden engañar al lector si no se sabe interpretar bien las tradiciones ortográficas según las normas de la poca en que se produjeron La citada suposición o actitud de WYSIWYG What you see is what you get una constante en nuestro actual mundo digital raras veces funciona en el marco histórico y por consiguiente todo filólogo tiene que proceder en el análisis histórico lingüístico con inteligencia y mucha cautela haciendo una interpretación bien informada

Hacia una teoría de la lengua escrita Nina Catach, 1996 El texto compara el descubrimiento de la escritura con la invención de la informática La informática debería también llevar a una reflexión sobre los diferentes medios semiológicos que la humanidad ha utilizado para plasmar la escritura y el lenguaje Ya sean antiguos o modernos estos conjuntos gráficos se estudian en el presente volumen no desde un punto de vista arqueológico sino desde la perspectiva plenamente lingüística considerándolos como sistemas de signos **El ingreso a la escritura y a las culturas de lo escrito** Emilia Ferreiro, 2014-05-15 En este libro se presentan datos novedosos de más de quince investigaciones sobre los múltiples problemas que los niños pequeños resuelven para apropiarse de la escritura Una escritura presente en libros y objetos diversos en papel o en pantalla La escritura además es un sistema con varias facetas gráficas ortográficas lingüísticas discursivas En un mundo interconectado hay que pensar en sistemas de escritura en plural así como en diversidad de lenguas y en consecuencia en modos culturalmente

diversos de interactuar con lo escrito Como en todos sus otros libros Emilia Ferreiro se dirige a lectores cr ticos dispuestos a revisar su pr ctica ya sean investigadores docentes o formadores de docentes Presenta datos que ayudan a pensar Amplifica la voz de los ni os quienes siempre buscan dar sentido a las informaciones recibidas dentro y fuera de la escuela Sugiere modos de b squeda de soluciones pr cticas sin prescribir Indagaciones en los márgenes Leonardo Peluso, Carmen Torres, 2000 **De La Poetica a La Teoria De La Literatura / From the Poetic to the Theory Literature** Ascensión Rivas Hernández, 2005-01-01 *Hacia el lenguaje* Kyra Karmiloff, Annette Karmiloff-Smith, 2005-07 Nuestra andadura hacia el lenguaje comienza antes del nacimiento cuando el feto en el tero oye con la suficiente claridad como para poder distinguir la voz de su madre Técnicas actuales de investigación han permitido demostrar los procesos de aprendizaje del lenguaje en múltiples niveles Sabemos ahora que mucho antes de que ni as y ni os produzcan sus primeros vocablos han estado procesando activamente los sonidos los ritmos la construcción de las palabras y de la gramática Mediante el examen de un amplio conjunto de enfoques experimentales y teóricos este libro presenta un nuevo modelo de la adquisición del lenguaje desde el procesamiento fetal del habla hasta los complejos logros lingüísticos de la adolescencia pasando por el desarrollo de la gramática infantil Kyra KARMILOFF y Annette KARMILOFF SMITH hija y madre presentan evaluaciones bien fundadas de diferentes teorías de la adquisición del lenguaje Muestran cómo el uso adolescente ha cambiado el significado de ciertas expresiones y cómo en la vida moderna se producen alteraciones en el léxico También examinan el fenómeno del desarrollo atípico del lenguaje así como las cuestiones teóricas del nativismo y el empirismo y la especificidad del lenguaje humano Este es un libro de fácil lectura pero riguroso en sus análisis dirigido a especialistas y estudiantes de psicología pedagogía medicina y en general a quienes les interesa el desarrollo del lenguaje Kyra KARMILOFF es investigadora en el Centre for Speech and Language de la Cambridge University Annette KARMILOFF SMITH es catedrática y directora de la Neurocognitive Development Unit del Institute of Child Health de Londres La teoría sociocultural y la psicología social actual Amalio Blanco (Ed), Amalio Blanco Abarca, Darío Páez, 1996 *Revista de filosofía*, 2000 **Escritura y necesidades educativas especiales. Tomashevski, V. Propp, 2014-05-15 Entre 1915 Y 1930 un grupo de jóvenes lingüistas y poetas rusos ligado a los movimientos artísticos de vanguardia revolucionó el campo de los estudios literarios Ese laboratorio de experimentación crítica que ha tenido vastas influencias en el desarrollo estructuralista posterior modificó el modo de analizar las obras desde entonces el sentido de un relato o un poema no emana del proyecto biográfico o intelectual de su autor ni de la tradición literaria sino de la construcción misma de ese texto de las decisiones estilísticas y la organización interna que definen su forma Este cambio de foco generó muchos rechazos y debates a la vez que se convirtió en el punto de partida de la crítica literaria moderna Mi actitud frente a los formalistas rusos ha cambiado en diversas oportunidades lo cual después de todo no es nada sorprendente pues se me volvieron íntimos hace más

de veinte años La primera impresión consistía en este descubrimiento se podía hablar de la literatura en forma alegre irreverente inventiva al mismo tiempo sus textos trataban de aquello de lo que nadie parecía preocuparse y que sin embargo yo había creído siempre esencial de aquello que se denominaba la técnica literaria Fue esta admiración lo que me llevó a buscar texto tras texto y luego a traducirlos En un segundo momento creí percibir en sus escritos la presencia de un proyecto tan rico el de la constitución de una poética que sin embargo no era forzosamente coherente ni se había realizado a fondo Por último en el curso de un tercer período empecé a percibir a los formalistas como un fenómeno histórico lo que me interesaba no era tanto el contenido de sus ideas como su lógica interna y su lugar en la historia de las ideologías
