The Representation of Genocide in Graphic Novels

Laurike in 't Veld,2018-12-19 This book mobilises the concept of kitsch to investigate the tensions around the representation of genocide in international graphic novels that focus on the Holocaust and the genocides in Armenia Rwanda and Bosnia In response to the predominantly negative readings of kitsch as meaningless or inappropriate this book offers a fresh approach that considers how some of the kitsch strategies employed in these works facilitate an affective interaction with the genocide narrative These productive strategies include the use of the visual metaphors of the animal and the doll figure and the explicit and excessive depictions of mass violence The book also analyses where kitsch still produces problems as it critically examines depictions of perpetrators and the visual and verbal representations of sexual violence Furthermore it explores how graphic novels employ anti kitsch strategies to avoid the dangers of excess in dealing with genocide The Representation of Genocide in Graphic Novels will appeal to those working in comics graphic novel studies popular culture studies and Holocaust and genocide studies

Drawing the Past,

Volume 2 Dorian L. Alexander, Michael Goodrum, Philip Smith, 2022-01-04 Contributions by Dorian L. Alexander, Chris Bishop, David Budgen, Lewis Call, Lillian C. Spedes, Gonzalo Dominic Davies, Sean Eedy, Adam Fotos, Michael Goodrum, Simon Gough, David Hitchcock, Robert Hutton, Iain A. MacInnes, Małgorzata Olsza, Philip Smith, Edward Still, and Jing Zhang. In *Drawing the Past*, Volume 2: Comics and the Historical Imagination, in the World contributors seek to examine the many ways in which history worldwide has been explored and re-represented through comics and how history is a complex construction of imagination, reality, and manipulation. Through a close analysis of such works as *V for Vendetta*, *Maus*, and *Persepolis*, this volume contends that comics are a form of mediation between sources both primary and secondary and the reader. Historical comics are not drawn from memory but offer a nonliteral interpretation of an object re-constructed in the creator's mind. Indeed, when it comes to history, stretching the limits of the imagination only serves to aid in our understanding of the past and through that understanding shape ourselves and our futures. This volume, the second in a two-volume series, is divided into three sections: History and Form, Historical Trauma, and Mythic Histories. The first section considers the relationship between history and the comic book form. The second section engages academic scholarship on comics that has recurring interest in the representation of war and trauma. The final section looks at mythic histories that consciously play with events that did not occur but nonetheless inflect our understanding of history. Contributors to the volume also explore questions of diversity and relationality, addressing differences between nations and the cultural, historical, and economic threads that bind them together, however loosely, and however much those bonds might chafe. Together, both volumes bring together a range of different approaches to diverse material and feature remarkable scholars from all over the world. The Limits of Life Writing David McCooey, Maria Takolander, 2019-12-18 In the age of social media, life writing is ubiquitous. But if life writing is now almost universal, engaged with on our phones, reported in our news, the generator of capital, no less, then what are the limits of life writing? Where does it begin and end? Do we live in a culture of life writing that has no limits? Life writing, as both a practice and a scholarly discipline, is itself markedly concerned with limits: the limits of literature, of genres, of history, of social protocols, of personal experience, and of forms of identity and of memory. By attending to limits, border cases, hybridity, generic complexities, formal ambiguities, and extra-literary expressions of life writing, *The Limits of Life Writing* offers new insights into the nature of auto-biographical writing in contemporary culture. The contributions to this book deal with subjects and forms of life writing that test the limits of identity and the tradition of life writing. The liminal case studies explored include magical realist fiction, graphic memoir, confessional poetry, and personal blogs. They also explore the ethical limits of representation found in Holocaust life writing, the importance of ficto-critical memoir as a form of resistance for trans writers, and the use of postmemoir to navigate the traumas of diasporic experience. In addition, *The Limits of Life Writing* goes beyond the conventional limits of life writing scholarship to consider how writers themselves experience limits in the creation of life writing, offering a work of life writing that is itself concerned with charting the limits of auto-

