Haitian Frustrations ,1995 **Haitian Frustrations** ,1995 Military Intelligence Professional Bulletin ,1997

Haitians Anthony V. Catanese,2019-04-03 In 1981 I was asked by some DePauw University students to serve as faculty adviser for a group planning to work in rural Haiti during the nearly month long interim term I accepted the offer for several reasons I had enjoyed being the faculty adviser for two previous work projects in Guatemala and Jamaica I had found the experience was educationally valuable for undergraduates and I could use it to enhance classroom learning during the semester In addition the experience of living and working in a radically different environment was intellectually stimulating for me as a social scientist interested in welfare economics Finally because such volunteer projects were rare in the early 1980s I realized the opportunity should not be passed up It was a chance to see a part of the world I had heard of but knew little or nothing about except from accounts found in newspaper and magazine articles **Negotiating the Free Trade**

Area of the Americas Z. Arashiro,2011-05-09 The first detailed historical account of the Free Trade Area of the Americas FTAA negotiations this book covers the genesis of the project in the early 1990s to its demise in late 2003 It examines how the FTAA an Inter American policy idea was incompatible with the predominant ideas and beliefs of Brazilian and American decision makers as to how they could and should conduct their countries foreign trade policy in the Western Hemisphere

Rara! Elizabeth McAlister,2002-05-01 Rara is a vibrant annual street festival in Haiti when followers of the Afro Creole religion called Vodou march loudly into public space to take an active role in politics Working deftly with highly original ethnographic material Elizabeth McAlister shows how Rara bands harness the power of Vodou spirits and the recently dead to broadcast coded points of view with historical gendered and transnational dimensions Parameters ,1995 **Marines**

on the Beach Christopher Paul,2008-09-30 Paul explores both how and why U S military intervention decisions are made Pursuit of that inquiry requires the identification of decision participants thorough examination of the decision making processes they employ and recognition of several factors that influence intervention decisions the national interest legitimacy and the legacies of previous policies This book provides chapter length treatment of each of these issues The research is based on detailed historical case studies for the four U S Marines on the beach military interventions in Latin America since World War II The Dominican Republic 1965 Grenada 1983 Panama 1989 and Haiti 1994 Additional cases notably Afghanistan and Iraq enter the discussion when considering findings with broader implications Of the existing theories of governance that compete to explain government policy making Paul finds that elite theory provides the best general model for intervention decision making but that the notions of both pluralist and class theorists contribute to a complete explanation and sometimes in an unexpected way Findings also indicate considerable contribution from and constraint by institutional sources However far from finding that institutional factors are wholly deterministic this research offers support for a choice within constraints model Conclusions suggest that top decision makers especially the president enjoy wide latitude in framing the national

interest and in choosing where to and where not to intervene *Democracy by Force* Karin von Hippel,2000 Since the end of the Cold War the international community and the USA in particular has intervened in a series of civil conflicts around the world In a number of cases where actions such as economic sanctions or diplomatic pressures have failed military interventions have been undertaken This 1999 book examines four US sponsored interventions Panama Somalia Haiti and Bosnia focusing on efforts to reconstruct the state which have followed military action Such nation building is vital if conflict is not to recur In each of the four cases Karin von Hippel considers the factors which led the USA to intervene the path of military intervention and the nation building efforts which followed The book seeks to provide a greater understanding of the successes and failures of US policy to improve strategies for reconstruction and to provide some insight into the conditions under which intervention and nation building are likely to succeed **Historical Dictionary of Inter-American**

Organizations David W. Dent,Larman C. Wilson,2013-12-11 The Historical Dictionary of Inter American Organizations covers the changing world of inter American and international organizations that have played an important role in bilateral and multilateral efforts to solve a wide range of problems that have confronted the nations of the Western Hemisphere The Latin American region is clearly more integrated regionally and internationally than in previous decades and is better prepared to confront a broad range of problems trade development illicit drugs terrorism and guerrilla activity health environment democratization trade human rights intervention electoral assistance peacekeeping and conflict resolutions migration border conflicts corruption and energy independence that governments and non governmental organizations face in the 21st century The role of the United States in Latin America has clearly faded since the end of the Cold War and the second edition of this book fills a large void in explaining the complexities of inter American organizations and their activities since the first edition was completed in the late 1990s This updated second edition of Historical Dictionary of Inter American Organizations covers the history of through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 400 hundred cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Inter American Organizations **American Foreign Policy 2000-2001** Glenn P.
