Hagia Sophia:

Hagia Sophia, 1850-1950 Robert S. Nelson, 2004-07-14 Hagia Sophia the Church of Holy Wisdom sits majestically atop the plateau that commands the straits separating Europe and Asia Located near the acropolis of the ancient city of Byzantium this unparalleled structure has enjoyed an extensive and colorful history as it has successively been transformed into a cathedral mosque monument and museum In *Hagia Sophia 1850 1950* Robert S Nelson explores its many lives Built from 532 to 537 as the Cathedral of Constantinople Hagia Sophia was little studied and seldom recognized as a great monument of world art until the nineteenth century and Nelson examines the causes and consequences of the building s newly elevated status during that time He chronicles the grand dome s modern history through a vibrant cast of characters emperors sultans critics poets archaeologists architects philanthropists and religious congregations some of whom spent years studying it others never visiting the building But as Nelson shows they all had a hand in the recreation of Hagia Sophia as a modern architectural icon By many means and for its own purposes the West has conceptually transformed Hagia Sophia into the international symbol that it is today While other books have covered the architectural history of the structure this is the first study to address its status as a modern monument With his narrative of the building s rebirth Nelson captures its importance for the diverse communities that shape and find meaning in Hagia Sophia His book will resonate with cultural architectural and art historians as well as with those seeking to acquaint themselves with the modern life of an inspired and inspiring building

Flashpoint Hagia Sophia Brian Croke, 2021-12-30 Istanbul s Hagia Sophia Holy Wisdom or Ayasofya is one of the world s most visited buildings Yet few visitors have any idea of its long

and complex story or why it has always been a place where history religion and politics collide In July 2020 Turkish President Erdoğan set off an explosive controversy by announcing that Hagia Sophia would now be modified into a mosque This decision provoked fierce criticism from UNESCO because Hagia Sophia was enjoying World Heritage Site benefits The United States the European Union Russia and Greece all chimed in However Erdoğan's action was wildly popular in Turkey with its 99% Muslim population Why is Hagia Sophia so important to modern Turkey Why this provocative decision and why now How could all the international critics be ignored Why does the world care so much about this old building Why should it continue to care This book explains President Erdoğan's controversial decision in terms of Turkey's national independent and Islamic politics and as a response to the mosque massacre in Christchurch in March 2019 when his life was threatened by the gunman Any consideration of Hagia Sophia's present and future also requires appreciation of the almost 1 500 year old story of this architectural marvel from its inception as a church in 537 to its configuration as a mosque in 2020 and beyond Because all world heritage sites depend on national management Hagia Sophia will remain Turkey's responsibility but the international community is watching to ensure Turkey honours Hagia Sophia's entire heritage from the 6th century to the 21st century

Hagia Sophia Nurettin Can Gülekli, Turkey. Basın-Yayın Genel Müdürlüğü, **Hagia Sophia** Emerson Howland Swift, 1940 The Hagia Sophia Charles River Charles River Editors, 2018-02-15 Includes pictures Includes contemporary accounts of the construction of the Hagia Sophia and its appearance Includes a bibliography for further reading So the church has been made a spectacle of great beauty stupendous to those who see it and altogether incredible to those who hear of it Its breadth and length have been so fittingly proportioned that it may without impropriety be described as being both very long and extremely broad And it boasts of an ineffable beauty for it subtly combines its mass with the harmony of its proportions having neither any excess nor any deficiency inasmuch as it is more pompous than ordinary buildings and considerably more decorous than those which are huge beyond measure and it abounds exceedingly in gleaming sunlight You might say that the interior space is not illuminated by the sun from the outside but that the radiance is generated within so great an abundance of light bathes this shrine all round Procopius The Hagia Sophia built from 532 537 is inarguably the masterpiece of Byzantine architecture and one of the greatest buildings ever constructed Upon its completion the Hagia Sophia remained the largest enclosed space in the world for nearly a thousand years a reign that only ended after the rebuilding of St Peter's in Rome Fittingly the rebuilding of St Peter's was partly inspired by the conversion of Hagia Sophia into a mosque in 1453 The building of Hagia Sophia itself was shocking and transformational Beginning with Procopius of Caesarea Justinian's court historian visitor after visitor noted that the giant dome seems to hover on air and it's unquestionably true that the arches vaults semidomes and domes add up for an otherworldly ethereal effect The surfaces are enriched by colored marble and elaborate mosaics and when viewing from the aisles and galleries looking into the nave is dramatic thanks to all the interconnecting layered spaces and repeating complex curved forms Interestingly however the

brick exterior of the building was left unadorned representing a shell that houses a magnificent interior The Hagia Sophia examines the history of one of the world's most famous religious sites and analyzes the religion and politics that shaped its fate
