Perspectives on Percival Everett Keith B. Mitchell, Robin G. Vander, 2013 Percival Everett writes novels short stories poetry and essays and is one of the most prolific acclaimed yet under examined African American writers working today Although to date Everett has published eighteen novels three collections of short fiction three poetry collections and one children's book his work has not garnered the critical attention that it deserves Perhaps one of the most vexing problems black and white scholars have had in trying to situate Everett's work is that they have found it difficult to place him and his work within a prescribed African American literary tradition Because he happens to be African American critics have expectations of so called authentic African American fiction however his work often thwarts these expectations In Perspectives on Percival Everett scholars engage all of his creative production On the one hand Everett is an African American novelist On the other hand he pursues subject matters that seemingly have little to do with African American culture The operative word here is seemingly for as these essays demonstrate Everett's works falls well within as well as
