Hall Young Of Alaska The Mushing Parson:

Hall Young of Alaska, "The Mushing Parson" Samuel Hall Young, 1927 The autobiographical tales of an American missionary naturalist and explorer in the territory of Alaska **Hall Young of Alaska** S. Hall Young, 2013-10 This is a new release of the original 1927 edition An Alaska Anthology Stephen W. Haycox, Mary Childers Mangusso, 2011-06-01 Alaska with its Indian Eskimo and Aleut heritage its century of Russian colonization its peoples formidable struggles to wrest a living or a fortune from the North's isolated and harsh environment and its relatively recent achievement of statehood has long captured the popular imagination In An Alaska Anthology twenty five contemporary scholars explore the region's pivotal events significant themes and major players Native Russian Canadian and American The essays chosen for this anthology represent the very best writing on Alaska giving great depth to our understanding and appreciation of its history from the days of Russian American Company domination to the more recent threat of nuclear testing by the Atomic Energy Commission and the influence of oil money on inexperienced politicians Readers may be familiar with an earlier anthology Interpreting Alaska's History from which the present volume evolved to accommodate an explosion of research in the past decade While a number of the original pieces were found to be irreplaceable more than half of the essays are new The result is a fresh perspective on the subject and an invaluable resource for students teachers and scholars Do Glaciers Listen? Julie Cruikshank, 2010-10-01 Do Glaciers Listen explores the conflicting depictions of glaciers to show how natural and cultural histories are objectively entangled in the Mount Saint Elias ranges This rugged area where Alaska British Columbia and the Yukon Territory now meet underwent significant geophysical change in the late eighteenth and nineteenth centuries which coincided with dramatic social upheaval resulting from European exploration and increased travel and trade among Aboriginal peoples European visitors brought with them varying conceptions of nature as sublime as spiritual or as a resource for human progress They saw glaciers as inanimate subject to empirical investigation and measurement Aboriginal oral histories conversely described glaciers as sentient animate and quick to respond to human behaviour In each case however the experiences and ideas surrounding glaciers were incorporated into interpretations of social relations Focusing on these contrasting views during the late stages of the Little Ice Age 1550 1900 Cruikshank demonstrates how local knowledge is produced rather than discovered through colonial encounters and how it often conjoins social and biophysical processes She then traces how the divergent views weave through contemporary debates about cultural meanings as well as current discussions about protected areas parks and the new World Heritage site Readers interested in anthropology and Native and northern studies will find this a fascinating read and a rich addition to circumpolar literature *The Publishers Weekly*, 1928 **Legacies of Christian Language and Literacies in American Education** Mary M. Juzwik, Jennifer C. Stone, Kevin J. Burke, Denise Dávila, 2019-10-23 Because spiritual life and religious participation are widespread human and cultural phenomena these experiences unsurprisingly find their way into English language arts curriculum learning teaching

and teacher education work Yet many public school literacy teachers and secondary teacher educators feel unsure how to engage religious and spiritual topics and responses in their classrooms This volume responds to this challenge with an in depth exploration of diverse experiences and perspectives on Christianity within American education Authors not only examine how Christianity the historically dominant religion in American society shapes languaging and literacies in schooling and other educational spaces but they also imagine how these relations might be reconfigured From curricula to classroom practice from narratives of teacher education to youth coming to faith chapters vivify how spiritual lives beliefs practices communities and religious traditions interact with linguistic and literate practices and pedagogies In relating legacies of Christian languaging and literacies to urgent issues including White supremacy sexism and homophobia and the politics of exclusion the volume enacts and invites inclusive relational configurations within and across the myriad American Christian sub cultures coming to bear on English language arts curriculum teaching and learning This courageous collection contributes to an emerging scholarly literature at the intersection of language and literacy teaching and learning religious literacy curriculum studies teacher education and youth studies It will speak to teacher educators scholars secondary school teachers and graduate and postgraduate students among others