biographical expression This book was originally published as a special issue of *Life Writing* *Cartoonists, Works, and Characters in the United States through 2005* John Lent, 2006-04-30 This penultimate work in John Lent's series of bibliographies on comic art gathers together an astounding array of citations on American cartoonists and their work Author John Lent has used all manner of methods to gather the citations searching library and online databases contacting scholars and other professionals attending conferences and festivals and scanning hundreds of periodicals He has gone to great length to categorize the citations in an easy to use scholarly fashion and in the process has helped to establish the field of comic art as an important part of social science and humanities research The ten volumes in this series covering all regions of the world constitute the largest printed bibliography of comic art in the world and serve as the beacon guiding the burgeoning fields of animation comics and cartooning They are the definitive works on comic art research and are exhaustive in their inclusiveness covering all types of publications academic trade popular fan etc from all over the world Also included in these books are citations to systematically researched academic exercises as well as more ephemeral sources such as fanzines press articles and fugitive materials conference papers unpublished documents etc attesting to Lent's belief that all pieces of information are vital in a new field of study such as comic art Critical Approaches to Comics Matthew J. Smith, Randy Duncan, 2012-03-22 *Critical Approaches to Comics* offers students a deeper understanding of the artistic and cultural significance of comic books and graphic novels by introducing key theories and critical methods for analyzing comics Each chapter explains and then demonstrates a critical method or approach which students can then apply to interrogate and critique the meanings and forms of comic books graphic novels and other sequential art The authors introduce a wide range of critical perspectives on comics including fandom genre intertextuality adaptation gender narrative formalism visual culture and much more As the first comprehensive introduction to critical methods for studying comics *Critical Approaches to Comics* is the ideal textbook for a variety of courses in comics studies Contributors Henry Jenkins David Berona Joseph Witek Randy Duncan Marc Singer Pascal Lefevre Andrei Molotiu Jeff McLaughlin Amy Kiste Nyberg Christopher Murray Mark Rogers Ian Gordon Stanford Carpenter Matthew J. Smith Brad J. Ricca Peter Coogan Leonard Rifas Jennifer K. Stuller Ana Merino Mel Gibson Jeffrey A. Brown Brian Swafford **Insights on Literary Journalism** Kevin M. Lerner, 2024-12-30 Bringing together ten chapters by some of the most important scholars of literary journalism around the world this book covers a range of topics that are key to understanding the role of literary journalism as both a practice and a topic of academic study Beginning with an introduction that situates literary journalism in its historical context the chapters go on to address the basic definitional problem of literary journalism the rhetorical strategies of literary journalists the negotiated roles of subjects and storytellers gender geography the role of literary journalism in fostering the public imagination and the role of literary journalism in education The chapters draw on contemporary and relatable case studies which help readers link broader themes with their practical applications This volume concludes with an Afterword by Bill Reynolds editor of

Literary Journalism Studies which reflects on the preceding chapters and critically on the direction in which the field is heading in the near future Insights on Literary Journalism is highly recommended reading for advanced scholars and researchers of Literary Journalism as well as Literature and Media History *Comics Beyond Text and Image* Benjamin Fraser, 2025-08-08 *Comics Beyond Text and Image* conceptualizes comics as bodies exploring the substance and the many movements and expressions of comics first and foremost in terms of corporeality The book centers on the metaphor of the comics body as a way of opening up our understandings of what comics do It begins from the position that narrative in comics is corporeal expressed in and through the visual bodies into which the page can be divided analytically and from the interaction of the human body with the comics body Drawing on the philosophy of Baruch Spinoza the author argues for the primary role of visual narration over textual narration develops a theory of the comics text as a cohesive and variegated cartography and shows how thought is expressed in the extensive space of the comics page This theory is then applied in snapshots of individual comics works that each in their own way continue the philosophical discussions of embodiment This book moves beyond traditional modes of narration or narrative and will appeal to students and scholars of comics studies as well as to those thinking about visual narrative more broadly and to scholars of Spinoza and Deleuze **Boom!** Julie Rak, 2013-06-15 Since the early 1990s tens of thousands of memoirs by celebrities and unknown people have been published sold and read by millions of American readers The memoir boom as the explosion of memoirs on the market has come to be called has been welcomed vilified and dismissed in the popular press But is there really a boom in memoir production in the United States If so what is causing it Are memoirs all written by narcissistic hacks for an unthinking public or do they indicate a growing need to understand world events through personal experiences This study seeks to answer these questions by examining memoir as an industrial product like other products something that publishers and booksellers help to create These popular texts become part of mass culture where they are connected to public events The genre of memoir and even genre itself ceases to be an empty classification category and becomes part of social action and consumer culture at the same time From James Frey's controversial *A Million Little Pieces* to memoirs about bartending Iran the liberation of Dachau computer hacking and the impact of 9 11 this book argues that the memoir boom is more than a publishing trend It is becoming the way American readers try to understand major events in terms of individual experiences The memoir boom is one of the ways that citizenship as a category of belonging between private and public spheres is now articulated
